B of M Deposits Loans at New High

Striking confirmation of the rapid pace of Canada's extraordinary development is found in the Bank of Montreal's annual report to its shareholders and its two million customers. The 136th annual financial statement of the country's senior chartered bank shows all-time peaks in the most important departments, with total resources running to a record figure of \$2,364,000,000.

A most notable indication of the nature and pace of business activity during the past year is provided by the fact that the B of M's total loans have increased by \$145,582,000 and stand at the impressive total of \$857,762,561.

These loans are made "to Canadians of every calling farmers, miners, fishermen, oil men, lumbermen, ranchers—to industrial and business enterprises and to provincial and municipal governments," according to the report just issued by the local B of M manager, Gordon Oder.

His report underlines the fact that the extent of the bank's participation in financing the business and personal needs of its customers is made possible by the record amount of funds which B of M depositors have placed with its branches from coast to coast. Increased over the year by \$70 million, the bank's total deposits run to \$2,226,960,000—the highest figure in the bank's long history. Well over half this money is made up of the savings of private citizens in all walks of life.

Norval Tops Junior Farmer Puck Loop

Norval leads the Junior Farmers' hockey league with three wins; Milton is second with two; Palermo third with one and Acton again in the cellar with none, following tabulation of this week's game results.

Two penalties were meted out to John Currie and Barry Archer.

In a good close game, Milton defeated Palermo 3-2. After the record score was two all, with only a few minutes left to play, Doug LeRiche scored the tie-breaking point. One five minute penalty was levied to Don Vivian.

Engagements

Mr. and Mrs. Sam Holmes of Acton wish to announce the engagement of their daughter, Ethel Rae June, to Mr. Cecil Robert Davidson of Ottawa, son of Mrs. Davidson and the late Donald Davidson of Petawawa. The wedding will take place in Acton United Church on Saturday evening, November 28, 1953, at seven o'clock.

GOOD INVENTION

"Dad, did Edison invent the talking machine?"

"No, son. God made the first one. All Edison did was to invent one you could shut off."

STORAGE SPACE
If you're planning to remodel your kitchen or to build a new one, see that storage space is arranged so that supplies and equipment are stored at the place where first used. Those used most frequently should be in the most accessible locations; those seldom used, in the least accessible.
