HERE'S WHY Firestone DELUXE CHAMPION TUBELESS TIRES ARE SAFER FROM BLOWOUTS

When the tire is injured, the break in the cord body sets up a pinching action causing the inflated tube to explode.

BUT Firestone SAFETY-LINER REPLACES TUBE

When a body break occurs, a slow leak will result, allowing the driver to come to a safe stop. Or, if tire is slashed, a severe pounding will develop, warning the driver of injury.
