## What and that

Councillors had a test this week with no meeting scheduled.

Softball season is on its way and is attracting a number of fans.

The King's Birthday next Monday and another holiday for the school children.

Renovations by town workers at the Pioneer Cemetery are certainly an improvement.

Ernest West student at Osgoode Hall, was the subject of part of Kate Aitken's broadcast recently.

Mill St has been painted white. Highway workers applied the centre white line on No. 7 this morning.

A good number of bowlers and tennis players opened the season at the Lawn Bowling and Tennis Club on Tuesday night.

Road maintenance has been doing a good job and the streets are in better shape, although there is still room for improvement.

This Sunday is Shut-ins Sunday a time for visiting the sick, but don't just make it an annual visit. These people are shut-in all the time.

## COMPLETE

Everything possible had gone wrong that morning and to cap the climax, the top of the hot-water faucet had broken off. I was hunting frantically for a way to stop the water pouring down the drain when the telephone rang. "Oh, dear, what next?" I groaned as I lifted the receiver.

"This is the telephone office," said the voice at the other end. "I have a telegram for you from Dartmouth. Arriving home 6:30 for week-end. Bringing four boys. With love, John."

"Heaven!" I gasped involuntarily. "How can he do this to me? Grandma is sick in bed, the house is a mess. . . ."

"Remember, madam," interrupted the impersonal voice of the operator, "be said, 'with love'."

## Obituary

## GORDON AIRDRIE

Many friends here were shocked to hear of the sudden passing of Gordon Airdrie at Barrie on May 23rd, 1950. A son of Robert Airdrie and the late Ethel Damer he was in his 36th year.

His mother predeceased him when he was seven years old. Gordon was born at Moffat and when two years old moved to Spryfield with his parents. Later he moved to Crewson's Corners where he attended Lorne School and joined the army going overseas in 1941.

Upon his return he spent most of his time in the St. Catharines district, moving to Barrie with his father only last February.

The funeral was held at Barrie with interment at Jordan Station near St. Catharines on Friday, conducted by Rev. Norman Kelly.

Funeral services were held at his home from that district and two cousins, Wilmer and Jack Fryer.

## Dark Promise of Eastern Europe

By Joseph Ester Rutledge

What we are seeing in Eastern Europe today is the reversal of the struggle of centuries past for individual freedom. As M. S. Hand, Balkan correspondent of the New York Times, points out "the era of the individual man has been succeeded in the People's Democracies by the era of the 'directed' man". The element of free choice has virtually ceased to exist.

The farm communities have presented difficulties because of a traditional attitude of independence but the process of breaking down this spirit is definite and progressive. It begins by restricting the farmer's ability to maintain his independence by limiting his trading opportunities. The elimination of private traders in cereals and meat products and replacing them by agencies of the State is the first step. The next is to require the farmer to deliver part of his crop to the State at a fixed price. This is not so unlike some policies of our own. The direction of his sowing and harvesting operations, and finally, the development of collective farms that draw so heavily on available farm labor that independent farmers cannot compete, are the last steps in crushing the spirit of individualism.

It has been easier to regiment the city dweller. The work begins in the primary schools. There youth is taught to hate every Western ideology and so is conditioned for the further step of the absorption of the nation's manpower and womanpower by the State. Every force that can influence man's acts or thinking in the opposite direction is actively challenged. That is the genesis of the present campaign against the church which, particularly the Catholic church, is so deeply embedded in the hearts of these people. So the church must be dismantled. Writers, artists and musicians, classes that are traditionally free, are gathered into unions whose one purpose is to see that they extol the virtues of the new regime. The administration of justice has nothing to do with the right of the individual. Its purpose is to save the revolution and destroy its enemies.

The dreadful fact is that the weight of this propaganda is imposed on peoples worn out by successive moral defeats, who have no spirit left for effective resistance. These People's Democracies of Albania, Bulgaria, Czechoslovakia, Hungary, Poland, Rumania and Yugoslavia total more than 85 million people to add to the perhaps 150 million of European Russia, almost half the people of Europe. In another generation their minds will be bitterly hostile to the Western World. That is the dark promise of the future. That is the purpose and plan of communism.

## Newcastle Disease

## MISSION SERVICES AT ST. JOSEPH'S CHURCH TO END SUNDAY EVENING

Mission services this week at St. Joseph's Church have been largely attended. Rev. Connell McKewen, Passionist Father, of Baltimore, Maryland, is conducting both morning and evening services with special sermons following each mass and at the evening devotion. ## WHAT IS A BOY?

Boys come in assorted sizes, colors and weights. They are found everywhere - on top of, underneath, inside of, climbing on, swinging from, running around or jumping to. Mothers love them, little girls hate them, older sisters and brothers tolerate them, adults ignore them and Heaven protects them. A boy is Truth with dirt on its face, those days would rather have the Wisdom with bubble gum in its hair and the Hope of the future with a frog in its pocket.

A boy has the appetite of a horse, the digestion of a sword swallower, the energy of a pocket-size atomic bomb, the curiosity of a cat, the lungs of a dictator, the imagination of a Paul Bunyan, the shyness of a violet, and when he makes something he has five thumbs on each hand.

He likes ice cream, knives, saws, Christmas, comic books, the boy across the street, woods, water (in its natural habitat), large animals, Dad, trains, Saturday mornings and fire engines.

Nobody else is so early to rise or so late to supper. Nobody else can cram in a pocket a rusty knife, a half-eaten apple, three feet of string, two gumdrops, six cents, a slingshot, a hunk of unknown substance and a genuine super-super code-ring with a secret compartment.

A boy is a magical creature - you can lock him out of your work shop but you can't lock him out of your heart. You can get him out of your study, but you can't get him out of your mind. Might as well give up - he is your captor, your jailer, your boss and your master - a freckle-faced, pint-sized bundle of noise. But when you come home at night with only the shattered pieces of your hopes and dreams, he can mend them with two magic words - "Hi Dad!"

## HANDICAPPED BOYS ENJOY SCOUTING

Blind boys, deaf boys, crippled boys and lads suffering from tuberculosis are enjoying the game of Scouting in specially-organized Scout groups in hospitals and institutions across Canada. In all there are 11 handicapped Scout groups located in Nova Scotia, Quebec, Ontario, Saskatchewan, Alberta and British Columbia. Special tests and games have been devised for these handicapped Cub Scouts and Scouts, many of whom wear uniforms despite hospitalization or other circumstances.

## CAR BUYING SPREE

Since the beginning of the year, Canadians have been on the biggest automobile buying spree on record, says The Financial Post. Sales of passenger cars alone in January and February were three times greater than in same two months last year.

Actual retail value, \$87.9 millions against \$30.6 millions in 1949.

Truck sales in the same period were also up: 11,908 against 11,635. March and April sales are expected to be higher still, particularly passenger cars.

And importantly, the increase is spread fairly evenly right across Canada.

## PROPER SALUTATION

"Good Maw'nin', Colonel," the family retainer at an old home in Kentucky greeted my friend, a confirmed civilian.

"Why this new address?" he asked.

"Well, suh, here in Kentucky we've got three kinds of colonels. They're the real honest-to-goodness colonels what comes from the Army. Then they're the colonels what is named by the Governor of Kentucky. And last, we got the colonels like you, who just gives an old dorkie like me two bits to start the ball a-rollin'."
