

\$1,300 Buys a Lot—Higher Education

Putting your youngster through high school and college is a costly business. And, if you're like most people, you will have to prepare for that expense well in advance.

An easy way to do it, should you not need the Family Allowance Cheques for their primary purpose of paying for the youngster's day-to-day expenses, is to earmark all of them for his later education. The cheques for one child, saved in a B of M account until the age of 16 is reached, total more than \$1,300, including interest. It's a handy start toward a higher education. And it means you have ready money in the bank available for any unexpected opportunity of emergency.

Start while your youngster is still tiny, and you'll have a sum which will really count when the first college bills arrive. Why not drop into the B of M next time you are passing, and open your child's "Fund for the Future." Gordon Oder, manager of the Acton branch, says any member of his staff will gladly welcome the opportunity of assisting you in putting this good idea into practice.

From December, 1949, to August 1950, Canada's food cost index rose 18 per cent.

H. BINGHAM AND SON HONORED AT HOLSTEIN ANNUAL

One of the highlights of the Annual Meeting of the Holstein-Friesian Association of Canada held in the Banquet Hall of the Royal York Hotel in Toronto, on Wednesday of last week, was the presentation of Master Breeder Shields by Hon. F. S. Thomas. Three Canadian breeders received this signal honour in 1952.

To the delight of all "Haltonites", the partnership of Harold Bingham and Son was one of the three so honoured. In making the presentation Hon. Mr. Thomas made reference to the fact that "the Bingham's" have bred nine xx bulls; seven Very Good cows; and 31 Good Plus cows. All animals in this herd of forty-five, with the exception of one, have been born on the Bingham farm.

One of the outstanding females in this herd is the 17 year old Katharine Mercedes Dutchland, with a life time production record of 199,540 lbs. of milk. She is producing 35 lbs. or more daily and she should go well over the 200,000 lb. mark.

Another outstanding cow is Meadowbrae Sylvia Polly, with a life-time record of 154,240 lbs. of milk and 5,285 lbs. butter fat. All "Black and White" enthusiasts will recall Glenafton R. A. Monogram, former herd sire in the Bingham herd which took the Grand Championship at Milton, and also at the West Central Championship Show at Brantford a few years ago. This great sire was sold to Argentina at a five figure price.

Halton has many outstanding farmer breeders but Harold Bingham and Son, Kyle, are the first to achieve the elite circle recognized as "Master Breeders", and to them we extend sincerest congratulations on their great achievement.

PLANS FOR THIRD ANNUAL FOLK SCHOOL

The home of Professor and Mrs. Alex Sim at Merton, is to be the site of the third annual Halton Folk School, scheduled for the period February 25th to March 1st. Professor Sim was one of the first men to help organize "folk schools" in Grey County. Later, when Director of Adult Education at Macdonald College, he introduced the general idea of the movement into Community Night classes in Quebec High Schools.

It has been pointed out to us by Roy Coulter, that those who took advantage of the recent Leadership Training Course held in Milton, are well acquainted with Eleanor Sim and her ability to lead discussion groups. Certainly with Professor and Mrs. Alex Sim together with Dr. Roby Kidd providing leadership, the local committee have every reason to be enthusiastic that the 1953 school will be the "best yet". Apparently there is room for a few more applicants and those interested should send their application to Mrs. R. E. Ellenton, Milton R. No. 6.

WM. B. FOX PROMOTED

William B. Fox, popular fruit and vegetable fieldman with headquarters at Oakville, has recently been appointed Associate Director

How "Skinny" Girls Get Lovely Curves

Gain 5 to 10 lbs. Now! Thousands who never could gain weight before, now have shapely, attractive figures. No more bony noses, thin bodies. They thank Dairymilk. It puts flesh on bodies skinnily because blood lacks from being too thin. Improves appetite, digestion and food assimilates you better. Don't fear getting too fat! Stop when you don't figure you wish. Introductory or "pre-acquired" size only 69¢. Try Dairymilk Tablets for one month, lovely curves, new pep, today! At all dairymilk.

of the Fruit Branch of the Ontario Department of Agriculture. Born near Cainsville in Brant County, he graduated from the Ontario Agricultural College in 1936.

In his undergraduate days, Mr. Fox spent three summers in experimental work with vegetables at the Central Experimental Farm at Ottawa. Following graduation, he spent two years with the Norfolk Fruit Grower's Association and later for a period of some ten years operated a farm near Cainsville where he specialized in fruit.

Halton fruit and vegetable growers while sorry to lose their popular fieldman, will be delighted at his well merited promotion.

HIGHLIGHTS AT BREED MEETINGS

Last week saw the Royal York in Toronto thronged with pure bred breeders from all parts of Canada. Unfortunately we were unable to attend many of these meetings and therefore our comments will be very limited:

Dairy Breeders and Crop Men Oppose Further Invasion by Synthetic Products—Judging by the discussions and resolutions passed at the annual meetings of the Holstein, Jersey, Guernsey, and Soil and Crop meetings, the dairy-men of Ontario and Canada are in no passive mood when it comes to the further invasion of their market by vegetable oils and synthetic products. It was pointed out at the Holstein-Friesian meeting, that dairymen represents the third largest industry in Canada. Furthermore, that "one-sixth" of our Canadian population is directly dependent on the dairy industry.

While some of the leaders in the various discussions were prepared to admit that the time may come when they must be prepared to accept such products, it was the general consensus of opinion, that the present time with glutted milk markets due largely to the U.S. embargo and our export markets for dairy products cut off in Great Britain, is no time for further substitutes for dairy products.

Artificial Insemination on Increase—Secretary Geo. M. Clemons of the Holstein-Friesian Association revealed that 44 per cent of the Holstein calves registered in 1952 were the result of artificial insemination. This compares with a figure of 40 per cent in 1951, and 31 per cent in 1950. Mr. Clemons also reported a total active membership of 12,420 at the end of 1952.

Transfers of ownership, he stated, were seriously affected by the embargo on exports, dropping from 50,584 in 1951 to 33,399 in the current year. This 34 per cent drop underlines very strongly the importance of export markets to the breeders of pure bred Holstein-Friesian cattle in Canada. As matter-of-fact, it is equally as important to the breeders of all pure bred dairy cattle.

No Cure for Rhinitis—Ontario Swine Breeders indicated unmistakably their concern about the disease Rhinitis. A resolution was introduced requesting more rigid inspection of all pure bred swine herds. W. P. Watson, Ontario Live Stock Commissioner, and Prof. R. G. Knox both pointed out to the meeting that except in advance stages it is impossible for anyone to determine accurately whether or not the disease is present in a live animal.

As yet there is no test which can be used in diagnosing the disease. Nor as yet, stated Mr. Watson, have our Veterinary authorities discovered any cure. Research authorities in various parts of the continent are continuing to work on the problem. This should indicate to our swine producers the need for every precaution when selecting breeding stock or feeder pigs.

President Retires Served for 12 Years

Mrs. B. Leitch was hostess to members of the Churchill W. A. on Wednesday afternoon, Jan. 28. A good attendance gave evidence of interest and encouragement in the work of the church. Reports showed that the ladies had a very successful year with a substantial balance on hand.

Mrs. F. Freeman who has been president for 12 of the last 15 years, retired and the officers were elected as follows—president Mrs. A. Kerr, first vice-president Mrs. W. Butler, second vice-president Mrs. B. Leitch, secretary Mrs. R. Denny, assistant Mrs. W. Swackhamer, treasurer Mrs. H. Griffin.

Flower secretary Mrs. B. Leitch, pianist Mrs. R. Denny, visiting committee Mrs. F. McArthur, Mrs. F. Freeman, Reporter, Mrs. F. Freeman, work committee Mrs. B. Russell, Mrs. F. McArthur, Mrs. A. Saunders, Mrs. A. Brooks, Mrs. A. Strokov, social committee Mrs. W. Swackhamer, Mrs. A. Brooks, Mrs. D. Vyse, W.M.S. secretary Mrs. H. Griffin, Mission Band Mrs. F. Freeman, Mrs. R. Denny, Baby Band Mrs. F. McArthur.

A few items of business were disposed of and lunch was served by the committee in charge.

ART

Insurance manager: "What do you do with all these pictures you paint?"
Artist: "I sell them, sir."
Insurance manager: "Well, name your figure and report Monday. I've been looking for a salesman like you for years."

EARLY MOVIES

One of the Vitagraph Corporation's early movies, way back in the days when you were young, had a total production cost of \$3.50, exclusive of film, says Reader's Digest. The picture, called "Burglar on the Roof," paid one actor \$2 to play the part of a policeman; the rental of a cop's complete outfit came to \$1.50.

ALL ROUND SURVEY

If you think that overweight is a condition afflicting chiefly the high income groups, you're wrong. Dr. Howard A. Rusk says in the Reader's Digest that examinations of 5,000 employees of one industrial firm revealed the same ratio of overweight for executives and non-executives—one in every four. On the better living standards of today the worker is as likely to "dig his grave with his teeth" as is his boss.

"DOWN DAIRY LANE"
Ladies in their programs on Wednesday 8:15 to 9:30 p.m. C.S.T. on the Domestic Channel of C.B.C.

You must have milk if you and the family are to stay healthy. That's why it is a sensible idea to keep a supply of Milk Powder in the kitchen always. You can use it in most recipes just as it comes from the container, or you can make it up into fluid milk if your quart runs out at an inconvenient time. Milk Powder is an excellent and inexpensive source of protein and minerals, the food values you can't do without.

DAIRY FOODS SERVICE BUREAU
409 Huron Street, Toronto, Ontario

Serve Canada... and yourself... in Signals

Service in the Canadian Army is not merely a job, it is a worthwhile career in which the young man fits himself for a successful future, and, plays a part in the vital work of keeping Canada secure and safe.

For the young man interested in a trade, the Royal Canadian Signals has much to offer... outstanding trades training... special trades pay and promotion—and, of course, the Canadian Army's outstanding pension plan, free medical and dental care, 30 days annual leave with pay, service at home and overseas. In the Signals you will be working with the most up-to-date communication equipment and methods that science can devise. Your experience and training will be available to you wherever you go in the Army, or in civilian life.

You are eligible if you are 17 to 45 years of age and able to meet Army test requirements. Applicants should bring birth certificates or other proof of age when reporting for interview.
