Clare Burt reported that a week ago the Ontario office had received the greatest number of reports to date, 625. He recommended that forums come to group decisions on their discussions, and not leave it to the secretary to fill in the findings. He also recommended action projects and pointed out that 90 per cent, of the benelt of Farm Forum is to the community. Carry out decisions with action, Mr. Burt urged. He also urged that Forum people think for themselves. Have some people take the opposite side of the problem in order that it be viewed from every angle.
