They discovered Aluminum!

AN "INSIDE STORY"

1900—It wasn't only Grandma's cooking that drew the crowds. She had the first aluminum saucepan in town! In many other Canadian homes, too, this was the beginning of a bright, new era of better cooking utensils.

1925—When mother got married, she already knew how to enjoy life with aluminum. She brewed Dad's coffee in an aluminum pot...cooked those big family meals more easily in quick, even-heating aluminum.

HINTS TO THE HOUSEWIFE
Whenever you use aluminum on the outside of a food or a drink, there's an "inside story" of cleanliness and purity. Aluminum utensils clean easily. To remove natural deposit left by foods and water, use a tablespoon of vinegar in boiling water.

Aluminum has been friendly to food for 50 years!

More and more Canadian parents are getting their youngsters off to a good start by helping them to open their own savings account at the Bank of Montreal. The first deposit

need be only a dollar, not a lot for the ownership of a savings account and a new B of M passbook. Having his own account will be powerful encouragement to your youngster to go on saving out of his pocket money for the things he really wants. He'll learn to persevere.

William Clayton, manager of the Bank of Montreal branch at Acton or any member of his staff, will be pleased to help your youngsters open their accounts, and show them how the B of M looks after the savings of its million and more depositors.
