Halton's Member Expresses Thanks

Halton's Member of Parliament since 1935, Hughes Cleaver bid farewell to the federal field of government recently in a radio broadcast from Parliament Hill.

"One does not win four successive federal elections without the unselfish and loyal support of a host of friends. To those friends I wish to express my sincere thanks," the member declared.

"The work has been heavy at times, but it has been interesting work and well worthwhile. Looking back over my term of office, it is with some pride that I am reminded of the very substantial strides which Canada has made in the standard of living enjoyed by our people, the advance in social security and the increasing importance which Canada is exerting in the business world and indeed in world affairs. Old age pensions at 70 without a means test, and at 65 for the needy, family allowances, unemployment insurance, the insurance principle for war pensions and the highest standard of living of any nation in the world except—"

Hughes Cleaver, Halton's Member of Parliament.

Poet's Corner

THREE GATES

If you are tempted to reveal A tale to you someone has told About another, make it pass. Before you speak, three gates of gold.

These narrow gates: First, "Is it true?" Then, "Is it useful?" In your mind Give truthful answer. And the next Is last and narrowest, "Is it kind?"

And if to reach your lips at last It passes through these gateways three, Then you may tell the tale, nor fear What the result of speech may be.

ing the United States, have all been achieved in less than 20 years of good government. "In the business world, I have seen our gross national product increase from 47 billion dollars in 1935 to 23 billion dollars in 1952, an increase of over five times and the national income has correspondingly increased. Canada has today 1,496,000 more folk gainfully employed than in 1935 when I first took office. "In the international field, Canada made a very substantial contribution toward the winning of the second world war, and under the leadership of our present Prime Minister and our own Mike Pearson, Canada's contribution to U.N., to N.A.T.O., and the other international measures to maintain our democratic way of life and world peace, has been substantial. It is gratifying to all of us to know that we are the only country in the world which is financing the rearmament program without going into debt. Under these circumstances, high taxes are inevitable. High taxes are not popular but a nation cannot get into trouble by a pay-as-you-go policy. "Many folk of both parties in the past months have been kind enough to express regret that I am not running again and to tell me that they appreciate the non-partisan way in which I have served my country, and so with a feeling of deep gratitude and some regret, I reach the end of one of the most interesting periods of one's life."
