Thomas Mann recently described democracy as the "political expression of Christianity."

Hello Home-makers! You will agree that as the temperature rises so does the waste of perishable food unless it can be refrigerated. It is also true that only with the aid of the refrigerator can shopping be done thrifty. Moreover, the refrigerator enables us to work more efficiently because raw and left-over foods are kept in the condition when temperature is maintained at 40 degrees, while ice cream and other frozen dishes can be homemade by dialing to the coldest point. Quite literally, your refrigerator adds greatly to the deliciousness of the food you serve from the soup course to the sweet.

### TAKE A TIP

1 Set a tin of consommé, or a jar of strained chicken stock near the freezing unit of your refrigerator. To serve, break with a fork and turn into soup cups. Top with cream and a slice of lemon.

2 Chill soup bowls for jellied consommé, plates for salad, shortbreads for frozen creams, in the refrigerator about a half hour before serving time.

3 Use creamed ice in a soup bowl surrounding a fish or fruit cocktail. We put ice cubes in a heavy piece of cotton and pound with a potato masher to make crushed ice.

4 You can make the cheaper steaks more tender if you pour a marinade over the meat and store in the refrigerator for a day. The marinade is a mixture of 1/2 cup salad oil, 1/2 cup vinegar, salt, pepper, paprika, 1/2 tsp. of Worcestershire sauce and 1 tsp. of onion juice. This solution is poured off the meat before it is broiled and can be kept in refrigerator for similar use again.

5 Prepare a simple dessert with left-over cake or graham wafers with a filling of soft custard, a little jam or crushed fruit, then mask the top and sides with whipped cream sweetened with honey or maple sugar. If such a glamorous dessert is kept in the refrigerator for a few hours or all day the flavours will blend delectably and all the cream remains firm.

6 Chill pastry dough and cookie mixtures to improve the texture and to merge the fat and flour. Do not let them freeze, but cover and store in the middle of the cabinet for a half hour at least before rolling on a lightly floured board or slicing a cookie roll. Of course any flour mixture for tea biscuits, rolls, pastries or cookies can be kept covered in a bowl directly below the freezing unit for a couple of weeks without deteriorating in flavour.

7 Fresh fruits should be as dry as possible to keep for any length of time in a refrigerator. Therefore, never wash berries, cherries or melons to be stored for four or five days, but spread them on a platter and place on the middle shelf of the refrigerator.

### CHEESE CAKE

2 1/2 lbs cottage cheese  
1/2 teaspoon vanilla  
2 cans condensed milk  
Juice of 3 lemons  
Grated rind of 1 lemon  
3 tablespoons plain gelatin  
2 cups whipping cream  
Soak gelatin in lemon juice. Heat milk well, add grated rind and cheese and mix well (cheese should first be run through a sieve). Add lemon juice and gelatin and fold in cream that has been beaten. Make a graham cracker crust and arrange in ring mold, reserving a few crumbs to sprinkle over top. Pour cheese mixture over crust, sprinkle with remaining crumbs and store in freezing tray for about three hours before serving. Serves 12.

### FRUIT SHERBERT

1 orange  
1 banana  
1 1/2 lemons  
2 eggs  
1 cup sugar  
1 cup water  
10 green or red cherries  
Green or red coloring  
Crush banana through potato ricer. Add fruit juices, cut cherries a little vegetable coloring, and all but one tablespoon sugar. Beat egg yolks and stir all mixtures together. Place in freezing tray and freeze to mush. Remove to chilled bowl and beat. Add egg whites, beaten with the tablespoon of sugar, fold into mixture. Pour back into freezing tray and finish freezing. Makes one and a half quarts.

### REFRIGERATOR PIE

3 egg whites  
1/2 cup sugar  
4 tbsps. powdered sugar  
1 quart strawberries  
1 cup whipping cream  
Beat egg whites until almost dry. Add sugar gradually and continue beating until consistency of marshmallow. Spread in crushed graham wafer pie shell. Cut berries in half, reserving enough to decorate top of pie. Press berries into meringue mixture. Whip cream add powdered
