REMEMBER

At the zoo a group of people watched the antics of a large orangutan. He was throwing a terrific tantrum and his rage seemed directed at his mate in the next cage.

Two well-dressed women were also watching the scene. Suddenly one turned to the other and exclaimed, "Goodness, that reminds me! I've got to have that dented fender repaired before my husband gets home this evening."

POUNDING THE SPORTS BEAT

with A. Vengeance

ACTON MAY have a lacrosse championship to hang up beside the one they won 53 years ago if the Rams can continue winning.

The big difference between the two teams was in the quality of the goal tending. Norm Young, in the Acton nets, was sharper than his counterpart for Bradford and his heads-up game enabled the Rams to take the all-important first game of the best-of-seven series.

Off to a shaky start, the Rams overcame a deficit in the third quarter and rammed in seven goals to six by the homesters in the last chapter. Score by periods was 5-3, 9-8, 11-10 and 18-16, Acton being on the short end in the first two chapters.

Lloyd Smith and Jack Mann rapped in four goals apiece for Acton while Rev Bennett notched three. Joe Gerrie, Gordie Burton and Johnny Kraepke potted two apiece and Doug Smith sniped a single.

Of 18 penalties handed out by the referees, 12 of them went to Acton. Bradford's best was B. Collings with five goals. Bray was not far behind with three while Patton had two and an assist, K. Collings, B. Collings and Foster each collected one.

LEFT 53 YEARS AGO C. QUANTIC VISITING

Fifty-three years ago Charlie Quantic left Acton to go west and entered the railroad business at the time Sir Donald Mann was building railroads in Western Canada.

It is 27 years since Mr. Quantic last visited Acton and he notes many changes. His boyhood home was on the property east of Acton owned by Darwin Cripps. The farm is now all town lots and is having the new high school on the site.

Mr. Quantic now resides in Vancouver and has been retired from active railroad work since 1940. He was an engineer on the Canadian Northern from 1904 until 1911 and from 1923 until his retirement he was superintendent of motive power and car equipment for the C.N.R. Many friends were glad to welcome him back to Acton again and reminisce with him on earlier days here.
