OLD LEATHER

Centuries ago, leather was rated with gold, silver and jewels as fitting to give kings and gods.

From the dawn of history, wandering tribles of the Eastern deserts. used leather for their home furnishings from carpets to tents. However, it was the Egyptians who gave teather its cherished position as an adornment for furniture. Recent excavations of Egyptian tombs brought forth leather articles estimated to be more than 33 centuries old and they were perfectly

Can you rent money?

Of course you can' Money can be rented to individuals in the same way it is rented to government or business concerns. The same way you rent a home, a rowboat, or a bicycle.

Consumer finance companies are in business to rent money to help solve temporary money problems. The Canadian government, in turn, has established a maximum rental that may be charged to borrowers. The borrower is further protected by having the payments stated in his contract, and the amount he has to pay clearly understood

Because Household Finance rents money to help people to help themselves we have always charged the lowest possible rates consistent with sound business practice.

As a result, today we are Canada's largest consumer finance company, serving more men and women than any other company in our field.

T.V. Antennae Sprouting in Acton (Continued from Page Two)

The sports fan? He probably gets more kick out of T.V. than anyone. There's a variety of clean, wholesome entertainment in telecasts of big league ball games, boxing, track and field, basketball, golf, wrestling, etc. In our opinion, this is the best medium for TV., outside of drama, for the entire family.

One thing we've noticed, and we're sure others have too, is the lack of good music. We still have recourse to radio for uplifting

What have we determined from this short discussion on the merits of television. Nothing. It is either good or bad, depending on the use you make of it. If used in moderation and good taste it can be a useful addition to a family. If abused, like anything else, it can have a harmful effect on its

BR. FRANK I MOORE VACE-PRESIDENT AND GENERAL MANAGER REMANCE PETROLEUM UMITED

The new Reliance gasoline at our pumps is the best we have ever marketed. It isn't a so-called improved gasoline. New Reliance is all new.

New Reliance's anti-knock characteristics are substantially increased as a result of better octane ratings. Volatility factors, which influence starting, acceleration, warm-up and mileage, are based on new, higher standards rigidly controlled.

If yours is a recent model car with a high compression ratio engine, you can count on better performance when you tank up with new Reliance Ethyl. All cars and most trucks perform better with either new Reliance Ethyl or Reliance Standard.

For easier "cold engine" starts greater freedom from vapor locking-faster acceleration —quicker warm-ups—AND LOWER COST OF OPERATION PER MILE-see your neighbourhood Reliance service station.

A FRIENDLY CHALLENGE TO EVERY MOTORIST !

Make the 500 MILE ROAD TEST

WITH NEW RELIANCE GASOLINE

Prove to your own satisfaction just how good new Reliance Is: Make a real test—make it for 500 miles. You'll be convinced new Reliance gives you-

EASIER STARTS

New, rigidly controlled volatility factors mean easier "cold engine" starts . . . greater freedom from vapor lock.

FASTER ACCELERATION

All the reserve power of your engine when you need it is yours with new Reliance gasoline.

QUICKER WARM-UPS

A thoroughly warmed-up engine in far less time . . . greater economy and less risk of "engine strain."

LONGER MILEAGE

You travel farther for less with new Reliance. Start proving that now. Tank up with new Reliance -today!

Now, more than ever YOU CAN RELY ON
