New Record Set In Annual Report Bank of Montreal

Outstanding feature of the Bank of Montreal's 1949 annual report is the fact that for the first time in the bank's history, its total resources exceed the 2 billion dollar mark, while deposits and commercial loans are at record levels. Always a dependable reflection of the nation's economic health, the report of Canada's senior financial institution this year shows substantial growth in practically every phase of the Bank's operations.
What the bank's two billion dollar resources represent and how they are put to work provide the raw material for this informal, humanized annual statement which was originated by the B. of M. in 1945 and since then has been considerably developed in answer to the widespread public interest shown in it.
Entitled "A Special Message to Customers of the B. of M." the report acknowledges in striking terms the active contribution of the bank's customers with the heading "The Year Yours." Written in "Two Billion Dollar Story" it then proceeds to explain how the two billion dollar resources of Canada's B. of M. have been put to work for the benefit of its customers, in the department of our customers, in helping Canadians in every part of life to make a better future for themselves and for Canada.
Practical household articles and clear, simple language in the actual breakdown of the figures make the B. of M.'s statement easy to understand and of interest to everyone.
Deposits over \$140,000,000 higher in the year amount to a record total of \$2,019,000,000 and prove that Canadians' saving habits continue strong. Representing the money of 1,700,000 customers, this deposit figure clearly demonstrates that the great size of the bank is mainly a reflection of the confidence of citizens everywhere, who choose the B. of M. to safeguard their money and transact their business.
After the payment of Dominion and Provincial Government taxes, the B. of M. reports net earnings for the year amounting to \$5,017,000 compared with \$5,450,000 in 1948. This sum is accrued after the payment of staff salaries, bonus, and pension fund contributions, has been allowed for and provision made for contingencies, and the appreciation of bank premises.
When using salt to remove ice on garden walks, be careful not to scatter it on surrounding grass or on plants.
