## **'54 Annual Report** D.H.I.A. Off Press

The annual report for Ontario Dairy Hord Improvement Associations for the year 1954 is fresh off the press. Those responsible are to be congratulated on the fund of valuable: information which it contains. As we prosume our readers are aware. D.H.I.A. is available to owners of grade and mixed herds of grades and pure-breds. In 1951, 22,230 cows representing 1161 herds were enrolled in the 51 associations operating during the year. average production per cow 8616 lbs. of milk and 805 lbs. of Butterfat. 56.1% of the cows enrolled, qualified for red or gold scal

### certificates. Progress Being Made

It is both interesting and en- Sam Harron souraging to note that the average A J. Ruddell production per cow for the year Cliff May 1951 (the first year of operation) Gordon Jefferson was 7954 lbs. milk and 278 lbs. of Roy Wilson fat. Last year or four years later Robert Marshall the average production per cow. Fred Brown was as stated previously, 8616 lbs When it is realized that all re- 4-H Tractor Club
