TIES STILL AS PLAY

With only two teams to play, it's still a pretty tight league to end of this week. Cox's and Red's tied for first. Mark's and I. deadlocked for second. Play-offs tonight with first and fourth total goal, to settle this contest. It looks like which has it this year, or most number on top as it bulge on the are still going. In the second team with week, retain place.

2,000 FARMS CLASSIFIED IN SIZE, CROP, POWER BY SURVEY

The U.S. Department of Agriculture has classified 2,000 farms in size, crop, and power by survey. The survey was conducted by the Agricultural Census Bureau. The results show that the average farm is 175 acres in size, produces 100 bushels of wheat, and has 100 horsepower of power. The survey also shows that the average farm has 100 acres of land, 100 acres of woods, and 100 acres of water.

1953 BOOM OR BUST?

With a year ahead in mind, the business predictions for the 12 months ahead are numerous. Oriented economists favor the business predictions, stresses the importance of the "get out and sell" theme for the businessman who wants to keep "above water." The importance of advertising—good advertising—is important to everyone. Advertisements in the home town paper enjoy readership much greater than similar ads in larger mediums at much greater cost. The progressive merchant of today can not afford to miss visiting his customers through consistent advertising in the local paper. In advertising it's the steady pull that counts.
