FARM NEWS

Holstein and Jersey Breeders Hold Annual Field Day at O.A.C. - One thousand Holstein and Jersey breeders from Halton and Peel attended their annual field day at the O.A.C. on Saturday, June 11th. Prior to the lunch provided by the O.A.C., the ladies were conducted through Macdonald Institute and the men over the Experimental Plots and to an exhibit of farm machinery.

HUGHES CLEAVER M.P.

To the Election of Halton - My constituents, especially the farmers, are very anxious to know what I do not want to be accused of evading them with promises to you. I will now deal with them.

First, as an example of imposing, paralyzing, taxation, my opponent has stated that it was foolish for Canada to pay Fifteen Hundred million dollars off the national debt since the end of the war.

I think I know the effects of my nation's policy. I know that you have already answered in your own mind all of her arguments but as I do not want to be accused of evading them with promises to you, I will now deal with them.

Second, my opponent states: "What about foreign trade and the freighting manner in which it has plunged during the last year or two." I regret to have to say that statement is simply not correct.

Our foreign trade today is at the highest level that it has ever been in our history. It is true however that the period ahead will be a difficult one and that in the future we will have serious trade problems.

To me the present attitude of the Conservative party is almost amusing in its sudden regard for foreign trade because I have not forgotten the fact that in 1911 and again in 1930 the Liberal party lost two general elections when fighting the battle for low tariffs and for expanding our foreign trade.

My opponent, however, neglected to tell you that as a result of our present import restrictions and other remedial measures our present exchange position in regard to U.S. dollars is quite satisfactory. It makes no difference in the end result as to whether this information was deliberately withheld from you or whether my opponent was unaware of the facts but I do feel quite strongly that in discussing a point as serious as this one that the public are entitled to all of the facts and that half-truths can be very misleading.

Our trade position with the United States has usually been heavily adverse, and our trade position with the United Kingdom heavily favourable. Since the United Kingdom is unable to pay to Canada the amount of our favourable balance in U.S. dollars, your government took the position that we should restrict our imports from the U.S. to the types of goods which we really require and that under present conditions we should not permit our people to use U.S. dollars for luxury goods.

Thus, while foreign exchange is a highly technical one and is one for experts, from recent remarks made by Col. Drew in regard to foreign exchange I would not put him in that class. I do suggest to you that in reaching a decision with regard to a problem as complicated as this one that the safest guide is results and these we have achieved.

Finally, my opponent again comes back to the argument that it is time for a change. Do you want to exchange prosperity and experienced government for promises and inexperience?

Yours sincerely, Hughes Cleaver

The Budget Party in the park on Friday night was a great success. It was sponsored by the Lions Club in order to raise funds to send the Girls Pipe Band to the Lions Convention in New York City in July and while final figures have not been tallied it would appear that a sizeable surplus will be available for other Lions Activities such as the Stax at Home Camp.
