CAMPBELLVILLE

Mrs. T. Allan Guest At W.M.S. Meeting

Mrs. L. Crawford was hostess to the Women's Missionary Society on Thursday afternoon. Miss Simpson opened the meeting with the call to worship. The devotions were taken by Miss E. J. McPhail and Mrs. A. T. Moore. Mrs. King and Mrs. E. Mahon gave their reports. Mrs. Moore reported for the Girls' Group and Mrs. Greenlees for the Grace Mission Band. The leader and girls were very pleased with the results of their bazaar and Mrs. Greenlees thanked all who had helped in any way.

Mrs. Moore was in charge of the topic, assisted by the following ladies, Mrs. Crawford, Mrs. Elliott, Mrs. J. Mahon, Mrs. Mendes and Mrs. Greenlees, each lady bringing a problem facing the missionaries in Africa, India, British Guiana, Formosa, etc. This was very inter-

OBITUARY

Recently Marked 85th Birthday

Mrs. Richard Mahoney, a lifelong resident of Guelph, passed away quietly in Guelph General Hospital on Wednesday, November 25.

She is survived by eight children: Mrs. L. C. Jackson (Helen) of London; Mrs. N. S. Marshall (Gladys) of Eden Mills; Rev. Harry J. Mahoney of Glencoe; Mrs. T. A. Hutchinson (Mary) and Mrs. N. L. Pickett (Edith) of Milton; Mrs. E. H. Austin (Doris) of Guelph; Alfreto and Dr. Richard L. at home; 13 grandchildren and three great-grandchildren. Two daughters, Florence Blanche and Arletta Susan, predeceased Mrs. Mahoney.

Funeral service was held at her residence in Guelph, followed by interment in Woodlawn cemetery on Friday.

Mrs. Mahoney recently celebrated her 85th birthday with all her children present. She was one of the oldest members of Dublin Street United Church and was active in women's groups in the congregation. Her husband predeceased her in 1933.

Confederation in 1967 brought about immediate union among the four provinces of Ontario, Quebec, New Brunswick and Nova Scotia.

Hamilton Caller, Set Dance Guests

Guests at the Acton Square Dance club's dance on Friday evening were a set from Hamilton and a Hamilton caller, Morris Fay. The dance was held in St. Alban's Parish Hall, with music by the Rhythm Ramblers.

A good crowd attended. This is the second last dance of the pre-Christmas series.

Every Halton Child To Have T.B. Test

Dr. Archie F. Bull, Medical Officer of Health, announces that all primary school children in Halton county will have a tuberculin skin test. This huge project is being undertaken by the Halton County Health Unit, assisted by the Halton County Tuberculosis and Health Association. This survey will be commenced in the near future and carried out during the next few months.

Dr. Bull states that "tuberculosis is still our most important communicable disease in spite of the great progress that has been made in its control. I estimate that it costs the people of Halton \$120,000 every year."

"One way in which we can help control this disease is by buying Christmas seals."

Mixing Maidens Elect Officers

The organization meeting of the Ballinfad 4-H Homemaking Club for the fall of 1954 was held on Saturday, November 6. This unit is the Supper Club with Mrs. Jesse McEnery as leader and Mrs. Fred J. Shortall as assistant.

The following officers were elected: president, Bonnie Colton; secretary, Elizabeth Gibson; treasurer, Beth McEnery; pianist, Marjorie Gibson.

The second meeting was held at the home of Marie Mitchell on Saturday, November 20 with nine girls and two leaders present. It was decided the club would be known this year as the Mixing Maidens. The roll call for the meeting was "A good eating habit."

Under the able leadership of the leaders the group studied milk in the supper menu. The practical work was making white sauce as applied to cream soup and scalloped vegetables. Afterwards these things were eaten as lunch.

Knox Heather Club Has First Meeting

Mrs. Tom Watson was hostess for the first regular meeting of Knox Heather Club on Wednesday evening, November 24, with Mrs. Jock Calder presiding. Mrs. Charles Kirkness read the scripture, followed by a prayer by Mrs. Edgar Dawkins. Roll call was answered with all members present.

Minutes of the last meeting were read by the secretary, Mrs. Charles Kirkness, followed by the treasurer's report by Mrs. John Mann. Business matters relative to club interests were fully discussed and it was decided that regular meetings be held the fourth Wednesday of each month.

This portion of the meeting closed with the Mizpah benediction, followed by a short program, after which a social hour was spent over the tea cups.

Mrs. James Inglis, in a few well chosen words, graciously thanked the hostess, the program committee and the lunch committee for a very enjoyable evening.

Parish Men, Boys Attend Communion

Men and boys of St. Alban's Anglican church, Acton, and four from St. John's church, Rockwood, attended a corporate communion and breakfast in Acton on Sunday morning. The rector, Rev. E. Jones, was celebrant for the communion at 8 a.m.

Ladies of the Guild prepared and served breakfast to about 25 in the basement of the Parish Hall.

A broadcast by Bishop Bagnall to all the men and boys in the diocese was heard on the radio before the morning service.

Attending from Rockwood were Dr. Waller and his son, and two wardens, Lorne Linfoot and John Lloyd.

Of Special Interest to Our Community Neighbors

A. V. ROE CANADA LIMITED

announces the formation of

AVRO AIRCRAFT LIMITED

ORENDA ENGINES LIMITED

and the acquisition of

CANADIAN STEEL IMPROVEMENT LIMITED

You have heard it said over and over again: "How time flies." We would like to say it again. It hardly seems possible that nine years have passed since AVRO Canada moved into this community with a family of some 300 persons. Since then the Company has grown from 300 to 16,000... accepting and acting upon its responsibilities as a good neighbor... moving up into the front ranks of the international aviation indus-

try...operating through two divisions—Aircraft and Gas Turbine. Effective January 2, 1955, A. V. Roe Canada Limited will become the parent company of a three-company group through—the incorporation of the Aircraft Division as AVRO AIRCRAFT LIMITED and the Gas Turbine Division as ORENDA ENGINES LIMITED and through the acquisition of CANADIAN STEEL IMPROVEMENT LIMITED.

AVRO AIRCRAFT LIMITED

On its emergence as a separate corporate entity, Avro Aircraft rededicates itself to the maintenance of its pre-eminence in Canada through its past and current design and production achievements and through the promise of greater things to come.

In fulfilling its role, the new company will direct the efforts of some 10,000 skilled designers, engineers, technicians and production workers in maintaining the flow of CF-100 all-weather fighters... in helping the R.C.A.F. "keep 'em flying" through trained service representatives in the field, and modern repair and overhaul facilities at Malton... and most important, by ensuring through constant and unremitting research, design and development by its engineering staff, that the aeronautical needs of the future are successfully met.

With management and policy unchanged, Avro Aircraft will continue to discharge its high responsibility as one of the main industrial arms of the R.C.A.F. and through present and future projects build and reinforce Canada's air defence.

CANADIAN STEEL IMPROVEMENT LIMITED

Established in 1951 to supply jet engine blades—probably the most exacting shape ever forged in Canada—Canadian Steel Improvement Limited occupies a unique place in Canadian industry.

Since its formation, C.S.I. has produced millions of jet engine blades and other precision forgings for the aircraft industry and at the same time has expanded into other fields until today it offers a complete forging service of the highest standard for the fabrication of components in steel, high temperature alloys, aluminum, titanium, and other non-ferrous alloys.

C.S.I.'s work force of 400 includes expert metallurgists, die designers and skilled craftsmen and, in step with Canadian industrial growth, will have additional facilities available next year. These will include an increased range of forging equipment to undertake the largest forgings in the aircraft industry, thereby bringing C.S.I. closer to its goal of a complete forging and casting service.

C.S.I.'s current production facilities in Etobicoke will be tripled in 1955 to meet forging and casting demands.

ORENDA ENGINES LIMITED

Orenda Engines begins its corporate life with an established record of engineering and production achievement, with management and policies unchanged and with the same goal... leadership in the field of aerial propulsion.

From Orenda's design, development and production departments came the first all-Canadian jet engine to power the CF-100 and F-86 Sabre V and VI. Through constant development, the various series of the Orenda, now at 11 and 14, have increased in power and reliability. In addition to the present extensive design, engineering and experimental offices and laboratories at Malton and a full scale test plant at Nobel, Ontario, expanded research facilities are now under construction to deal with the increasing... complex requirements of the future. The 6,000 people in the Orenda family are dedicated to designing, manufacturing, maintaining and servicing modern jet engines and other forms of aero power and to the building of a sound aircraft industry for the defence and development of Canada.

Avro Aircraft's multi-plant operation at Malton produces Mark 4, CF-100's for the R.C.A.F.

Orenda Engines' 30 acre plant, power house and test cells produce Orenda's for CF-100's and Sabre V's & VI's.
