"Enjoy your

"For 58 years I have fished. and for 51 years hunted this boundless recreational Province of Ontario. I am starting my grandson on another half century of it, knowing in my bones that it will last. Ontario's wilderness resources are now in the care of enlightened and imaginative men. Get out and

enjoy your share." Gregory Clark

Gregory Clark whose columns are read by thousands, is a booster for holidaying in Ontario. You'll more than agree with

him if you seek your own vacation

in Ontario this year. What a variety of tempting resort areas to choose from-North, South, West or East. And what a variety of pleasurefishing, boating, lake and beach, museum and shrine, booming industries in city, mine and forest. More than 74,000 miles of paved highway and secondary roads promise comfortable travel. Reminders of Ontario's fascinating history dot the countryside and school-book

history becomes alive in its setting. It's Ontario that has so many multi-varied attractions for you this year. And, accommodation rates are reasonable for a true family holiday.

# PERFORMANCE, NOT PROMISES IS STILL THE PROGRESSIVE CONSERVATIVE MOTTO

Inese are Persormances . . .

To give producers a voice in product marketing, Ontario now has the most advanced legislation of any province.

For the betterment of rural living, the province makes special grants toward the building of community halls, arenas, skating rinks and swimming pools. 864 projects have been developed under this policy.

To lighten the farm load and brighten farm homes, the province pays half the cost of new rural hydro lines. Over 85% of all farm homes have hydro.

For more profitable returns, the Department of Agriculture, through its Livestock Branch finances a sire-testing program; milktesting service and provides assistance in the eradication of Brucellosis and Warble Fly.

> Under a farmer Minister and with farmer Northumberlan

For higher income from dairying, legislation allows producers by collective bargaining to obtain best possible returns. Ontario's fluid milk price formula has maintained price stability.

To increase the productivity of the land, new seed varieties have been introduced and policies adopted providing for a sound land use program.

To open up farm areas in Northern Ontario, the Ontario Department of Agriculture gives special grants toward the clearing and breaking of land; assistance in the puichase of livestock; veterinary aid and farm water supply.

To promote scientific, high ceturn farming, constant studies are carried out by the

Farm Economics Branch, with findings avail able to all farmers to assist in the lowering
