

Changes Greet Former Actonians

Next door the Acton Creamery has a fine building and have had for several years now. The lot stood vacant for a long time following the fire in below zero weather that wrecked the block. The fire is just about the limit of my recollection because I only remember the glow in the sky that night. Sam Holmes is operating the barber shop where Fred Davison had his headquarters for so many years and during which he acted on the town council. Frank VanWyck opened his own dry cleaning establishment in the other half of this Main St. building after Watson's Dairy and Dairy Bar moved from the rather crowded quarters to Tony Seynuck's more spacious restaurant on Mill St. I guess William Cooper is the dean of Acton businessmen in his clothing and tailoring business on the corner of Mill and Main St. Mr. Cooper is still there and operates the business by himself. Across the street where the creamery used to be located, there has been quite a few businesses in the past few years. Simpson-Sears order office now occupies the premises. Eisen's Clothing Store started there before expanding to its present Mill St. location. Following that there was Hassard Radio and then Purloves. It appears that this trip will have to pause here and continue next week. There seems to be a great many more changes to mention.

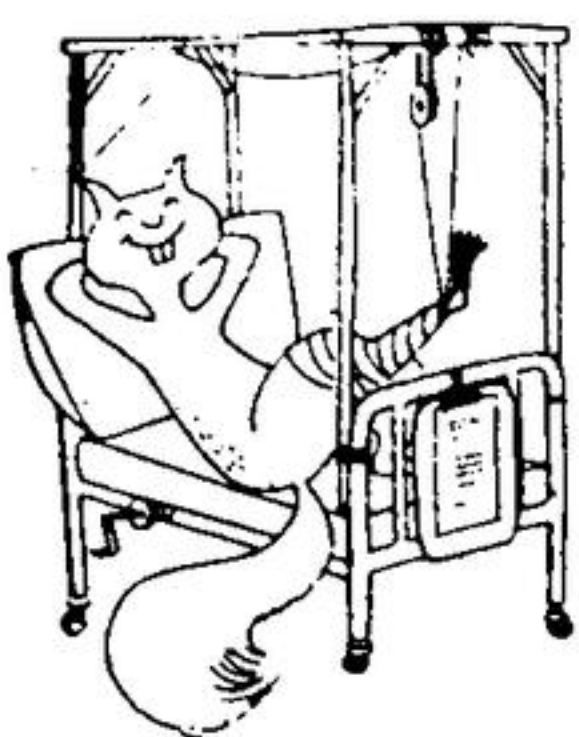

Sunday in Florida, Missions Described

The Senior-Auxiliary W.M.S. of Knox Church, Acton, held its March meeting at the home of Miss Ruby Clark with a large attendance of members, home helpers and guests. Miss Clark and Mrs. Alex. Mann had the devotional part of the meeting. Mrs. F. Anderson, in the absence of Mrs. Binnie read her paper on Religion in Africa pointing out the trials of mission work due to color, fear and superstition. Mrs. Buchanan told of future plans of the Daughters of Knox and of an oratorical contest to be held throughout the Presbytery. Mrs. A. G. Blow and Miss Clark spoke of Sunday in Florida and gave a short description of the Florida Chain of Missions begun 10 years ago with assemblies in two cities and now holding meetings in 20, and stressing the work of Mr. and Mrs. Ray Phillips, trainers of native social workers in Africa. All were pleased to learn Rev. Mr. R. H. Armstrong had been elected Moderator of Guelph Presbytery and to hear Acton was to have the Spring Rally of the auxiliaries of the Presbytery as well as the Presbytery meeting in May.

LOW DEATH RATE

The Canadian Tuberculosis Association comments: "The lowest tuberculosis death rate in our history is a cause of deep satisfaction. It is a satisfaction which is justified — as long as it does not blind the public to the fact that there were still more than 3,400 deaths from TB in Canada last year, which is more than the toll from all other communicable diseases combined. TB keeps at least 30,000 Canadians too ill to work, and of these more than 18,000 are in sanatoria during any year."

In 1929 9 per cent. of Canadian corporation profits went for taxes and 49 per cent. was re-invested in business; in 1952 53 per cent was taken by taxes and only 28 per cent. was re-invested.

Operation Squirrel

We knew ALUMINUM was used for artificial limbs, crutches and other aids to the fractured human frame. Now word comes from England suggesting still wider horizons for this versatile modern metal. Seems an animal lover of Twickenham found a squirrel with a broken leg and fixed it up with a pair of wooden splints. These his furry patient immediately ate. So he made two more, this time of aluminum. No more trouble. It's just one more example of the seemingly limitless uses of aluminum. And it helps explain why Alcan is increasing its aluminum-making capacity in Quebec, and building a new smelter in British Columbia. Aluminum Company of Canada, Ltd. (Alcan).

Retired Calgary Businessman Dies

A Calgary businessman for over 40 years, John Cook Leslie, 71, died in Calgary General Hospital on February 18. He was the eldest son of the late George Leslie and Marjha Ann Cook and was born in Esquimaux Township. After attending Waterloo School and Georgetown High School, he became a bank clerk with the Merchants Bank, and went to Calgary in 1908. Four years later he established a real estate business in the city, J. C. Leslie and Co., which he operated until he retired in 1951 and turned the business over to his son, Gordon Bruce Leslie. In 1912, Mr. Leslie married an Acton girl, Agnes Bell, who with a family of five children, survived Mrs. Lyman Mathews, Mrs. John Tyast, George Alexander, John Clifford and Gordon Bruce. He also leaves four sisters, Mrs. Anna Jamieson, Kingston, Mrs. Gertrude Laidlaw, Mrs. Walter Torrance, Burlington, and Mrs. William Bowman, Georgetown, and 14 grandchildren. Two brothers predeceased, Frank Leslie, Innisfail, Alberta, and Roy Leslie, Esquimaux. A charter member of the Calgary Real Estate Board, Mr. Leslie was an elder of Knox United Church for many years, and a member of Ashler Lodge, A.F. & A.M. Rev. G. Preston McLeod conducted the funeral service in Knox Church and interment was in the Queen's Cemetery, Calgary. Pallbearers were William Hall, Thomas Miller, David Sloan, Norman Priestley, W. Trickey and Ernest Scott, all of Calgary.

It Costs Money to Modernize Your Farm — But it Costs You More if You Don't

When you plan essential farm improvements, don't delay because you're short of ready cash. Modernization helps to increase your yields, cut your costs, swell your net profits. Many improvements are investments that pay you big dividends in the end. And every month they're postponed costs you the money you'd otherwise be making. If you haven't enough ready cash

to cover the beginning of your modernization program, a Bank of Montreal Farm Improvement Loan may be your answer. It's a low-cost loan—only five per cent. interest—and it's available for the purchase of tractors, trucks, combines, livestock, the construction and improvement of farm houses and out-buildings, the clearing of land, and the installation of electrical and drainage systems. And repayment can be made in easy instalments, timed to match seasonal income periods.

Come in and have a chat with Gordon Oder, manager of the Acton B of M, about your improvement plans. You can count on him to give you every possible assistance. If it's inconvenient for you to call personally, write for a copy of "Quiz for a Go-Ahead Farmer," the B of M folder about Farm Improvement Loans. You'll find it a handy checklist for your own farm-modernization needs.
