Shot put—Lee Yuklum, Robert Heatley, Frank Mason.

Slowpokes Danger On Busy Highways

It is perfectly true that excessive speed is the reason for most highway accidents. But the other kind has some responsibility too.

In New York State they are going to do something about the slowpokes who dawdle along at 15 to 20 miles per hour on a busy week-end. And the longer the line of honking motorists grows behind them, the more slowly they dawdle.

After July 1 no motorist in New York State "may drive at such a slow speed as to impede or block the normal and reasonable movement of traffic." Something like that may very very necessary in Canada too, thinks the Financial Post.

A Canadian smoking one package of cigarettes a day pays \$80 a year in tobacco tax; if he is married and earning \$3,000 a year he pays \$60 a year income tax.
