

Poet's Corner
OFF TO SCHOOL

There's a vacancy about the house today.
I miss his little foot marks on the floor.
His toys lie in the corner undisturbed;
The old dog lingers 'round the kitchen door.
His ears perked up in all expectancy.
His little master to come out to play.
The noon day meal seems not the same somehow.
A change has come about the house today.
A sudden lump comes up into my throat.
I swallow but it does not disappear.
I can't explain this sad and lone-some feeling.
Nor can I seem to dry away my tear.
We've counted on this day to come.
I know.
We proudly watched him walking out of sight.
With lunch in hand, he seemed so changed in manner.
It seemed that he had grown up overnight.
New doors to learning now have opened to him.
New problems and new minds to teach him, too.
God fill him with Thy wisdom and protect him.
And guide him with Thy Hand his whole life through.
—Laura B. Dixon,
Milton, R.R. 2

"Savings play a vital part
in the battle against inflation"

... says Emerson Creed, Financial Editor,
The London Free Press

"Can inflation be checked?"
"Every one of us is concerned with the answer to this vital question. Today's all-time high costs of goods and services affect the living standards of people in all walks of life, and those living on fixed incomes are especially hard hit."
"In addition to weakening our economy, inflation threatens our defence programme."
"Therefore every method of controlling rising prices must be applied with vigour."
"Government measures such as increased taxes, credit restrictions and reduced government spending are necessary, if unpopular. Of course, business and industry must cooperate, especially by increasing productivity. The average man might feel that any control he alone can exert is insignificant. But the individual can and should help by doing his utmost to save money."
"Every dollar he saves — through bank deposits, savings bonds or life insurance — plays a part in helping to stem the tide of inflation. Add at the

same time, it brings the saver important personal benefits.
These benefits need no reviewing. But it may be pointed out that nothing has changed their importance even though there are many demands and temptations to use income for other purposes. Nor has anything supplanted saving as the one method most people have of obtaining many of the things they want and need most.
"All in all, there are more reasons for personal savings today than ever before."

Emerson Creed

Hello Homemakers! Although "song-and-fiction" describe summer as a time of ease and leisure, it is no such thing for the average wife and mother. Very few can take an extended holiday. Friends and family come to town in care-free holiday spirit. All in all, times for relaxation are few and far between. By September most of us women are ready to concentrate on good menus involving a minimum of effort.

Reinstate the soup course. Save vegetable juices and use them to dilute condensed soup. As for the main course you may turn to poached salmon with raw cucumber, sauce or meat loaves baked in muffin tins. Then too, barbecued beef meat pie or a boiled New England dish can be easily prepared and offer sharp contrast to summer fare. Hot vegetable plates take the place of raw vegetable salads when the squash, corn and lima beans are fully ripe. However, no one would neglect slicing cool cucumber, fresh tomato or crisp sweet pepper since these garden vegetables are so good this way.

Come to think of it the best desserts are the mellow melons which require little effort in preparing. Or come, if you can't stand fruit, pour either a frozen custard or chilled thin syrup over the pieces. The family should be happy.

Baked Fruit
Prepare peach halves, apricots or pear halves. Place the fruit hollow-side-up in a baking dish. Sprinkle with 1/2 cup sugar for 2 cups fruit and dot with butter. Pour a little water around the fruit and add a dash of mace and grated lemon rind. Bake in oven of 425 degs. for 15 mins. Serve cold with cream or ice cream.

Grape Sponge
1 envelope gelatin
1 cup cold water
1 cup hot grape juice
1/2 cup sugar
2 tbsps. lemon juice
2 egg whites, beaten stiff
Soften gelatin in cold water. Stir in the hot grape juice, sugar and lemon juice. Cook. Stir occasionally. When it begins to set, beat with rotary beater until frothy. Beat in the egg whites.

NEWS FROM ALL DIRECTIONS

Troubles; Girls
"Whereas the patience of this council is now exhausted" — the contractors were asked by Milton council to render their account. They were engaged by the town in 1949 to survey the water system and report, and no report was forthcoming. Other council concerns: disposing of \$200,000 of bonds at a net of \$97 (if possible); considering having provincial police for the town.

Not one of council's troubles but of interest are the seven births listed for Milton last week. One little girl was "a sister for Ruth, Charmaine, Bonnie and Mardi"; the fifth girl... another new daughter in the column was called Fawna Marie and another young lass was named Elizabeth Xanne.

V.I.P. Friends
A Georgetown minister, Rev. Alex Calder and Mrs. Calder visited with their friends, Mr. and Mrs. Adam Gave, in Toronto recently. Finding these friends of the Calder's were especially interesting, the Georgetown Herald reported: "Mr. Gave, a young Canadian actor, has just completed three years of study in Milan, Italy. A singing tour of Europe took him to Rome, Turin, Stockholm, Copenhagen, Amsterdam, Brussels, Paris, London and Hamburg. While in London he sang on British radio and appeared on television."
"Mrs. Gave is the former Countess Yvonne DeAbele of Hungary, whom Mr. Gave met and married overseas. He makes his American debut as a singer at the Waldorf-Astoria in New York in October. He is a friend of the Calder's and was soloist at their wedding."

Cool Dip
A little chilly for a swim, but the Burlington Recreation Commission is considering taking a dip into the question of a municipal swimming pool. "Too bad that although right on the lake, the town feels that it is too dangerous there for youngsters."

Hospitalized Business
Business address — Oakville-Trafalgar Memorial Hospital.
The business? Taking magazine subscriptions—and the hospitalized businessman is Oakville's Johnny Black. With a long stay in hospital behind him and more ahead he has taken on the job of special circulation sales representative for an agency. So far, business hours are afternoons only.

English-Thinking Belgian
The Georgetown Herald's "Chatting" columnist is always interested in people, and last week's column told of a visit to the home of Mrs. Yvonne Wold to visit Miss Elizabeth Jacobs of Antwerp, Belgium. The writer was afraid she wouldn't be able to speak a word to the European girl and was delighted to find Miss Jacobs spoke English as well as her native Flemish, Walloon and German. She has a reading knowledge of Spanish and is interested in Esperanto, the world language, and belongs to an Esperanto club.
Question: "What language do you think in?"
Answer: "In whatever language I happen to be speaking."
So Miss Jacobs is a fluent thinker in English—and some of us native-born could not always be classed as that!
