

Wishes of Birth, Marriage and Death... to be inserted in this column...

BORN

IRONSTONE At the nursing Home Acton, on Friday, December 2, 1949, to Tony and Tania Ironside...

DEED

McNABB Suddenly in Ottawa at the home of his daughter, Mrs. Alfred Delong, on Friday Dec. 2nd, 1949, William McNabb...

CARD OF THANKS

Mr and Mrs Reginald Black wish to thank their friends and neighbours for their kindness after the fire.

I wish to take this opportunity of thanking all friends and neighbours of Acton and also Dr. Garbutt for kindness shown in so many different ways during my illness.

Many folks find that the Free Press makes a fine Christmas gift in the \$2.50 price range.

Just fourteen shopping days before Christmas. Plenty of time and lots of choice if you do it in Acton.

What a small world! Wednesday morning Toronto radio commentators were reporting their first fall of snow this year.

Please send in your copy early. Display advertising should be in the office on Monday of each week.

Your co-operation during this busy season will be appreciated.

In 1948 Canadian consumption of petroleum products was 285 Imperial gallons per person, exceeded in the world only by the United States consumption of 560 Imperial gallons.

SANTA CLAUS CAN BE REAL IN MANY HOMES

"I just don't know what we're going to do for Christmas this year," the worried mother told the Children's Aid worker.

At this time of year there are many mothers in Halton County facing the prospect of a bleak Christmas for their children.

The father may be temporarily out of work, unexpected doctor bills may have used up the savings which were laid aside for Christmas, or it may simply be a matter of the family living from day to day on such a small income that there is nothing left for Christmas.

But it all adds up to the same thing. Unless assistance comes from outside the children in these homes will wake up on Christmas morning to find empty stockings.

You can help by sending a donation of money, toys, food, or clothing to the Children's Aid Society in the Bank of Commerce Building, Milton.

Gifts should reach the Children's Aid office within a week before Christmas, so that they may be distributed in plenty of time.

Then Santa Claus will come after all to many homes which he might otherwise have overlooked.

MORE MILES PER GALLON

Somewhere always there's a rumor about a car that will make 200 miles to the gallon.

It is likely to be a long time before that sort of thing is in sight, warns The Financial Post but real progress is being made toward improving gasoline mileage.

Within sight is a combination of engine and fuel which will give from 30 per cent to 45 per cent more miles to the gallon.

Every major automobile manufacturer and oil company is working on it. One firm has already got one of the new type engines in production.

The combination could save Canadian motorists \$100 millions a year, United States, \$1 billion!

Obituary

WILLIAM McNABB

Relatives and friends in this home community were shocked to learn of the sudden death on Friday last of William McNabb in Ottawa. Mr and Mrs McNabb had gone to Ottawa about a month ago to be with their daughter, Mrs Alfred Delong. He was in his 75th year.

William McNabb was a son of the late Archibald McNabb and Margaret Smith and was born at Sunnydale, Ont. He spent most of his life in Acton and was well known here.

Besides his wife who was prior to marriage, Miss Emma Cameron, he leaves two daughters and a son, Mrs Margaret Hayes London, Eng. Mrs. Joan Delong, Ottawa and Cameron McNabb, Toronto. Of the family of the late Archibald McNabb three remain, Neil of Acton, Mrs D. C. Jones (Nan) of Detroit Mich. and Mrs Maude Deat of Hamilton.

The funeral was held on Monday afternoon from the funeral home of V. B. Humley, Acton. Rev. Dr. H. W. Avison, a former minister in the United Church here when the family was in Acton was assisted at the service by Rev. Mr. Foreman.

Interment was in Fairview Cemetery, Acton. The pallbearers were A. T. Brown, John McClure, Geo. Smith, Wm. Cooper, John Lathman, and Frank McIntosh.

Human Capital

By Joseph Lister Rutledge. It is always a pleasure to have someone take a forthright poke at one of the corny old errors that go for advanced thinking with some of our well-intentioned near-intellectuals.

The truth is that people are vast ly more important than money even to hard-headed businessmen. Without interested intelligent devoted people to support its policies the best management can make no progress at its task of making dollar outlay attract other dollars.

Dollars may help, they can provide good locations, pleasant surroundings, modern equipment and sound goods. That's all they can do. They can bring the customer in contact with the spirit of the store as represented in its people.

Mr. Horsey's business is retailing. Its contacts with people are near and intimate, and the facts of distrust or dislike have quick repercussions. But all business and all industries touch people somewhere, so what is true of retailing is just as true, if less immediate, when it is a matter of making steel.

The product, its reputation, its public acceptance are no better than the devotion of the human elements that created it. Can one imagine that management that is intelligent enough to direct vast industries, is not intelligent enough to realize that the worker is the primary capital—without which no other form of capital has any importance or significance?

COMET'S 890 M. P. H.

The world's first jet airplane, recently flew from the Shetland Isles (off North Scotland) to its base at Hatfield—500 miles—in one hour. The flight was made at heights of between 35 and 40 thousand feet. It was the last lap of a routine test flight of 5 hours and 35 minutes. The Comet's longest spell in the air so far.

CHRISTMAS QUIZ

Everyone knows when Christmas comes, but does everyone know the answers to these Christmas queries? Do you?

- 1. What percentage of the people of the world celebrate Christmas? (a) 50 per cent (b) 31 per cent (c) 66 per cent
