JOE WOODS

Acton Club

Gold Mining in the Porcupine Camp and some interesting personal experiences made a most interesting topic by Df. D. Garrett at the weekly luncheon of the Rotary Club of Acton. The doctor apent several years in Timmins on the Medical Staff at Hollinger Mines and gave the Rotarlans some idea of the scope of the industry in this camp and a general idea of the work. Many personal experiences

added to highlighting the talk. The club accepted with regret the resignaton of Mac Aylaworth who has been Secretary and is leaving Acton to practice in Toconto. President Mason very fittingly expressed the regret of the club and good wishes that follow Mac in his now field.

Over the week-end President Mason arranged for the erection of three new Rotary signs at the highway entrances to Acton. They look real smart and substantial. On the agenda for next meeting

is the annual visit of the district

governor and the meeting follow-

ing has another speaker slated who

will attract all the members too.
