FARM NEWS

From Halton's Farm Lands

1952 ENDS WITH GLUTTED glutted markets. The closing days of 1952 saw the

OUR PRICES ARE

stock yards of Canada literally deluged with hogs. Hog producers TOO HIGH That may sound like heresay to from coast to coast were making a real effort to get their hogs on the some of our farmer friends. Never market before the 23 cent floor went | theless, it is true in so far as export into effect on January 1st. Whole markets overseas are concerned. In milk shippers find their markets in short, our standard of living on this continent has resulted in pricing Over the holiday season a large ourselves out of the export market percentage of Halton shippers re- -- that despite the fact that the Oncelved instruction from their re- tario farmer has been operating on spective distributors to hold back a very narrow margin for some

their shipments from two to five time. days. Four of the larger Toronto | The 40 hour week with high wagdairies recently advised those who es per hour in industry has increashad not been shipping at least 200 ed agricultural cost of production to lbs. daily during the past three the point where irrespective of the months that their product would not pound sterling-dollar impasse, we can't compete with other world Just last week, eight local ship- producers. This was made very pers representing some 32 cans of clear at Ottawa recently by Mr. Ful-

milk per day, were advised by their ford, the member for Leeds County. dairy that their milk would not be | As reported in Hansard, Mr. Fulford presented comparative prices All this adds up to lack of mark- for some five agricultural commodiets. Needless to add the U.S. em- ties. Carcass beef in New Zealand bargo has played an important part sells at 14c-in Argentina at 18.7c in creating that condition. To the with the Canadian price at 44c. Butbest of our knowledge it is the first | ter in Denmark is 40.7c, 37.8c in Austime since Confederation that Cana- tralia and New Zealand and the da's agricultural products have Canadian price 62c. Passing on to been shut out of Great Britain and cheese, the New Zealand and Aus-United States, both at the same tralian price 21.2c against 32c per time. It is indeed fortunate for pound in Canada,

Canada that our domestic markets In eggs the prices given by Mr. have expanded tremendously in the Fulford were as follows: Denmark past ten years, otherwise the lack 46c, Australia 52c, Ireland 54c and of export markets would have Canada 61c. Finally, coming to made itself manifest earlier in the bacon, and we presume he is referring to Wiltshires, 30.2c per lb. was the price in Denmark and Holland, against 36c in Canada.

These prices may in some cases have changed materially in the past The prospects for any improvefew weeks-in fact, on reliable ment are far from bright for the authority we are informed that the early part of 1953 at least. Certainly Dutch and Danish price of bacon the removal of the U.S. embargo on has dropped 10 shillings per cwt. I March 1st should be beneficial not since that time,

That should be fairly good evidence to substantiate our statement that we have priced ourselves out of the export market. The high wages

inability to market their products ability of the farmer to buy agricul-

embargó should ease our present in industrial centres has in the main been responsible for our high cost of production of agricultural products. It would seem that it may now be boomeranging on industry. The recent lay-off by two of our of our leaders feel there is need for larger farm implement manufacturers is no doubt larely due to their or to put his another way, the intural machinery at present prices. Leaders of labour unions would in our opinion do well to remember it may be that before too long, this

It's HARD to realize that less than

one hundred years ago aluminum

was a precious metal, priced at

\$17 an ounce. In fact, Queen's

University at Kingston, Ont., pre-

sented the first graduate from its

chemistry course with an alumi-

minum is 18c a pound. How is it

that a dollar buys as much alu-

minum today as it did before the

war, while it buys so much less of

most other things? One big rea-

son is the increasing use of alu-

minum - ten times that of 15

Nowadays the price of alu-

num medal in 1858.

However, we would not like to close this article without a little brighter note. From a long time viewpoint we are confident of better days for the agricultural producer. It should not be necessary to remind our readers that in 1951 our production of dairy products was just about equal to our consumption. Consequently, once the U.S. embargo is removed it should not be too long before we are back in the same position. In fact, many increased production of dairy pro-

the goose which laid the golden

Due to the rapid population inrease on this continent some economists go so far as to suggest that by 1960 we will require a 100 per cent increase in dairy products. In short, the fable of "The man who killed continent will require all her own agricultural products to feed her

Junior Farmers See New Year In

The Halton Junior Farmers held a New Year's Eve dance Wednesday evening. December 31 at Trafalgar Hall, with Lorne Bentley's Orchestra supplying the music. The hall was gaily decorated and also overfilled with the

At five minutes to twelve hatsT and whistles were distributed by the executive. At twelve midnight Mac Sprowl, County President of the Halton Junior Farmers and chairman of the hockey executive called on everyone to join hands and sing Auld Lang Syne.

Lunch was then served and the remainder of the evening was spent in dancing.

The average Canadian spends 3.6 per cent. of his income on tobacco. 5.4 per cent, on drink.
