ARCHAEOLOGY?

A writer in The Financial Post does not seem much impressed with the style of the new government buildings in and around Ottawa. "It is no exaggeration to say that most buildings erected in our national capital since Confederation have failed to meet the challenge of their site, character and times as well as did the original Parliament Buildings. They constitute one of the impressive architectural groupings of the world."

"Canada has good architects, not traditional copy-cats, but men who can design beautiful contemporary buildings that quicken the pulse and delight the soul. They put confidence in their ability to create, to say something new, to produce buildings in which all Canadians can unite in taking pride."

"The stuff we're getting is far less than that, far less than we deserve. It's archaeology—not architecture—and not good archaeology."

This gentleman is very pleased to have visitors to see his birds. This was followed by all meeting at the home of the leader, Mrs. James Wallace, where a social half hour was enjoyed. THE MIXING BOWL

Hello Homemakers! We have received a new cook book—"hot" from the press. The proud group who compiled the contents of Favourite Foods are the Girl Guides away down (or up) in Grand Falls, Newfoundland. These recipes are their mothers' favourite dishes. These Guides, do not know how much their efforts will mean to them until they have a home of their own, will they?

Take a look in your desk drawer or mother's cupboard! Can you sort out your mother's recipes? Maybe you should start to paste these recipes on 3 by 4 inch cards which you buy in a pack and file them under a card index.

The recipes that appeal to us from Newfoundland are, naturally, the economical fish dishes. Here are a few.

Smoked Fish Souffle

Remove the flesh from previously cooked cod or haddock, about half a pound, and flake it. Put one ounce of butter in pan and melt it. Add one tablespoon flour and pour of a cup of water. Let this thicken. Add one fish, season well and heat in two egg yolks. Fold in carefully the stiffly whipped whites of two eggs. Turn the mixture into a buttered souffle dish, sprinkle with grated cheese and bake in a hot electric oven (111 degrees) until risen, about 20 minutes (delicious made with canned lobster).

Tuna Fish Mould

1 lb. tin tuna
1/2 cup cold water
1 cup chopped cucumber
1 cup chopped celery
1 cup peas
1 1/2 cups salad dressing
1 tsp. lemon juice
2 envelopes gelatin
Red pepper
Salt

Method: Dissolve gelatin in cold water. Let stand for five minutes. Separate tuna with fork to make it flaky. Thoroughly mix tuna, cucumber, celery, peas, pepper and salt with salad dressing. Add lemon juice. Then stir in gelatin and pour into mould which has been rinsed in cold water. Chill firm, then unmould on lettuce or cream. Garnish with stuffed olives and sprigs of parsley.

Baked Fillet

Wash fillet, drain and dry. Cut into serving pieces. Dip pieces of fish in seasoned bread crumbs, then in milk, then in bread crumbs again. Place fish in butter coated baking dish. Pour melted butter over it (using about 4 tbsps. butter to 1 1/2 lbs. fish). Bake in very hot electric oven (500 degrees) for about 15 or 20 minutes.

Savory Oysters

1/2 lb. sausages
1 1/2 cups milk
1 tsp. salt
Dash of pepper
1 pint oysters
3 tbsps. flour

Saute sausage until cooked, then cut the sausage in cubes. Blend the flour into this, then add the milk, salt and pepper. Cook until thick and add oysters. Heat thoroughly until edges of oysters begin to curl. Pour at once over toast points or in pastry shells. Garnish with parsley.

TAKE A TIP

There are 6 distinct species of salmon, differing in color, flavour, texture and oil content. Due to quality differences the price of canned salmon, especially, varies widely. The pink is good for casserole dishes. Red salmon, always labelled sockeye, is desirable for sandwiches and salads. Medium-red salmon is priced between those and is used for cooking or serving in salads.

Marathon Running Pig Traced In Ad

A bewildered, tired and hungry pig, just about eight weeks old, stopped last Tuesday at the farm of Mr. and Mrs. Lawrence Gibbons, R. R. 4, Acton. It was lunchtime.

Mr. Gibbons saw the young pig and, reading it wasn't one of his own, invited it in. The youngster tried vainly to tell him he was on his way home and that he had just travelled six miles of the way and didn't want to be stopped. But Mr. Gibbons didn't realize the story till later.

The young pig waited there while it was learned that no one in the area had lost a pig and an ad was put in the Acton Free Press.

Saturday, the Misses Stull from the eighth line, Georgetown, came to the farm and spotted their young pig. These two ladies had bought three animals in Milton on Monday and this rascalion had left his new home as soon as he could. He covered six concessions during the night and next morning, probably intending to head down to Milton along the comfortably paved highway. Maybe he planned to hitch a ride.

The young wanderer, none the worse for his expedition, was taken home by his owners.
