

Council Approves Industrial Zone Change at Meeting

(Continued from Page One)

building, Mr. Everdell added, members of the Board would consider offering free labor.

After discussion on separate subjects, council agreed to: buy and install a new 500-watt floodlight with underground cable, for the cenotaph; put calcium chloride on the park track as a dust check; empower the finance committee to purchase a used tractor and attachable high-way-type mower.

Members noted copies of letters from the county health unit to three local residents directing improvements on conditions found unsatisfactory with outside toilet facilities.

Original Plans Altered

In a discussion of work progressing at Warren Grove, it was learned original plans have been altered. Wallace Street will get sewer trunk lines first. It is possible, several members agreed, the street may have to be closed to road traffic for a short time.

After a short discussion on stop streets here, it was decided the road committee should review the by-law in light of several questions raised by town works foreman A. Kirkness.

Clerk McGeechie Informed

Council also approved recommendations made by the P.U.C. for street light changes on Arthur and Mill Streets and Lake Ave. Possible placement of a light on the west end of Agnes Street is to be investigated.

Lands Town Engineer

A letter from the public school board to council related the board made a saving of about \$1,000 through services rendered by the town engineer on sidewalk work at the school.

Council agreed to investigate conditions before accepting an account for a local child from the Toronto Sick Children's hospital.

Members also expressed the need for a two weeks' extension on the decision date asked by the Wool Combing Corporation regarding possible purchase of property by the town, pending a meeting with the cemetery board.

Two Brothers Meet First Time 27 Years

Two brothers separated for 27 years met in Milton last Sunday morning. David Hall, oldest of six boys left home at Monaghan, Ireland, in 1927 to emigrate to the United States. Sunday morning he shook hands with Constable Sam Hall, his brother, who was two years old when the elder brother left his native Ireland.

David Hall has never been back to his Irish home in the 27 years since he left it for his residence in Williamsport, Pennsylvania. The trip to Milton was a special one with his wife to meet brother Sam Hall.

The elder Hall had no difficulty in recognizing his younger brother but as Sam pointed out, "I would never have known him." Talk of home occupied most of the day the two brothers spent together.

Oh, WHERE is my wandering ad tonight?

That's a fair question and deserves a factual answer. When you buy newspaper advertising you have an investment in every copy of the paper that carries your sales message because the circulation of the newspaper is also the circulation of your advertising. So, what you get in return for your advertising dollars depends on the newspaper's circulation. In order that you may buy space in this newspaper as you would make any

sound business investment, we hold membership in the Audit Bureau of Circulations,* well known to advertisers and publishers as A.B.C. Only publications with paid circulation—evidence that people want the paper—are eligible for membership.

At regular intervals one of the Bureau's large staff of experienced circulation auditors comes to our office to make a thorough audit of our circulation records. The FACTS that he obtains as a result of the audit are published in A.B.C. reports which tell you: How much circulation we have; Where it goes; How obtained; How much people pay for our paper, and many other FACTS that you need in order to KNOW what you get for your advertising money.

It's never necessary for our advertisers to ask, "Oh, where is my wandering ad?" They get the FACTS from our A.B.C. report and KNOW. Ask for a copy today.

*The Audit Bureau of Circulations is a cooperative, nonprofit association of 3,450 advertisers, advertising agencies and publishers. Organized in 1914, A.B.C. established a definition for paid circulation, rules and standards for measuring circulation and methods for auditing and reporting circulation FACTS.
