Triple T Topics

The council was very pleased with the dance last Friday night. The attendance is improving and a better variety in the program makes the people happier. There were numerous novelty dances giving the club never a dull moment.

Gord Lawson and Jack Watkins, won the elimination dance. Verma St. Dennis and Doug Norton won the prize in the spot dance.

Roy and Betty Kirkness, Jack McCutcheon, Betty Lawson and "Uke" Zajar have been the faithful volunteers who assisted the council in preparing for this Friday night.

The council is sorry that only a pollie "Thank you" can be given to these people who worked until 12 and 1 o'clock in the morning for the last four nights.

While on the topic of this Friday night, we would like to tell you that four clubs have been invited to our Sleightide Dance. The Toronto club and the two Guelph clubs are coming but Orangeville has given us no reply. The sleightide starts at 8 o'clock sharp and we expect between 150 to 200 to be there early. Although the weatherman reports that warm weather is coming our way which will melt the little snow we have, the council will try to have rubber tired wagons to take the sleighs place. The council has ordered twenty dozen dough-nuts, cake and plenty of hot chocolate for everybody to feast on after the sleigh-ride. Come early this Friday night.

Considerable trouble has been caused residents of the Campbellville district and Bell Telephone repair men by telephone cables being put out of commission by rifle shots. Three times, on Dec. 30th, Jan. 2nd and Jan. 5th, bullets from a .22 rifle have been shot through the telephone cables.

This malicious cutting of services occurred west of Milton on the lines to Campbellville and north and south of Campbellville. This kind of trouble is difficult to locate and then hard to repair with the result that the whole community was without means of communication for some time.

Although .22 rifles are not the best for hunting rabbits, it is to be hoped that the attention of the marksmen could either be turned in this direction or even to shooting cans off a fence if he needs target practice. Surely there is no need to disrupt communications that might be badly needed and to cause unnecessary trouble for repairmen simply to enjoy shooting a rifle.

Power of Prayer Is Subject Of Article

"If his prayers are to be answered, a man has to meet his Maker half way," states Fulton Oursler in the January Reader's Digest. "When we ask for help from God, we need to take a look at ourselves, we may be in no condition to ask Him for anything."

Believers admit no limit to what the power of prayer can do, and even skeptics who study the results of prayer become impressed with the potency of faith. But the trouble with many prayers as one psychologist said, is that they are not "honest to God." "People have the ungracious audacity to ask for heavenly handouts although they are not on speaking terms with their

next-door neighbours; they have forbidden relatives their house; they are spreaders of gossip and envious detractors of their best friends."

Prayer is infinitely more than an appeal for personal favours, Oursler says. "It is itself the greatest of all gifts: an ever-rich experience, a continuous feeling of being in harmony with the constructive forces of the universe. It brings the wonders of "visiting with God" to the life of the humblest man. And his sense of divine companionship will powerfully influence his actions and thoughts."

demonstration of the result of prayer. Dr. Robert A. Millikan, 82-year-old Nobel Prize winner and head of the California Institute of Technology, recently told a group of leading physicists that a lifetime of scientific research had convinced him that a Diety is shaping the destiny of man. "A purely materialistic philosophy is to me the height of unintelligence," Millikan said.

As if by infallible instinct, great men of all ages have turned to God for help. Oursler says, "by-passing intellectual doubt, finding a short cut to universal truth." Abraham Lincoln called on God to help him in many difficult decisions. "I should be the wisest shallow and self-righteous blockhead. In the discharge of my duties," Lincoln once remarked, "if I should hope to get along without the wisdom that comes from God, and not from man."
