Mackensie News

You'll be glad to know that things are looking up-changing fast for the better

During the war and emergency which followed we have done our very best to sorve you well-often not nearly as well as we wanted, but time and again we did the "impossible" to serve you as well as we did. Always we tried hard-did our very best, yet sometimes that best was not what we wanted or what you wanted.

Throughout it all your marvellous consideration and cooperation have been of tremendous help and we want you to know how thoroughly we appreciate it. Now things are looking up-looking better than they have for six years, and the future appears to be brighter yet. Gradually we have been successful in getting more coal and better coal, as . we have tried so hard to do all along.

Some of it is in now - more is coming And we can now foresee the time we have looked forward to seeing - the time when we can supply you with exactly what you want, exactly when you want it. Toward that end we are working hard It can't be a reality too soon to please us for when it happens we shall be able to please you better-and that certainly is our complete desire to do.
