**Eden Mills Camp  
Turns To School**

Camp Edgewood at Eden Mills will be the site of an experiment early in June. For a week, school will be held at the camp as bushes take the place of blackboards and the cow's "moo" will be the nearest thing to a school bell.

The beautiful southern Eramosa site, not far from Acton, has been leased to the King George Home and School Association of Guelph. About 40 youngsters of one class at the school will determine for the Department of Education, the value of camping as part of the regular school curriculum.

Parents pay the costs for their own children and the Guelph Board of Education and Local Home and School Association will supplement this.

Camp Edgewood is the property of the Lutheran Church.

A program of studies of marine, bird and plant life, tree identification, conservation and visits to neighboring farms will put new sparkle into the regular classroom subjects.

Special programs are planned for the evenings, as well.

How're you gonna keep 'em, back in school.

After they've seen the farm? Maybe by the promise of more such camp-school experiments in the future.

**QUESTIONNAIRE  
SHOWS MOST PREFER  
LOWER TAX; WHO DOESN'T?**

Most people answering a question by The Financial Post, would like to see taxes lower. They would lop off the defense surtax and lower excise taxes on automobiles, appliances, soft drinks, confectionery and tobacco.

Others had a go at personal income and corporation taxes, but left alone all other taxes except the tobacco excise tax.

A few, taking a long view of the present taxes and government planning to hold down inflation and for defense spending, suggested little change except the tobacco tax.

A general stand was taken on allowing both corporations and individuals greater opportunity to invest if Canada's industrial development is going to continue at the present pace.

**Malesins Sell High at National**

A \$905.00 average at a sale of dairy cattle is a lot of money in any day and age. Yet that is the reported figure for the 68 head of cattle sold at the National Holstein Sale held in the Municipal Arena, Oakville, on Monday of last week. True, they were in our opinion, a top lot of cattle brought out in excellent condition and bloom. It does indicate that despite the present surplus in most of the Holstein breeders have confidence that the market will correct itself just as soon as the present U.S. embargo is removed.

The top figure, \$4500.00, was paid for an eight-month-old son of Markman, out of a lifetime production dam sired by Montvic Chieftain 7th. This calf was purchased by Mount Hope Farms in the U.S. which means he will have to remain at Glenafon Farms at Alliston until the embargo is lifted.

Hilton was well represented both in the buying and selling. F. W. Letterson and Sons, of Milton, paid \$1275.00 for a junior yearling grandson of the \$15,200.00 Raymond Major. Grand Rang Monarque Major is the name of this new Holstein resident. His dam is a "Vevey Good" cow with a lifetime production of 167,534 lbs. of milk and 6,157 lbs. fat. Her largest and most recent record is made as an 11 year-old with 26,013 lbs. of milk and 928 lbs. of fat.

From this same herd, namely Wm. Bousquet of Leam, Que., W. S. Hall and Son, Oakville, purchased a senior yearling heifer at \$1250. Hilton sellers included R. C. Given and Son, Georgetown, whose outstanding senior yearling heifer brought \$1100; three year-old heifer from A. G. Hunter, of Nelson, was sold at \$755; a two year old heifer consigned by J. F. Trimble, President of the Halton Holstein Club, brought \$550; from Frank G. Stark and Son of Milton a two year-old daughter of Lonelm Texal Anthony (one of the Maple Unit sires) brought \$500; a three year old heifer received by Dr. Paul Beer and Son, Georgetown, for their two year-old daughter of Rockwood Racket Julius; Blanshard Bros. of Burlington were the consignors of a good three year-old heifer, but unfortunately were not present when this heifer went through the ring. However, this should be sufficient to indicate that despite present conditions, good cattle still command high prices.

**Ontario Agricultural Officials Visit Quarantined Area**  
Col. the Hon. T. L. Kennedy, Ontario Minister of Agriculture, accompanied by W. P. Watson, Ontario Live Stock Commissioner, recently returned from a visit to the area near Regina at present quarantined for Foot and Mouth disease. Mr. Watson in conversation with the writer stated, "they have done a great job in cleaning up the area in question."

It is perhaps open to question whether or not someone blundered at the outset but we would judge from Mr. Watson's statement that the Federal officials in charge have done, and are doing a real job at the present time. From another source we would judge that relatively speaking, not too many good cattle have had to be slaughtered—while there has been the odd herd of pure bred dairy cattle, the quality of these would not compare with the average good commercial herd of pure-breds in Ontario.

When attending a meeting at Brookville, one of the Nassagaweya Township officials reported that a certain resident of Halton in criticizing the Federal Government on the handling of the Foot and Mouth outbreak, stated, "And the compensation they're paying isn't any good either." However, be that as it may, our information is that the compensation being paid is every nickel the cattle are worth.

Provided there isn't a further outbreak of the disease in Canada, various officials contacted seem optimistic that there are good chances the embargo will be lifted by January, 1953.

**Halton Breeders' Clubs Sponsor Activities**

J. A. Carroll, Assistant Deputy Minister of Agriculture, is to be the guest speaker at the Twilight Meeting to be held at the Oakville Sales Arena, near Trafalgar, on Tuesday evening, June 3rd. This will be the fourth annual event of its kind sponsored by the Halton Holstein Breeders' Club. It will be recalled that Mr. Carroll acted as manager of the two Ontario showmen who toured Great Britain early this year.

While overseas, Mr. Carroll visited a number of other European countries, and it goes without saying that his address entitled "Highlights of My Overseas Trip" will be of interest to all agricultural producers.

Along with this outstanding address will be some demonstrations and judging of Holsteins under the able leadership of Geo. Drennan, popular fieldman for Central Western Ontario. Ladies, as well as men, are invited and with splendid accommodation under cover, the event will go on rain or shine.

**Holstein, Jersey and Guernsey Enthusiasts to Visit O.A.C.**  
The annual field day at the O.A.C. jointly sponsored by Holstein and Jersey Clubs normally attracts from 1,000 to 1,200 from the two counties. This year's event is scheduled

for Saturday, June 7th at the O.A.C. where groups from all parts of the two counties will meet in time for lunch in the College dining hall as guests of the O.A.C.

For the first time, the Guernsey County Branch of the two counties are joining with the other two breed organizations in sponsoring this popular event. A day at the O.A.C. is always worth while and in early June everything is at its best. Aside from providing an opportunity to see old friends, members of the O.A.C. staff, something of the O.A.C. livestock, it also provides an opportunity for those interested to get the latest information on such topics as Grass Silage, Hay Driers, and Farm Machinery.

The ladies always gets a real kick out of seeing some of the rare plants in the College greenhouses and around the beautiful campus. Last, but not least, the kids have a lot of fun in their Sports program.

For the first time, it is a great day for everyone who takes it in, and furthermore, you don't have to be a dairyman to get in on the party. In other words, it is Halton and Peel's day at the O.A.C. Sure, if you can't make it on June 7th you can go up the following week—any time from Monday to Friday inclusive. That's Farmers' Week at the O.A.C.

**Folk School News**  
Hilton has a lot of firsts to its credit. Not long ago we announced that Hilton was the first to inaugurate a Farm Pond policy. Now we lead by being the first to contribute financially to the Ontario Folk School Council.

For the past two years the Council has without cost to the county supplied leadership of the highest caliber for the Folk Schools held at the Roy Coulter residence near Lowville. In the past financial assistance has been given to the Folk School Council by the United Co-operatives of Ontario and the Community Programmes Branch of the Ontario Department of Education.

The Halton Folk School Committee at their meeting, contributed \$50 to the Ontario Council in the hope and expectation that other counties will follow their example.

Recently, the Ontario Folk School Council was invited by the United Nations Association in Canada to attend the first Ontario Regional Conference to be held at the University of Toronto on May 24th. It is the feeling of the council that this invitation is in recognition of their effort to bring better methods of adult education to the rural people of Ontario.

**Count Win After 23 Years Absence**  
On Saturday afternoon, May 17, the Campbellville Intermediate ball team after an absence of 23 years won a 7-1 victory over Georgetown Raiders at the Athletic Grounds.

The highlight of the game was the four hit pitching of Jack Roberts. In recording his first victory of the year, the young Campbellville left-hander struck out 11, and walked only four. The home team played a sound defensive game but were helped out on the scoring column by a second rate fielding display by Georgetown.

Lefty Jordan held the homesters to seven hits, two of which were of the scratch variety.

Kenneth Moore led the Campbellville attack with a double and a single while the other hits were garnered by Roberts with a double, and singles by Dowling, Earl Cairns, McPhail and Laking. A good crowd attended.

**AUCTION SALE  
OF FURNITURE, ETC.**  
The undersigned auctioneers have received instructions to sell by public auction at the proprietors' home:  
**MISTRESS H. ELLIS**  
At the Toronto Brick farm, just north of P. L. Robertson factory, adjoining the town of Milton, on  
**WEDNESDAY, JUNE 4th**  
At 2 o'clock, the following:

No reserve as proprietress is giving up housekeeping.  
Terms cash with clerk day of sale.  
HINDELY & ELLIOTT, Auctioneers,  
Wm. Randall, clerk.

**LETTER TO THE EDITOR  
The Discussion  
Of Public Issues**

Dear Editor:  
Strange, isn't it, we train men and women for almost every possible form of activity except politics. In our selection of practical members we trust to bull luck and not infrequently get away with it. Your member may turn out better than you hoped, he often does.

We are better in our selection of candidates for the House of Commons. The voters are not much interested, in many cases they have to be lured to the polls. To the voters the candidate is a lottery ticket. He is accepted with hope of good things to come.

One reason for this apathy is that the meetings are dull. Even the candidate may not have studied the issues. How can we expect that people will be deeply interested—all too often they are not—they vote by guess. There is one thing which should help. Every political meeting should be thrown open for discussion or, at least, for questions and answers.

It would be far more interesting for those who attend. It would be helpful to our national life. This is done in Great Britain. They call it heckling. The voters are said to be the most competent hecklers in the world. In Canada, the public platform is no longer a feature of our political life especially in the country.

An audience willing to ask questions and a competent candidate is a real enjoyment to those who are interested in public affairs. Besides, and this is important, you are not likely to see your member in action at Ottawa, you can hear him at home if you give him an opportunity.

R. J. Deachman

**How Hoover gives rugs new life...**  
and doesn't a bright-looking rug give the whole room a lift?

The bouncing corks show that something is happening here—something very good for your rugs. It's the gentle vibration that shakes loose the "murder grit" that cuts away the nap... the grit that's not removed by ordinary cleaners. Hoover beats, as it sweeps, as it cleans.

This all adds up to longer life and fresher colors for your rugs... "color-ving" we call it. You can "color-vice" your furniture and draperies just as easily, with the handy tools that plug right into the side of the Hoover Cleaner.

Isn't this the time to give special thought to your costly rugs and furnishings? Here is the right cleaner to preserve their life and beauty. See the famous Triple-Action Hoover now, at our store or phone for a free home demonstration.

**YOU BUY THE MOST EFFICIENT MOST PROFITABLE WORKING FORCE when you invest in up-to-date power farming machines**

Making use of up-to-date equipment to get more work done with less help is the most efficient and the most profitable way to operate a business.

In farming as in other industries power mechanization steps-up production, increases the output of available manpower, and keeps costs down. The steady adoption of new machines to replace worn out or old-style equipment is an investment that pays off in easier more profitable farming.

In Massey-Harris machines you get the latest in equipment built to save time, save labor, and save money. Your local Massey-Harris dealer will be glad to give you full particulars.
