Advocates Support Of Quebec Mission

Members of the Acton Baptist Women's Circle attended the annual Spring rally of the Guelph Association, Cheltenham, Thursday, May 5. The speaker for the afternoon was Miss Janet Holmes, missionary on furlough from Bolivia. She told about the importance of cars and trucks in mission-work and how much more effective is their work in Bolivia because of having proper transportation facilities.

The evening speaker was Rev. John Gilmour, pastor of the French speaking Baptist church in Quebec City. He represented the Grande Ligne mission—the Baptist work among French Canadians. He gave a history and present-day description of the work and emphasized the need for Baptists to accept Grande Ligne as a mission field as much as those supported in other countries.

A bounteous salad supper was served by the Cheltenham Circle, during which a discussion of Mission Circle problems was conducted. Those attending from Acton were Mrs. L. Bulmer, Mrs. H. Helwig, Mrs. J. Chapman, and Mrs. R. Charles Landborough and Mrs. R. Costerus.

Plan Acton Rally Of Bible Society

An event of mutual interest to all Protestant churches is planned for later this month in the Baptist church, Acton, when the local branch of the British and Foreign Bible Society will hold a public rally. The District Secretary from Toronto will be in attendance and will show a special sound film.

For 151 years the Bible Society has been translating, printing and supplying the Bible wherever Christian missionaries were active throughout the world. The purpose of this Society of the Reformed Communications of Christendom remains the same as it was 151 years ago: "To place the Scriptures without note or comment within the reach of everyone, at a price he can pay, and in his own language."

Canada alone requires the Bible in 100 different languages. Ontario requires it in at least 45 languages—but in every case the needs of humanity have been, and are being, met by the co-operation of all Protestant churches.

Twenty-four out of every 100 Canadians have telephones.

SILVER-WOOD

History Theme For W.I. Ladies

Historical research was the topic of the Silver-Wood W.I. meeting at the home of Mrs. Ern. Baitkin on Thursday, May 12th. Mrs. H. Marchington, the president, welcomed a new member, Mrs. Wm. Reid.

Extension services were discussed and a survey made. Mrs. K. C. Lindsay and Mrs. W. R. Norton were chosen as delegates with the president and district director, to attend with other members, the district annual to be held in Ashgrove. Arrangements were made to obtain wool for knitted articles to complete the Children's Aid system.

Mrs. George Burt took charge of the meeting; roll call was answered by each member naming a famous person they admire. Mrs. R. Appleyard had current events and Mrs. Lindsay gave an interesting paper on the past history of Esqueping township. This year it had been decided to have a Province of Canada as the subject of a talk or paper, to be given each month at the institute meeting, so Newfoundland was talked about by the secretary Mrs. George Burt read two splendid articles on the history of Stewarstown.

Mrs. Appleyard and Mrs. Norton assisted the hostess at a pleasant social hour. A roll of film was used in taking pictures of all the children, their parents, grandparents and group pictures of all members.

We are happy to hear that Mrs. Ruddle is convalescing comfortably at Beryl Flynn's Rest Home near Acton.

Mrs. and Mrs. H. Marchington will be leaving the immediate vicinity this fall, as they have sold their farm.

Mrs. Geo. Henderson, Sr. is visiting in Guelph at her daughter's home.

PERFORMANCE, NOT PROMISES IS STILL THE PROGRESSIVE CONSERVATIVE MOTTO

These are Performances...

To give producers a voice in product marketing, Ontario now has the most advanced legislation of any province.

For the betterment of rural living, the province makes special grants toward the building of community halls, arenas, skating rinks and swimming pools. 864 projects have been developed under this policy.

To lighten the farm load and brighten farm homes, the province pays half the cost of new rural hydro lines. Over 85% of all farm homes have hydro.

For more profitable returns, the Department of Agriculture, through its Livestock Branch finances a site-testing program; milk-testing service and provides assistance in the eradication of Brucellosis and Warble Fly.

For higher income from dairying, legislation allows producers by collective bargaining to obtain best possible returns. Ontario's fluid milk price formula has maintained price stability.

To increase the productivity of the land, new seed varieties have been introduced and policies adopted providing for a sound land use program.

To open up farm areas in Northern Ontario, the Ontario Department of Agriculture gives special grants toward the clearing and breaking of land; assistance in the purchase of livestock; veterinary aid and farm water supply.

To promote scientific, high-return farming, constant studies are carried out by the Farm Economics Branch, with findings available to all farmers to assist in the lowering of production costs.

Under a farmer Minister, F. S. "Tommy" Thomas, and with farmers like W. A. "Bill" Goodfellow of Northumberland and J. N. "Jim" Allan of Haldimand-Norfolk in the Cabinet, rural Ontario has an important place in the Progressive Conservative program.
