The lacrosse lesson this week supplied through the courtesy of Marc Laferrier is on the free throw. A free throw: By a free throw it

is understood that all players shall be placed in the positions they occupied immediately prior to the foul. A player from the non-offending team shall be given the ball. At the signal of play from the referee he shall be allowed to play in any way allowed by the rules of the game. That is to say, the player awarded a free throw may exercise his choice and either run with the ball, shoot at goal or pass it to another player. A free throw is given as a penalty for minor infractions of the rules such as touching the ball with the hand (unless otherwise provided for), stepping into the centre zone before the referee
