Dear Mr Edditor: I am always interested in the report given in your valuable paper of the Acton Town Council. Mon are elected by the people to carry on the Council work, and we expect them to do what is best for the people of our town who elect them to fill the offices. We were much surprise and shocked to see by the report of Council this week that they have unanimously adopted a resolution to ask Ontailo I Liquor Control Board to place an outlet for the sale of liquor and beer in the village of Acton having understood a warehouse and liquor store would be opened in the northern part of Halton Coun-

In the name of humanity, why ask for it here? Who are demanding it? It looks as if the Council wants it; but in my humble opinion. The Business Men and the people interested in the best things for our citizens do not want it as three licensed places now do all that is needed for those who must

Who will be made better citizens by such an outlet? Some person's sons or daughters will be made power citizens by visiting such places. Whose sons or daughters 1 will they be? Surely the people generally should have a say in such matters. Surely the Council has not the final word. I am surprised at our Council for making such a request. I am very sorry! I voted as I did, and if this request goes through, will change my vote next December.

Yours for the good of every one, I A voter for many years!
