HOPE FOR VICTIMS

Across Canada, from Newfoundland to British Columbia, victims of the dread crippling Poliomyelitis—little children and even adults—are being given new hope. And even better than hope, they are being given real financial assistance by the Canadian public to provide the medical treatment necessary for their long fight up the road to regaining useful, happy lives.

This is being made possible by public support of the Canadian March of Dimes which supplies the funds for the "Fight Polio" program of the Canadian Foundation for Poliomyelitis.

FASHION HINT

The fashion wise are putting their best foot forward in some of the very attractive new shoe styles, displayed in the recent shows in Paris and New York. There appears nothing doubtful or odd in the new shoes, no drastic changes. Among the most pleasant features are smart shoes like the one pictured above, in casual-but-luxurious color. The softer feeling is shoe fashion's newest trend, we read. Some shoes are even being made from glove leather.

Asymmetrical cutting was popular, with scallops and cut work. Although the butter brown was featured shade, the footgear is gay in all colors. In the sling back pumps, the closed toe was shown. The young moderns will have wide scope in flatwear in moccasin or ballet types again this year. Jewelled slippers for evening were made of satin or crepe with brilliant, such as a ring of stones around the high heel! Glamorous house shoes are becoming more popular. They are gorgeous, and not too expensive.
