PHONE 220 ACTON

Fellow Workers To Share \$28,000

Winning close to \$28,000 in last Saturday's Irish Sweepstakes is not going to make much difference in the lives of Mr. and Mrs. John Stoutley, according to these lucky Streetsville residents. "I didn't even listen to the radio to see if the horse I'd drawn was in the race," Mr. Stoutley said. "The first I knew I was really in the money was when one of the chaps in our office at McCarthy Milling Co. Ltd. came into the mill and told me I'd better hang on to something and then informed me my horse 'Carey's Cottage' had finished third although only a 22-1 favorite. Mr. Stoutley said he intended to continue working at least until he is 65. "I've decided to give each of the nine lads at the mill who have been buying tickets almost as long as I have each \$200. I told the boys if I won the first prize I'd give them each \$1,000 and I've figured it out the \$200 would be in the same proportion," stated Mr. Stoutley.

DELICATE, HAND PAINTED eggs are a symbol of Easter to Ukrainian new Canadian families in the district. An hour and a half of painstaking, precise work is required for each egg. Some of them are hollow and others hard-boiled. These eggs are on display in the Free Press window this week.

FRAGILE EGGS INTRICATELY PAINTED PART OF UKRAINIAN EASTER RITES

Weselych Swiat! That's what all the Ukrainian New Canadians will be saying to each other this week-end.

It means Happy Easter, and it is written in Ukrainian alphabet on the attractive cards Ukrainian families send to each other at this time of year.

One of the most famous customs of this national group is the painting of Easter eggs. Every family has some of the eggs, painstakingly hand-painted in intricate designs. This week two Acton men, Mike Dye and Bill Pryck, brought some of these delicate Easter eggs in to the Free Press office for display in the show window at the Easter season.

"The Ukrainian Easter eggs are a Ukrainian tradition loved by every Ukrainian family all over the Ukraine at the time of Easter," Ukrainians explain.

They brought eight of the fragile eggs which were painted in Toronto. While the Ukrainian-Canadians in Acton share in the traditions of the old land, apparently no one here paints these eggs as beautifully as the ones the men brought to show.

It takes about an hour and a half to paint each egg, they explained. The designs are tiny and symmetrical, exquisitely designed with laborious care.

Some of the eggs bear the same pattern in red, maroon, white and yellow, while others have a variety of patterns in several colors.

One, with a black background, has an Easter symbol on one side with a figure in national costume on the other. Obviously, the work involved is astonishing.

Some of the eggs are light as a feather, and others are heavy.

Highway Surfacing Definite This Year

Resurfacing of No. 7 highway and improvements to the drainage along the "flats" is definite this year, according to Georgetown council's road chairman, Deputy Reeve Allan Norton.

Questioned about progress, Mr. Norton said approval has been given for one phase of the plan by the highways branch in Hamilton and engineer Ross-Simmons is presenting the plan to Queen's Park for approval before coming before council.

Adjustment was made at the meeting in the town garbage contract with Bob assessment roll.

Mr. Lane told council last week he had lost money collecting garbage at his fee of \$5,700 last year, and suggested either a charge per pick-up or a fee set by population.

With the town growing so rapidly council felt a substantial increase was justified, and that the fairest way is to have some standard for setting a rate. After comparing costs in some other municipalities, it was decided to use the previous year's population as shown on the assessment roll as a basis for payment.

Mr. Lane will receive \$2.00 per person a year in future. Payment this year, based on a 4110 population in 1954, will be \$8,220.

CLEARING AUCTION SALE

Of Pure Bred Registered Ayrshire Cows, Hereford Cattle, Tractor, Hay Baler, Power Machinery, Horse, Pig, Poultry, Hay and Grain.

The undersigned auctioneer has received instructions from the Farm Committee of Peel Manor to sell by public auction at

PEEL COUNTY MANOR Main Street North, Brampton, ONTARIO

THURSDAY, APRIL 14th At 12:30 p.m.

PURE BRED REG. COWS AND HEIFERS—3 Friesian cows, 3 cows, bred in Feb.; 4 cows, bred in Nov. and Dec.; 2 cows, bred in Sept. and Oct.; 3 heifers, bred in Feb.; 1 open heifer—3 yearling heifers. Exact dates and pedigrees will be given on day of sale.

TERMS: Cash with clerk day of sale.

Positively no reserve as Peel Manor quits farming.

HERB M. REINHART, Auctioneer, Snelgrove, Phone Victoria 21-41.

Weed Inspector Gets No Salary

A Bronte councillor, Charles Livingston, was appointed, weed inspector for the village for 1955. Council took this action after receiving a letter from A. H. Barton, in charge of weed inspection for the province, asking that an inspector be appointed.

"There's no salary attached to the job," said Councillor Gordon Lefebvre.

Councillor Livingstone suggested Councillor John Davidson for the position, but the latter was unwilling to accept. "I think it would be an ideal position for you to fill, and that you could do a good job," observed Reeve-Millward.

Councillor Davidson then moved a motion, seconded by Councillor Ed Lee, that Councillor Livingstone be appointed to inspect the weeds. The motion was carried.

Dr. Faludi's Firm Zone Georgetown

Dr. H. G. Faludi and his firm, Town Planning Consultants, have been engaged by Georgetown to make a zoning survey of the town which will lead to a zoning by-law later this year.

The by-law mentions a fee of \$1,000 for work done on this during the next year, but Mayor Jack Armstrong explained that this is a fictitious figure and that subdivider Rex Heslop has agreed to pay costs of the survey, as it is in his interests to have the whole town properly zoned.

Council has also engaged Toronto solicitor Harry Willis, who worked for the town on the annexation last fall, to represent Georgetown at the Department of Planning and Development in any matters which might arise in connection with the new zoning by-law.

Used Cars, Taxi By-Laws Reviewed

Burlington council's finance committee is to undertake a review of Burlington's license by-laws, especially those out of date after members were told the only by-law applicable to a used car lot is the junk dealer's by-law. At the same time council is to shelve the recently passed taxi by-law because some drivers objected to being forced to wear caps, especially in summer.

The subject of ancient by-laws came up when Cr. John W. Gordon reported that the operator of a used car lot on Water St. E. found it "embarrassing" when he sought to pay a license fee and it was discovered that there was no law, except as a junk dealer, which would not apply. This town has never had a used car lot until a few months ago, the councillor said.

Earlier, Ed Harris appeared before council complaining about its decision of the previous week when it passed the by-law requiring finger printing of drivers, photographs and identification cards in cabs and the wearing of caps at all times. He asked for a revision of the regulation regarding caps and advocated a badge or crest to be worn on shirt or coat.

Ask Final Decision Sewage Disposal

A special meeting of Oakville council, called last week to discuss joint services with Trafalgar township, ended with a decision to ask Dr. A. E. Berry, head of the Sanitation Division of the Ontario Department of Health, to appear before council and give a final decision as to whether the present sewage disposal plant may be enlarged. Dr. Berry has gone on record in his written sewage report, as stating present facilities cannot be satisfactorily extended. Prior to this decision, the meeting had discussed various methods of sewage disposal, both jointly with the township and as a local problem. E. F. Roberts, of the Dineen, Philips & Roberts engineering firm contended that the joint scheme using natural levels would be the most economical from the town's point of view.

WANT FIVE-DAY WEEK

Edmonton (CP)—Four major milk-distributing firms have made a joint application to the board of public utility commissioners for adoption of a five-day week delivery system in Edmonton. At present a 44-hour week is in effect.

NORTHERN BEES

Matheson, Ont. (CP)—Arnold Werner who kept bees for 25 years near Niagara Falls will bring his 100-hive apiary to this town 90 miles east of Timming. He says the ground here is better for the nectar-producing plants harvested by the bees.
