Approve Loan For Sewerage

(Continued from Page One)

Regarding claims of Roy's Taxi, the letter said the company felt "that damages to the taxi were caused by excessive speeding and overloading."

J. Powell, representing the Halton County Health Unit, suggested various improvements on the plumbing by-law governing sewerage installations. Details of the by-law were reviewed for enforcement and Town Solicitor Leatherland explained details.

George Mann reported that his sewer lateral comes in seven inches above his cellar floor. Inspector Crump pointed out that it was almost impossible to put floor drain on that side of the house because of inadequate depth in relation to the main sewer level. Installation of the lateral on the opposite or lower side of the house would have eliminated the difficulty. Council suggested that Mr. Mann use the present floor drain and the lateral already installed since it would function for basement laundry tubs.

A grant from the Department of Highways was received for \$661.82 covering an above budget expenditure of \$1,323.65. This was the usual 50 per cent. grant.

Clerk McGonchie reported that a duplicate set of plans giving Mill and Main Street grades was being forwarded to the town. These plans are to be used in planning levels on other town roads. The Department of Highways is also working out costs for the hard surfacing of the road.

Two posts were to be installed as repairs to the fence of Dick Blanche on the corner of Agnes and Willow streets. The fence was damaged by the town truck.

Regarding the request of George Simpson at a previous meeting for an adjustment in excessive taxes it was pointed out, that under the statute taxes once collected could not be refunded. Assessment errors had caused the excessive taxes. Council approved a by-law appointing Frank Crump Assessment Commissioner.

Settlement of \$22.30 on a battery stolen from the town truck was to be paid by the insurance company. Council accepted settlement on the six-month-old battery.

Councillor L. Wiecek was granted permission to remove a tree from his boulevard on Flower Ave., that was rotted at the bottom. He promised to replace the tree.

Employment of additional men for the increasing town work was discussed. No decision was reached. Citizens' complaints of children killing birds with sling shots and BB guns in the town limits were received. Council referred the matter to the Police Committee.

Stirling Machine Co. reported that the fire truck was being built in Owen Sound.

The City of Sudbury asked council to endorse a resolution requesting a 50 per cent. grant on Children's Aid wards. Since this is under county jurisdiction the letter was forwarded the county clerk.

The Senior group of the Daughters of the Empire was given permission to hold a tag day for the blind on May 12th.

The police report for April was received and accepted.

Councillors L. Wiecek, C. Wood, R. Thompson, E. Taylor, A. Fryer, J. Greer, Reeve J. Hargrave and Deputy Reeve J. J. Stewart were present at the regular meeting. Mayor E. Tyler presided. The meeting adjourned before 1 a.m.

Accounts were passed for payment as follows:

Sewer Accounts	
R. V. Anderson, Invoice	\$1813.92
Tiverton Transport Co.	20.88
Thos. Cutting	35.00

MUSIC FESTIVAL BEGINS THIS THURSDAY IN KNOX CHURCH, MILTON

Today, May 10th, is the first day of the Halton County Music Festival being held in Knox Presbyterian Church, Milton. Competitions begin in various classes on Thursday morning and last through Friday afternoon.

Both rural and urban pupils from Trafalgar, Nelson and Esquering townships have already entered township competitions with the winners gathering in Milton this week to determine the winners of the county.

Test Possibility Of Transmitting TV From Buffalo To Toronto Via Milton

Milton is the third link in a chain which is relaying micro-waves in an experiment which will determine if it is practicable to send television from the United States to Canada by this route. From Buffalo these experimental signals are relayed to Fonthill, in the Niagara Peninsula, from there to Milton Heights and from Milton to Toronto. An air-tight, cross-files route across Lake Ontario is too great a span for a single radio link.

Harold C. Young, general manager of the Bell Telephone Co., has written an article on the experiment in a recent issue of the Company's magazine, The Blue Bell.

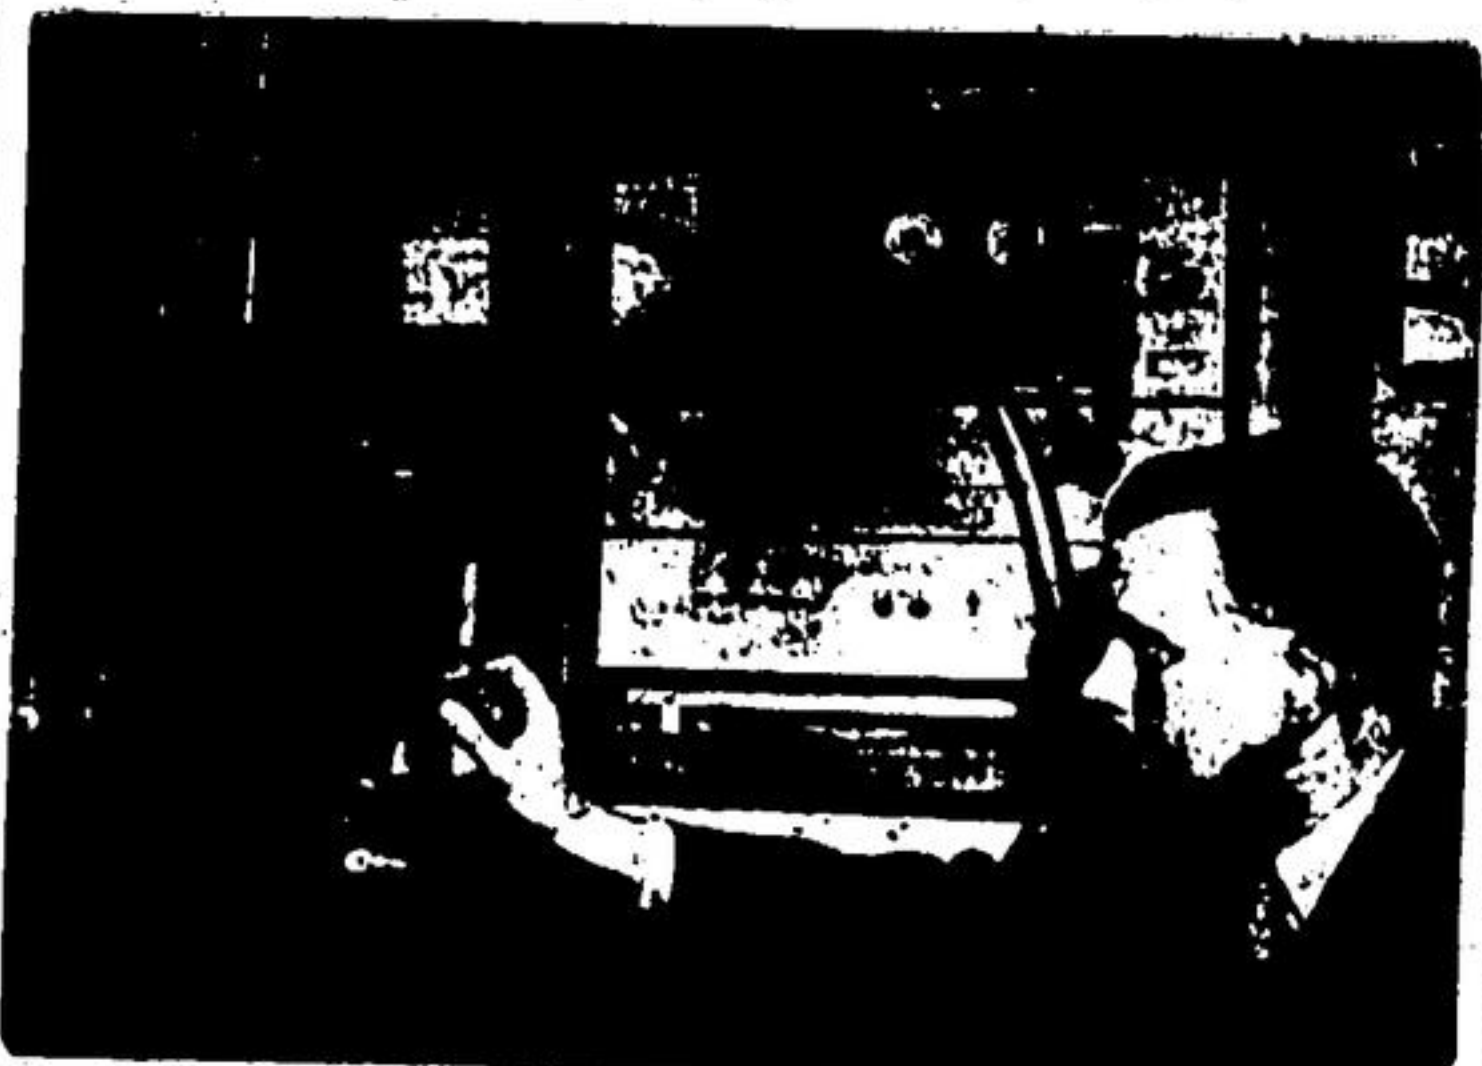

He explains that at Fonthill and at Milton 140-ft. towers are proving successful in their relaying. The range of micro-waves is limited to line of sight or the horizon, he explains. As relay stations must be set to catch the signals before they shoot out of range, and pass them to another receiver.

Experiments to cross Lake Ontario on a shorter route gave unsatisfactory results for full-time reception because the radio waves bounced off the surface when the water was calm, disrupting transmission.

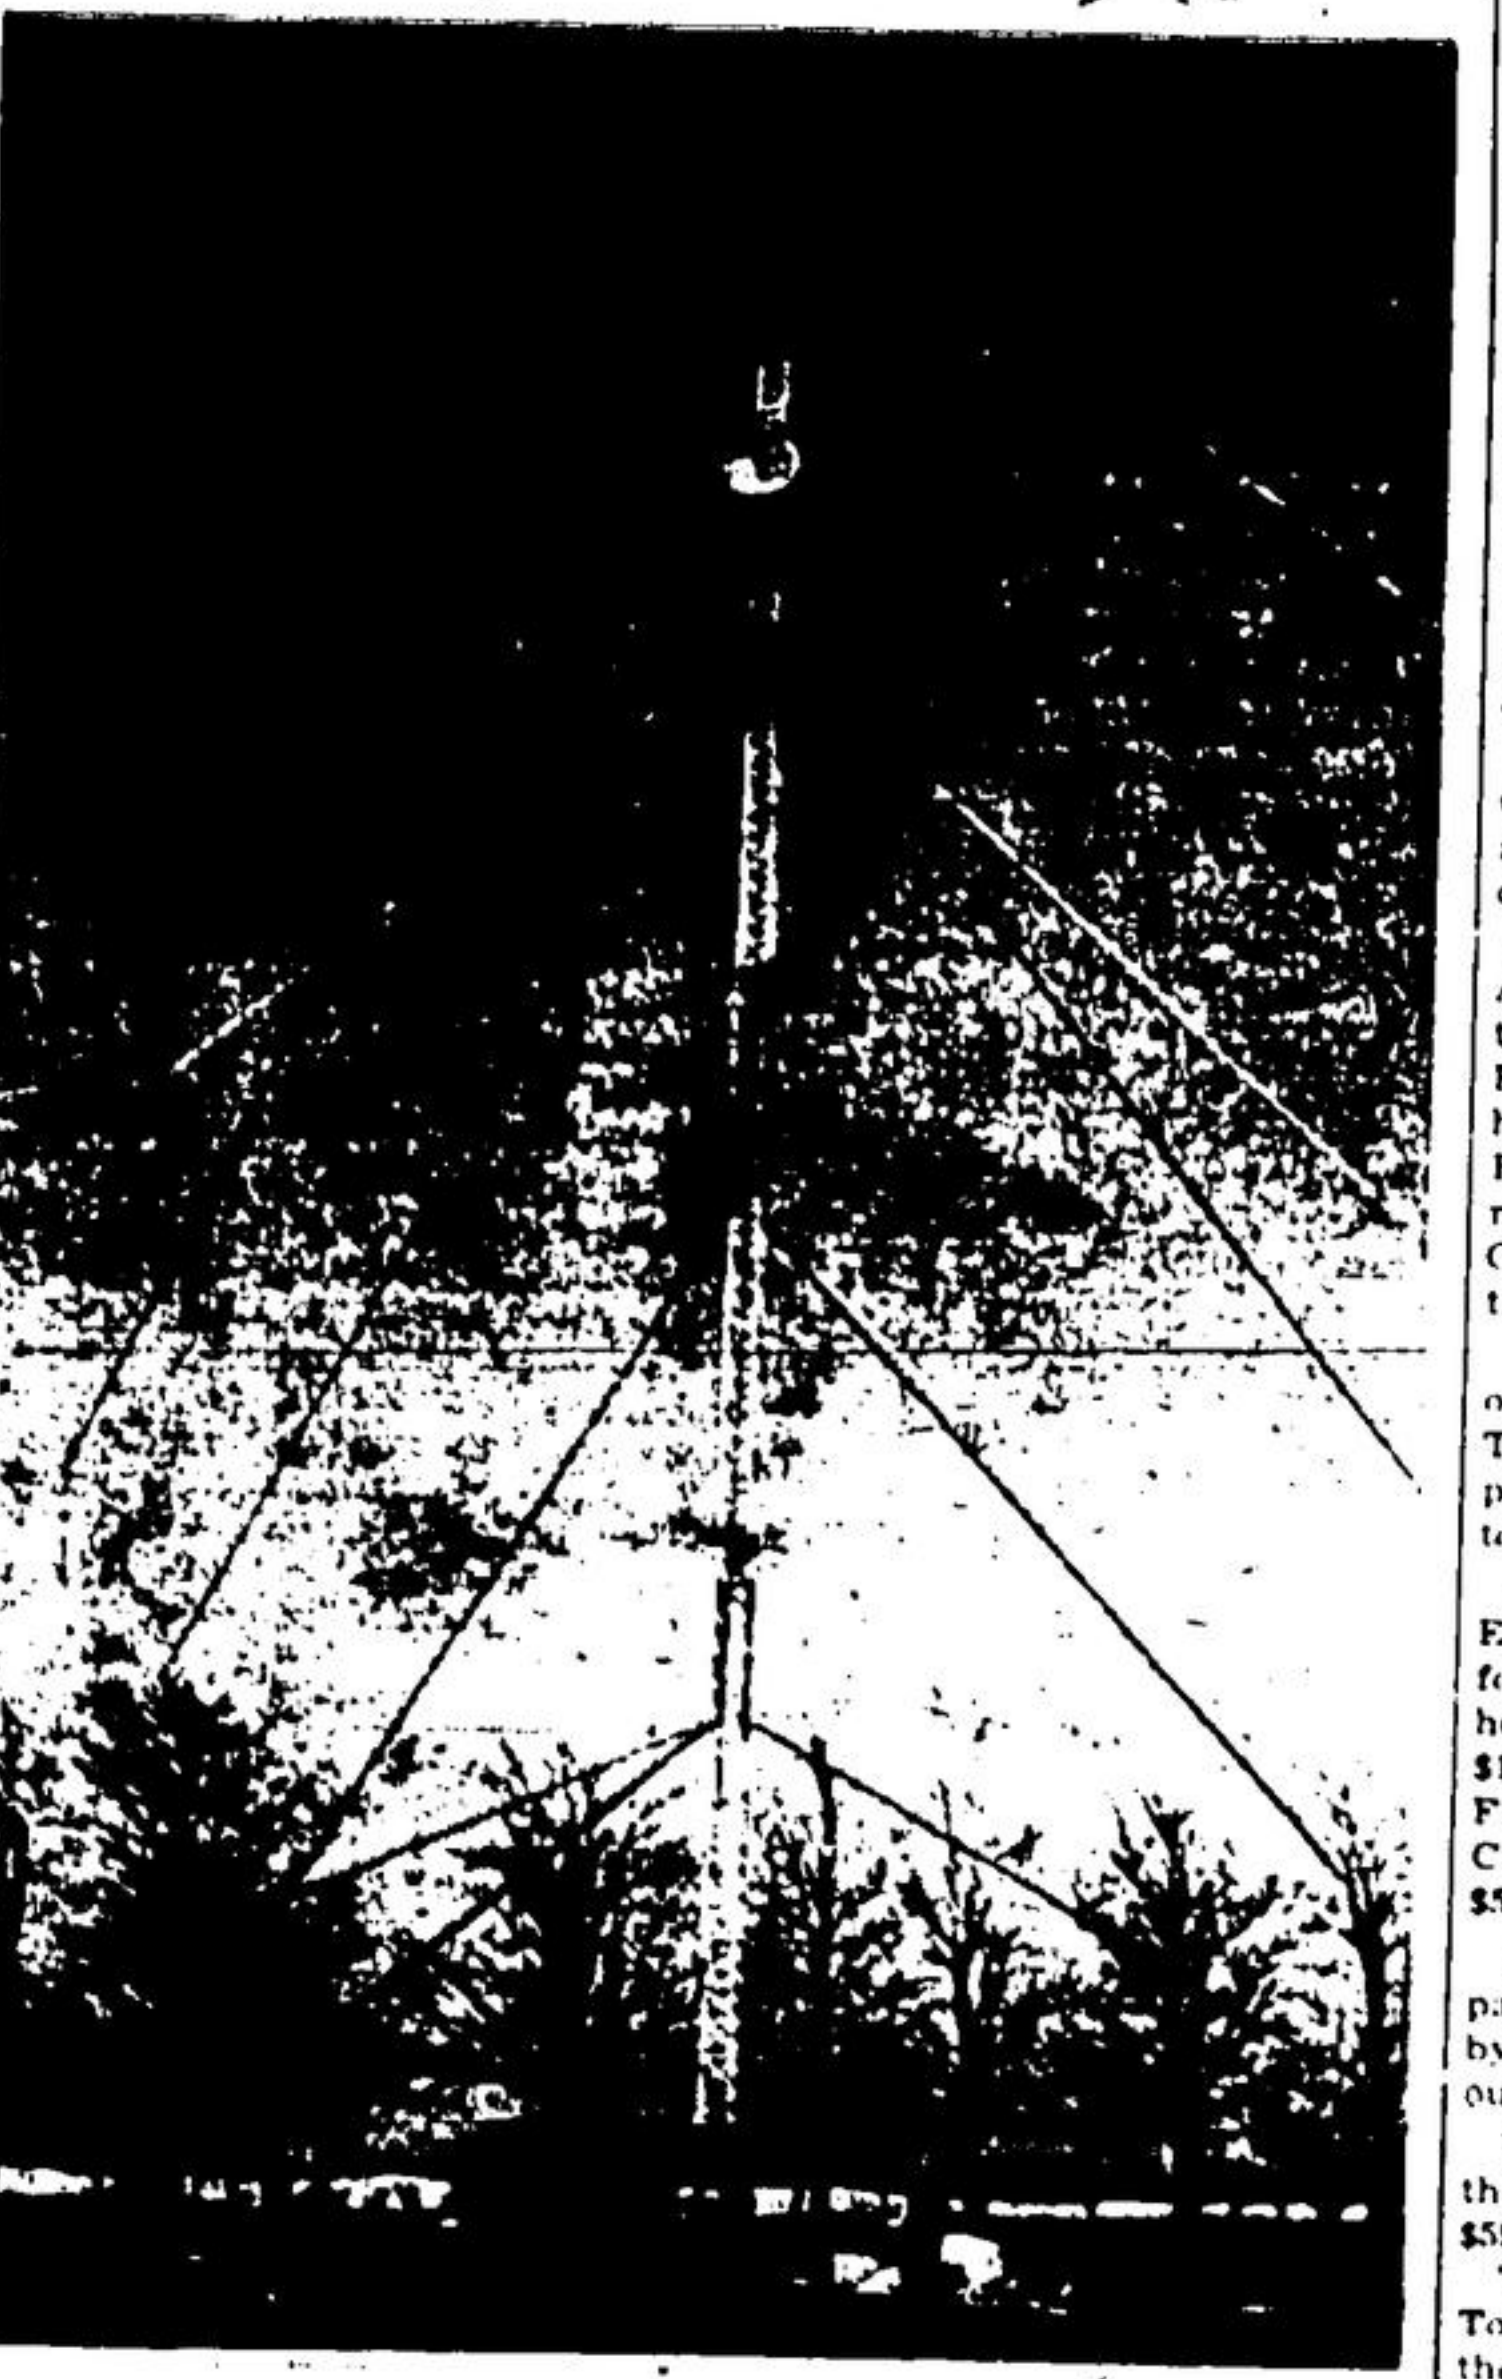

It is considered better to haul the signals over a land route, employing, among other sites tested, the high points at Fonthill and Milton where relay test stations are now situated.

Transmission of the type now being tested calls for ultra-short electric waves. They vibrate millions of times per second and are called micro-waves. Bell Telephone Co. engineers have decided upon a frequency of 4,000 megacycles, where the wave-length is only three inches, as being the best frequency for this radio-relay technique.

Man-made and atmospheric waves, such as automobile ignition systems, for example, disappear beyond 1,000 megacycles, and only thermal noise generated in tubes, is left. On the other hand, up around 12,000 megacycles, even rain drops form a shield and become obstacles.

TESTING EQUIPMENT IN a truck at Fonthill (above) where a radio transmitter is sending a micro-wave signal to Milton, H. E. Bishop of the Bell Telephone Co. turns a dial on the oscilloscope, which gives him a visual indication of the strength and consistency of the signal. —Photo courtesy Bell Telephone Co.

TRANSMITTING MICRO-WAVE SIGNALS is this 140-foot tower at Milton Heights. From Buffalo to Fonthill, to Milton and then to Toronto go these signals which are indicating that television could be successfully transmitted from these towers. The direct route across Lake Ontario is too great for a single radio link. —Photo courtesy Bell Telephone Co.

Seven Teams Enter Intermediate Ball

Seven teams will be on tap when the Halton County Baseball Association Intermediate League swings into action on Saturday, May 10th. New entrants will be Oakville Orphans and Clarkson, both Intermediate "C" entrants. The only club to drop out, Fergus Vics chose the Intercounty grouping in preference to the Halton County Association this season.

A nineteen game schedule is slated for the Acton club who are reverting to an Intermediate "C" status this year. Other teams in the "C" round-up include Waterdown, reigning Ontario champions, Milton and the two new entries. Georgetown will field a "B" team as usual while Oakville Oaks, perennial champions, will remain in "A."

Following is the schedule for the Acton club.

Saturday, May 10 — Oakville vs. Acton.

Wednesday, May 23 — Acton vs. Milton.

Saturday, May 26 — Acton vs. Clarkson.

Wednesday, May 30 — Waterdown vs. Acton.

Saturday, June 2 — Georgetown vs. Acton.

Wednesday, June 6 — Acton vs. Oakville.

Saturday, June 9 — Milton vs. Acton.

Wednesday, June 13 — Clarkson vs. Acton.

Friday, June 15 — Acton vs. Waterdown.

Wednesday, June 20 — Acton vs. Georgetown.

Friday, June 22 — Acton vs. Oakville.

Wednesday, June 27 — Milton vs. Acton.

Saturday, June 30 — Clarkson vs. Acton.

Wednesday, July 4 — Acton vs. Waterdown.

Friday, July 6 — Acton vs. Georgetown.

Wednesday, July 11 — Oakville vs. Acton.

Wednesday, July 18 — Acton vs. Clarkson.

Saturday, July 21 — Waterdown vs. Acton.

Wednesday, July 25 — Georgetown vs. Acton.

Night games 8:30 and 8:00 p.m.; Saturday games 3:00 p.m.

The game is played in the last mentioned town after each date.

Esquering Council Accepts H. S. Levy

Accepting the new North Halton High School District assessment, the members of Esquering Township Council passed the following resolution at their regular meeting on Monday evening, May 7, "that in view of the fact that the various municipalities in the County of Halton have spent a great deal of effort, time and money, compelling the new assessment under the county system and further that a similar appeal last year was settled by arrangement, on the understanding that the new assessment figures would be used as the basis of apportionment for the 1951 levy; therefore it is the feeling of this Board of Arbitrators that the fairest possible division of the costs of the North Halton High School Area is on the basis of the new assessments of the various municipalities comprising that area."

Reeve George Currie presided at the meeting with all the members of council present.

Approval has been received from the Department of Highways for an expenditure of \$62,000 on roads during 1951.

A copy of a resolution of the Arbitrators in connection with the appeal of the Township of Esquering against the 1951 levy for high school purposes in the North Halton High School District was reported received from Lt. Col. G. O. Brown, secretary-treasurer of the Board.

The following accounts were ordered passed for payment: Bell Telephone Co., \$885; Ontario Hospital, Woodstock, \$45.50; Georgetown Herald, \$10.74.

Claims for foxes destroyed in Esquering were ordered paid as follows: James McBride, Limehouse, \$5; Fred Brooks, Limehouse, \$10; Fred Switzer, Norway, \$5; Frank Penson, Georgetown, \$2.50; Clifford McDonald, Georgetown, \$5.

The treasurer was instructed to pay the road accounts as presented by the road superintendent amounting to \$8,000.28.

Relief accounts as presented by the relief officer amounting to \$59.06 were passed for payment.

The road employees of the Township of Esquering are to have their wages increased 5c per hour.

A by-law was passed to adjust the salary of the auditor of Esquering.

Council filed the petition of the portion of School Area No. 1 formerly known as School Section No. 3 and no action was taken.

A Reminder...

The Jack Kentner Jr. Family Fund will close Friday, May 11

It's Wonderful to Hear Again

— and my brand new fully guaranteed Acousticon cost me only

\$69.50

Yes, that's right! Acousticon, the world's first and oldest manufacturer of electrical hearing aids, now makes a popular-priced aid for folks like me — who can't afford a higher-priced aid. And am I thankful! One-piece, small and lightweight, too—this aid is wonderful for use. Why don't you drop in, or write to the Acousticon people just like I did or phone 5-4121.
