

THIS WEEK'S SCENE Standard to any 20th century landscape evincing civilization is the macadamized roadway. In the western world there are many more miles of paved highways, their courses cutting broad black ribbons through urban and country areas, than in all other countries of the world. One of the smoothest, most scenic stretches of highway in Halton county sweeps through verdant bush and lush farmlands between Acton and Milton. A section of the highway, Number 25, is shown in this photograph.
