Two Scholarships Bursary For Student

David Cullen of Guelph has been awarded two scholarships to the University of Toronto. He went to public school here when his home was in Acton and friends here will join in extending congratulations.

He has won the J. H. Riddell scholarship and the Robertson scholarship for outstanding scholastic achievement at Guelph Collegiate-Vocational Institute. In the recent Upper School examinations, David was fifth in the school with eight firsts, a second, a third and a credit, with an overall average of 77.63 per cent.

The J. H. Riddell scholarship is awarded for Greek and Latin and the Robertson for Greek.

He will attend Victoria College and receive four years' free tuition as well as \$150 in cash from the J. H. Riddell scholarship and \$100 in cash from the Robertson award.

The letter notifying him of the award was signed by the secretary of the Senate. The letter in the week he received a Dominion Provincial bursary worth \$500 in cash.

Olga Locker Wed Saturday

At a four o'clock ceremony in Acton United church on Saturday, September 10, Rev. Gordon Adams united in marriage Olga Inez Locker of Bower Ave., Acton and Frank Thompson of R.R. 2, Acton. The bride is the daughter of Mr. and Mrs. J. A. Locker and the groom the son of Mr. and Mrs. Jos. Thompson. Pink and white gladioli were placed in the church for the occasion.

Miss Fern Brown played the wedding music.

Given in marriage by her father, the bride wore a ballerina length gown of white nylon. Her headpiece of nylon held her hair in place. She wore a gold locket, the gift of the groom. She carried an orchid on a white ribbon.

Miss Hazel Marie Locker of Brantford, the bride's cousin, was her maid of honor. She wore a ballerina length gown of embossed yellow nylon and carried a bouquet of mauve mums.

Four-year-old Master Paul Dunk acted as ring bearer.

William Thompson, the groom's brother, was groomsmen. Ushers were Ray Thompson, Acton, brother of the groom and Victor Locker, Brantford, cousin of the bride.

Following the ceremony, a reception was held in the Sunday school room of the church. The three-tiered wedding cake centred the bride's table with flowers and candies. The Friendly Circle catered.

For her daughter's marriage, Mrs. Locker wore a navy blue dress with white accessories. Mrs. Thompson also wore white accessories with her blue dress. Both had corsages of pink and white mums.

About 75 guests were present from Brantford, London, Guelph, Cheltenham, Rockwood, Burlington and Georgetown as well as Acton.

The bride and groom left on a motor trip to Ottawa and North Bay. For travelling, Mrs. Thompson wore a blue nylon dress with blue and white accessories and a corsage of white and pink mums. On their return, they will make their home at R.R. 2, Acton.

OBITUARY
Life-Long Member Of Burns Church

—Thomas Binnie, 86, died at the Ingleside and Marguerite Nursing Home, Orangeville on August 23. He was born in Ballinacree on April 2, 1869 and when a small child, moved with his parents, Mr. and Mrs. Thomas Binnie, to the farm now owned by his nephew, Frank Cunningham.

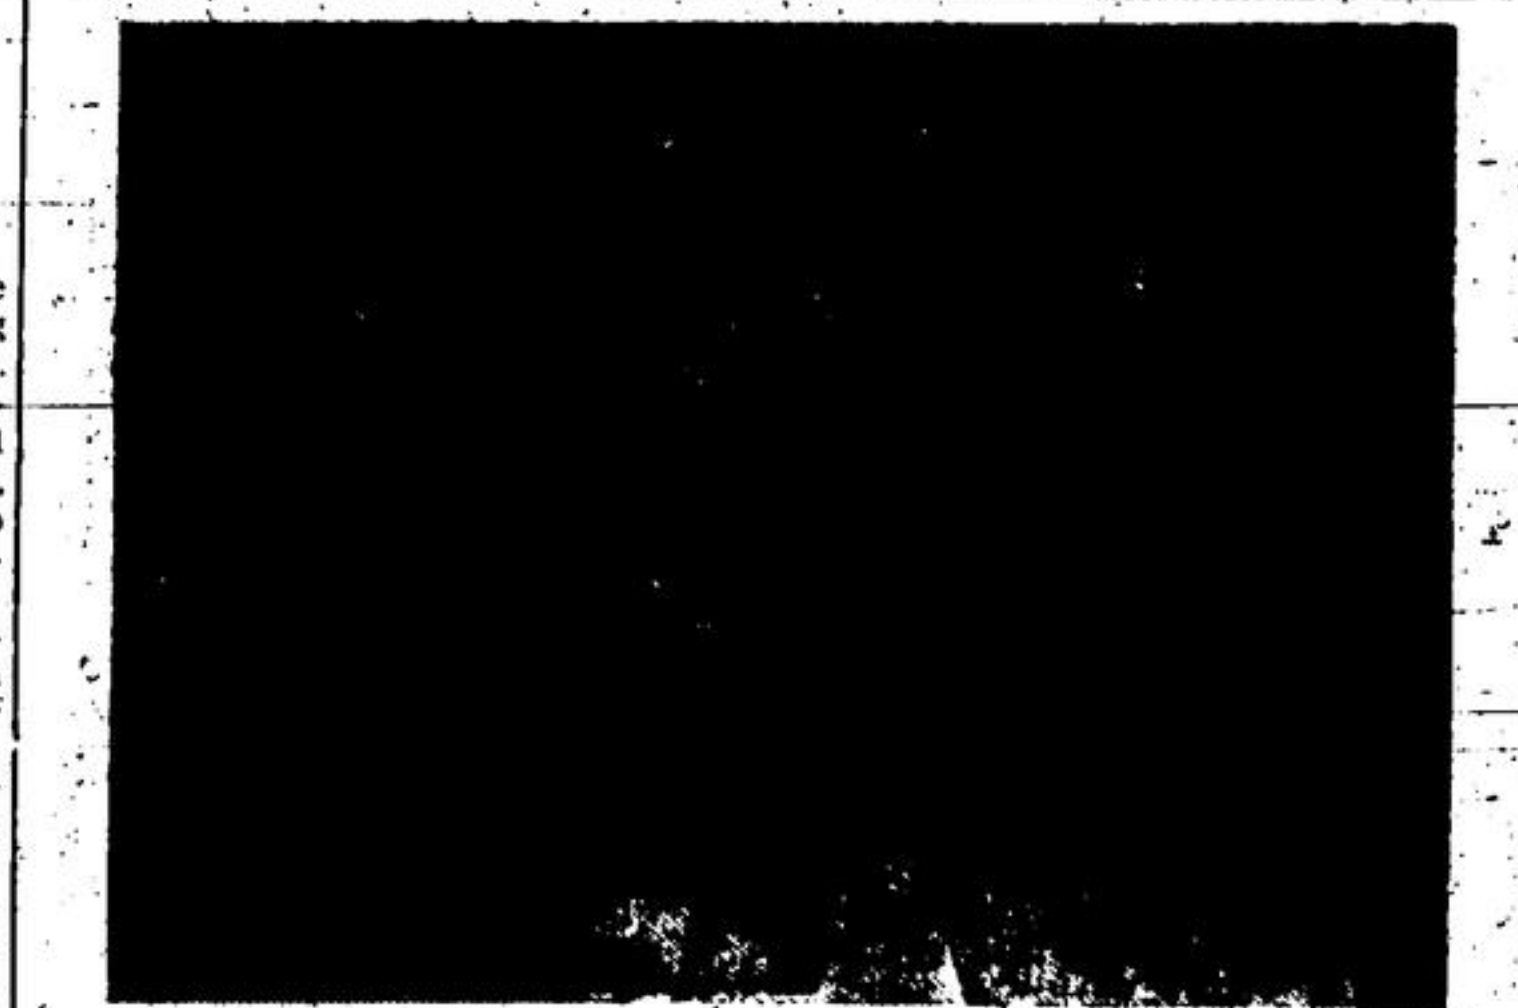

On December 18, 1890, he married Annie Wheeler, who died in 1939. They had nine children, four of whom died in infancy. Surviving are Muriel, Margaret, Walter and George of Erin township and Alexander of Guelph. Six grandchildren and one great grandson and one sister, Mrs. Jean Cunningham, also survive and the brothers, Frank, John and Robert and four sisters, Elizabeth, Janet, Sarah and Mary predeceased him.

A life long and devoted member of Burns' Presbyterian church, Thomas Binnie served on the Board of Managers and session for a number of years.

The funeral was held on August 26 from the family residence to Burns church, where Rev. A. H. Vair of Preston, a former pastor, conducted the service.

The pallbearers were Edgar Bingham, Charles Burt, William Delaney, James Hall, Samuell Nurse and William Tarzwell.

Floral tributes were carried by a granddaughter, Eunice Binnie and three nieces, Ruth, Frances and Grace Cunningham. Interment was in Erin cemetery.

YOU CAN SEE AND FEEL the mountains and valleys on this unique map of all Canada, which will be seen in many schoolrooms and offices this fall. First plastic relief map of Canada ever made, it shows land forms in vivid third dimension, and eight colors indicate land use. 3,000 place names are shown. Map scale is one-inch equals 75 miles. Its size is 45 inches by 49 inches, and it weighs only two pounds. It was published jointly by two affiliated mapping organizations.

Company Solves Noise Problem

Powell River, B.C. (CP)—Noise to deafen other noises has been developed by the Powell River Paper Company to solve one of industry's worst problems.

The siren-like screech of the "couch roll", a large hollow roller used to draw excess water from pulp sheets as they travel to the dryer, has been reduced by super-imposing other noises so that they cancel each other out.

Physicists found that "by changing the way in which air entered the thousands of small holes in the cylinder's surface they could tune certain rows and groups of holes so that the various frequencies deadened one another."

Why I Am Proud To Be Canadian
Topic Of Paper Read To Institute

Mrs. R. R. Corbett gave the following account at the last meeting of Silver-Wood Women's Institute. The members, feeling that more people should enjoy her paper, asked that it be sent to the Free Press.

Why I Am Proud to be a Canadian

We all like beauty and while I haven't been too far afield, I doubt very much if there is a place on earth that can beat Canada for beauty. In these days of cars, we can see plenty of it in fact, I can see a lot of it right from my windows. But in one day we can see Niagara Falls, which is one of the wonders of the world, and two of three of the Great Lakes, which are part of the St. Lawrence Valley and are rightly named the "Great" lakes. Then of course, that great river, the St. Lawrence, that flows from the north to the south and still stay in our own province, we can see some of the biggest mines in the world and of course the Canadian Rockies. Mountains do not even have to take second place to the Alps. And our prairies have been our bread basket for many years although some of us remember quite well when that part of the country was being settled.

I am proud of my Scandinavian ancestry but my father came to Canada as a young man and was one of the pioneers. I like to think that I even shared in some of the pioneer work of this country as we lived in the interior of British Columbia, cleared the land, lived in a log house and our two oldest children were born there. My brother was a homesteader in Alberta.

We can be proud of the way our country is governed. We have usually been quite fortunate in our

leaders and our government. While we like to grouse about them, if they are the wrong party, that is one of the privileges we have in this country. One of the newest things we can be proud of is the way the Salk treatment has been worked out and its apparent success. One thing that so many of our young Canadians do not seem to appreciate is the education available. It seems too bad that there are not more taking advantage of even our high school education. Many of our New Canadians do appreciate and are availing themselves of that advantage.

Canada has made a name for herself in the last two wars that is much to our credit and we are continuing to help lead in world affairs. We have enviable trade relations with other countries, and our industries are increasing every year.

Some of our scientists are among the top scientists of the world; perhaps the one most familiar to us is Dr. Hinton and his co-worker, Dr. Best, who lives so near us. There are many others who have done important work also. Our culture has been slower in developing as we are quite willing to listen to American and English artists, but our theatre is growing by leaps and bounds and we have been considered by our American neighbors, music lovers.

It is nice to think that our Women's Institute organization has been a part in the development of Canada; we are proud that it had its beginning in our province and that it has spread throughout the whole world. We should as individuals as well as part of an organization, continue to improve our country, for we are ALL proud to be Canadians.

Repairs Teeth By Mail Order

New Westminster—B.C. (CP) —Wearers of false teeth in remote areas of British Columbia who break their plates can place them in a mail box and forget their troubles.

Enterprising Dian Matheson of this city has turned her brother's idea into what is believed to be Canada's first mail-order denture-repair shop.

Her brother Roger, a traveller, mentioned to Dian that he had met many persons in his travels who had broken teeth but couldn't take a day or more to travel to get them fixed.

Miss Matheson is a bit afraid that people may not want to send their teeth to a woman for repairs. There aren't any women in the business," she said, "but I'm just as capable as a man."

31ST Annual Storey Reunion Attended By 85 Relatives

The 31st annual Storey reunion took place at Brookville Community Centre with approximately 85 relatives in attendance from Toronto, Woodbridge, Fergus, Thistleton, Acton, Guelph and the surrounding district.

The usual greetings kept the friends entertained till lunch was served in the hall under the capable management of the lunch committee, Mrs. Frank, Mrs. Bowman and Mrs. Mason. The tables were laden with sandwiches, salads, cake and ice. When all had done ample justice to the good things to eat, the gathering assembled outside for a program of sports under the management of the sports committee head, Albert Kitcher.

At the conclusion of the sports, all assembled in the hall again. The president, Dr. H. W. Masor, stated he was glad to see so many present once more. A few minutes of silent prayer were offered in memory of Mrs. Ben Carnochan of Tilbert Plains, Manitoba, who had passed away during the year. Secretary-treasurer Mr. Grant Allan gave her report.

The nominating committee composed of Robert Brownlee, Robert Black and D. H. Storey, brought in the following slate of officers for next year: president, Alex Black; vice-president, Melvin Storey; secretary-treasurer, Mrs. Grant Allan. The usual committees were named. A prize was given to the oldest present, Thomas Storey of Acton and a prize for the youngest, little Carol Bowman, of Guelph.

Andy Frank was chosen chairman for the musical program which followed, including a piano solo by Bonnie Woods; violin selection by Andy Frank and daughter Joan; piano solo, Glen Brownlee; magician Dr. H. Masor; piano solo, Beverly Woods; vocal solos, Dorothy Anne and Karen O'Rourke; piano selection, Warren Brownlee; violin selection by Mrs. George Brownlee; violin duet, Andy Frank and Mrs. George Brownlee; selection by MacLeod's orchestra; violin selection, Thomas A. Storey, accompanied by Andy Frank.

The musical program was followed by dancing for which the music was provided by MacLeod's orchestra.

Tablet Honors Ontario Artist

A tablet honoring the memory of Homer Watson, the great Ontario landscape painter, was unveiled at the former Watson home at Doon, seven miles south-east of Kitchener on Saturday, September 10. This tablet was erected by the Historic Sites Division of the Department of Northern Affairs and National Resources, honoring the recommendation of the Historic Sites and Monuments Boards.

Mr. Watson, who spent most of his life at Doon until his death in 1936, gained international recognition for his paintings of Ontario rural and pioneer life. He was the Canadian Art Club's first president and was a fellow and for four years the president of the Royal Canadian Academy of Art. His home is now the Doon School of Fine Arts.

The unveiling of the tablet coincided with the opening of an exhibition of paintings by students from the Doon School of Fine Arts, R. M. Myers, M.P. for Waterloo South; unveiled the tablet, and Clare Bice, curator of the London, Ontario Art Gallery, spoke. Chairman of the program was F. Page, president of the Waterloo County Historical Society and a close friend of the late Mr. Watson.

BOOMING ALBERTA

Geological statistics, population figures and splendid prophecies pour from the lips of the Alberta booster, writes Bruce Hutchison in the Financial Post, like oil from a high-pressure well.—Edmonton will double in size by 1970 and contain half a million people; it already buys more automobiles per capita than Los Angeles; 60 per cent. of its people own their own homes; and in due time, as wisely arranged by the Almighty, this will be the industrial centre of the nation.

To secure one gallon of maple syrup it takes 87 gallons of sap containing one per cent. sugar. In 1954, Canada produced 213 million pounds of maple sugar.
