

Tips on Touring

By Carol Lane
Women's Travel Authority

The glove compartment of your car is like a woman's purse. It usually needs to be cleaned out. Now is a good time to remove those bottles of sunburn lotion that you used this summer and get ready for winter. Here's what your glove compartment should contain for cold weather driving:

- (1) Bottle of hand lotion for chapped hands.
 - (2) Pair of wool lined leather driving gloves which can be used by the whole family and a pair of outside gloves for brushing off snow, putting on chains, etc.
 - (3) Plastic ice scraper and a small shaker, filled with salt, to loosen ice on the windshield (Cover the top of the shaker with tape to prevent salt leaking).
 - (4) Sun glasses for driving in snow.
 - (5) Small flashlight and whetstone, car muffs, pocket size pack of tissues, and provincial and regional maps.
- Don't let your glove compartment become a "catch-all." Only put in the things you really need.

Local Exhibitors Win Royal Awards

For the second consecutive year, Dr. Hector L. Astingo, who maintains a Rosafe Herd of Holsteins both in his native Argentina and at Brampton, Ont., won both the Premier Exhibitor awards at the Royal Winter Fair. However, his ambition of having a Royal Grand Champion still eluded him as Spring Farm Juliette, shown by J. M. Fraser, of Streetville, Ont., took the Female Grand Championship and Rockwood Rocket Tone, owned by the Quinte District Cattle Breeding Association, was named Grand Champion Bull for the third year in succession.

SPEND WAGES ON DAIRY PRODUCTS, NOT BEER, SOME FORUMS SUGGEST

"The Challenge of Dairy Substitutes," the topic for farm forum discussion for November 16, did not find the attendance at forums as large in Halton county as at the previous broadcasts, but judging from the reports, it proved to be a very interesting and timely topic. No doubt the Royal Winter Fair was responsible for the lowered attendance.

The answers to this question stated a curtailed dairy production will result in curtailed farm purchasing and consequently lessened pay cheques for the urban worker. Urban consumers have a right to know what they are buying. Products made from edible oils and passed off as dairy products by imitating coloring or consistency should never be tolerated. Present trends in Canada and past experience in the U.S.A. may forecast that the cost of watching and forcing the law to prevent dairy products from being adulterated with edible oils may cost the consumer more than has been saved by the introduction of margarine.

This was one of the greatest Holstein shows ever held at the Royal, with superlative quality running right down to the bottom of the exhibitor classes. No less than 113 exhibitors brought out 270 head of cattle. Adding strength and spice was an entry of 33 head from U.S. breeders.

The highlight of the female classes was the awarding of her third Royal Senior and Grand Championship to Juliette, who had previously headed the dry Aged Cows, over Woodys Glen Queen Marie, the winner of a great class of milking Aged Cows for Forsgate Farms, Jamesburg, N.J. The Reserve Grand Champion for Forsgate was bred by W. W. Thompson, Hornby. This was Juliette's tenth consecutive year on the tankard during which she had been nominated for All-Canadian each year, and has won six All-Canadian and two Reserve All-Canadian awards.

Ross Segsworth, Freeman, showed the first prize junior yearling, Spruceleigh Fond Hope Minor.

In the first place groups responded, it would cause a heavy surplus, which we have plenty right now, and prices would drop lower than they are to-day. The dairyman would switch to beef cattle, resulting in lower prices to the farmer. If he takes to growing soy beans instead of cattle he would impoverish his land. Dairy cattle leave more fertility in the soil, thus aiding in conservation.

With dairy industry being injured naturally farmers will turn to other trends of grain, hogs and poultry which would result in depressed prices. This would necessitate a stoppage in the buying of implements, manufactured goods and other products. Agriculture is now too prosperous now and if the dairy industry were affected, it would be less prosperous.

(b) What effect would it have on the urban consumer?

Another group report their opinion that Ontario maximum be \$1,000 rather than \$200-\$300 which they claim is not sufficient. Dairying is a farmers living. The public fight for their wages. If some who spend their wages in beer parlors would spend more money on dairy products, their families would be healthier and happier.

JERKS!

Elevator humorist - Well, you sure have your ups and downs - Ha, ha! Elevator girl - It isn't the ups and downs that bother me - it's the jerks.

THE BIRD SANCTUARY erected in the grounds of Beardmore and Co. recently pays tribute to Bruce Pargeter under whose supervision and care the main entrance to the plant has become a beauty spot and an inspiration to all employees.

RECOGNITION MADE TO EMPLOYEE WHO BROUGHT BEAUTY TO GROUNDS

Many of us can recall when the grounds around the average man-1920 just after his discharge from facturing plant were rather untidy service in World War I. Many and too often unused machinery have adorned the transformation found a very prominent place in his skill his made in the Bird- the foreground. But there were those who knew a change could be wrought and over the past few years the grounds at the entrance to many Acton plants are now beauty spots.

Outstanding among these well kept grounds are those at the Beardmore Co. plant. It was just 13 years ago that Bruce Pargeter was given the task of improvement over the grounds. Bruce came to
