Need New Flushing Hose, P.U.C. Finds

The question of a new sewer flushing hose was raised at the meeting of the Public Utilities Commission on Thursday, November 19.

The hose, purchased by council last year as second hand fire hose from the city of Toronto, had developed too many leaks under hydrant pressure to make it useful.

Superintendent Lambert reported that 600 feet of hose was required.

Superintendent Lambert reported that two sludge beds were full and sewers had not been flushed. Mayor Oakes was to report the matter to council.

Mike Cox has completed a new service at the swimming pool. Commission members learned, and he asked if this could be hooked up in front of, or behind, the meter.

The following accounts were passed for payment.
