

THE BLOUNT has a garage which attached to the house by a screened breezeway gives a wide appearance, although the house itself is only 36 feet wide. If necessary, the garage and breezeway can be left off without detracting from the general appearance. There are two bedrooms and bath and connecting living and dining rooms. The plan shows a closed opening between the rooms but this can be omitted to form an L-shaped living room. Kitchen cabinets show the sink under the windows, range to the left refrigerator next to the door and dining space in the inside corner. The entrance from the breezeway at grade level, leads to the kitchen and basement. Coat closets serve both entrances and there is a linen closet in the hall and wardrobe closets in the bedrooms. Plans call for an exterior finish of siding and asphalt shingles on the roof. Overall dimensions are 36 feet by 28 feet. Floor area totals to 963 square feet, while the cubage is 18,778 cubic feet.

### OAKVILLE Assessment Proves Future City Status

If Oakville keeps on growing at its present rate it's going to be a city before many more years have passed. The town's present population is 6,371, according to the report of Assessment Commissioner Percy Spurgeon, presented to the town council Monday evening. This is an increase of 553 people over last year and a jump of 45.7 per cent since 1945. With \$45,000 in cash and pledges in the coffers within four hours of when 100 canvassers left the Parish Hall following a special luncheon on Sunday, St. Jude's Anglican church officials felt assured of achieving the \$60,000 objective. By Wednesday morning the total stood at \$49,321 as canvassers continued to make returns for parishioners who were not contacted on Sunday afternoon. The financial condition of the Oakville Trafalgar Memorial hospital was improved to the extent of \$2,500 as the result of a brief ceremony at Monday evening's meeting of Oakville Rotary Club. President Alex Talley presented a cheque for that amount to Tom Chisholm, chairman of the hospital's board of governors.

Prospects are good for the success of the plan to have Brant made an incorporated village in the opinion of A. Jennings, chairman of the three-man police village commission and a member of the fact finding committee recently formed in connection with the project. This committee waited upon Trafalgar Township council last week and was assured of council's approval of the incorporation move. Trafalgar Journal

### THE CANNY SCOT

A Scotie had a very fine sheep dog for sale and an Englishman and a Yankee both took a fancy to it. The Englishman offered \$10 for it, so the Yankee went one better and said he would pay 20¢. The Yankee was astonished when the Scotie took the Englishman's money and handed over to him the dog. "Thought you'd be after every cent you could lay your hands on," drawled the Yankee to the Scotie as the Englishman went off triumphantly with his prize. "Ah! mon so ah ah!" replied the man in kilts. Then in half a whisper he added: "You see that dog could find his way home from any where, but he could never swim the Atlantic."

Physicians are agreed that the first year of life should be the year of immunization. Otherwise many children will die needlessly of the preventable diseases of infancy and childhood.

## SWAP YOUR OLD TIRES FOR NEW, SAFE BIG-MILEAGE GOOD YEAR TIRES

We'll give you a generous allowance for the unused mileage in your present worn, unsafe tires. Remember, 90% of tire trouble occurs in the last 10% of tire life. Drive in today and get new, safe, big-mileage Goodyear tires. Don't delay, take full advantage of our trade-in plan today.

## MONEY IS THE SEED OF MONEY ... but seed doesn't grow when it's stored away

The farmer wants his seed to grow, whether it is corn, barley, root crops, fruit or money. One of our long-time clients said when he sold some securities we had recommended, and on which he made a handsome profit: "Money is the seed of money, all right, but seed doesn't grow in storage." As a rule, people in the small towns and the outlying areas are shrewd investors. Many of our clients are among them. Some have been on our books for as long as 40 years, others for 20 years. A very large number have

come to us within the past 15 years and we still serve them. In practically every instance their investments have paid good dividends and many have appreciated in market value. We would like to see the same thing happen to your investments. Of course, we cannot guarantee that you will get the same results as in the cases cited below, but we would rather you our very best service and guarantee that we will give you account the same careful attention as the client accounts whose case histories we give.

Richer harvests are possible where care is coupled with investment experience. Here are some examples of client experiences. We have many more.

**A Farmer of Caledon, Ontario.**  
This gentleman became a client of F. H. Deacon & Co. in 1935, in the depth of a business depression. He invested \$11,800 in securities. Twelve years afterwards, in 1947, he invested an additional \$24,435.00, making his total present investment \$36,235.00. The market value of his investments in June, 1950, stood at \$105,625.00, a striking example of the way that money breeds money under competent management. His average income from his investments, 1935 to 1950, has been \$1,762.00. His present income from investments is \$5,435.00.

**An Elderly Lady of Georgetown, Ontario.**  
She became our client almost at the height of the stock market boom of the 1920's. February, 1928, to be exact. She remained our client through the crash of 1929-1930 and the subsequent depression, and still is. Her original investment in February, 1928, amounted to \$32,148.00. Today—after peace, depression and a long war—the market value of her holdings is \$66,132.00, of which 40% is in cash and Government bonds. Here is growth and safety. The average income this lady has received from 1928 to 1950 has been \$2,127.00 per annum.

**A Homemaker of Markham Township, Ontario.**  
This lady is not in a position to take under help. In February, 1949, she deposited in her account in our office, a total of \$6,350.00 to be invested to obtain a minimum income of 6%, together with growth in the value of her securities. The present market value of her securities is \$7,745.00. Besides, she has had her income.

**A Farmer's Wife of Hornby, Ontario.**  
In March, 1948, this lady had some money saved up, and she told us that she wanted to invest it in such a way that it would grow. She was not interested in income, so much as growth. We suggested some securities as suitable, and she invested \$2,810.00 in them. In less than two years her investments have increased in market value until today she could sell them for \$4,000.00.

The amount of the investment is unimportant. It is so important as the care and experience in the securities purchased.

F. H. DEACON & CO. is an old-established conservative Financial House. We are members of the Toronto Stock Exchange, and are in a position to do business in the principal markets of the continent. We have clients on our books whose grandfathers and fathers had dealings with us, and looked to us for financial advice. The majority of them made money. The principle of buying into companies with prospects of growth is the principle of making money through investments. It is like planting seed in good soil, tending and watching it.

### BLESSED EVENT

Recently one of the single girls in our office came in early one morning and began passing out cigars and candy, both with blue ribbons. Somewhat puzzled and more than a little surprised, we asked the occasion. Proudly she displayed the sash and her third finger, left hand, and announced: "It's a boy six feet tall and 18 pounds!"

The thing that really makes men equal is that we all can change.

*Add Enjoyment to their Trip*

Grandma and Peggy just love a bus trip. They feel safe and happy in the care of a competent and friendly driver—and free to fully enjoy the delightful drive and all the interesting sights along the way. Next time, let your loved ones travel by bus. Add enjoyment to their trip.

### European Tour for Popular Singer

The name Ronald Stewart is widely and favourably recognized in all sections of Halton rural and urban alike. Mr. Stewart is considered by many as one of the top talents in Canada. In recent years it has only been necessary to include Ronald Stewart in the annual programme sponsored by the Halton Hotel and Milk Producers to ensure more than a complete sell-out of the Princess Theatre, Milton. It will therefore be of interest to his many friends and admirers in the county of Halton to learn that recently as a result of an audition in New York City Mr. Stewart has been signed up for a tour which includes concerts in London, England, Paris and Amsterdam early in 1951.

### Recommend Fall Nitrogen Application on Meadows

An application of 150 lbs. of Cyanamid per acre on Halton meadows should be worthy of consideration. We would suggest that our readers try out the idea on at least a few acres this fall. According to our information the application should be made sometime between October 15th and 31st. After all every farmer must do a certain amount of experimental work for himself. What might add interest to such an experiment would be to apply on an adjoining acre or two in the same field, 100 lbs. per acre next spring of ammonium nitrate. This latter application should go on in late April or early May just when growth is commencing. Tests made this past spring by the Halton Crop Improvement Association on some ten farms vary considerably from the standpoint of results. Some got outstanding results, others were unable to detect any difference. We can only conclude that where appreciable results were not detected it must have been due to lack of sufficient moisture to bring the nitrogen into a solution in which form it would become available as plant food.

### Splendid Fall Exhibits at Milton Fair

As we scribble out this column on Friday evening everything would appear to be in readiness for Milton's big annual fair on Saturday, September 30th. In our opinion all that remains necessary to make it the best County Fair on record is the kind of weather we've enjoyed the past few days. Under the leadership of President J. Allan Dixon, the board of directors have

really gone to work this past spring and summer. A new fence has been erected around most of the grounds, hog and sheep pens have been constructed, the grounds have been sprayed for weed control, the grass cut etc. True, much remains still to be accomplished before the site will be worthy of Halton's County Show. A new hall is badly needed and we expect to see some action in this direction before another year rolls around. At the moment however the grounds look better than they have for many a year. The old cattle barn has been transformed on the inside at least, by the lady directors with the help of some of the men into a place of beauty. The displays of the Senior and Junior Institutes, the fancy work, the baking, the boys' and girls' exhibits, the flowers, fruit and vegetables are all outstanding in short worthy of the County of Halton. The grain, fruit and vegetable sections could be stronger but at least the quality of the exhibits on display is worthy of strong commendation. For the first time in history over 100 head have been entered in each of the 3 dairy cattle shows—a total of some 339 head in all of Halton's best Guernseys, Holsteins and Jerseys. Then there is the achievement day for Halton's three Calf Clubs, Swine Club, and Tractor Maintenance Club. Milton's versatile mayor, Dr. C. H. Heslop, is the authority that weather permitting "there's going to be some great races and a good horse show."

### Church Group Hear Address on Arctic

The Friendly Circle of the United Church commenced their fall activities on Wednesday evening, October 20th at the home of Mrs. Gordon Johnstone with Mrs. Rogvaldson presiding. Final arrangements for the annual bazaar were made.

The guest speaker, Mr. Clarke, spoke on his work among Indian boys in Fort George in the Arctic Circle. The forty-eight members, along with their teacher, Miss Bennett, were glad to welcome Rev. and Mrs. Curvey.

A friendly cup of tea among the girls brought the meeting to a close.

No man ever becomes a Communist until he has given up all hope of ever becoming a Capitalist.

A SCENE FROM the rib-ticking technicolor comedy, "Peggy", starring Diana Lynn and Charles Coburn. Playing Sunday midnight Monday and Tuesday at the Roxy, Acton.
