Sequel to Argument On Water Use Between Glenlea Subdivider, P.U.C.

A sequel to last month's P.U.C. argument with the Glenlea subdivider was added to the regular session last Thursday when members, confirming that at no time was water unavailable to the buildings from town hydrants, rescinded the previous motion which would equalize two water consumption billings to householders involved in the dispute.

The Commission, contending that the differences would have to be resolved by the subdivider and the commission, passed a resolution that the motion passed at the last meeting be rescinded in its entirety and Thomas and Thomas and the householders affected be notified that the consumption will have to be paid for at the regular billing rates. This action, the motion added, is due to information received.

Reportedly six consumers involved complained of high consumption. Water was apparently being consumed for other than household use with the residents' knowledge.

Work on an agreement that on the point with other information received, the commission ruled the consumers and the sub-

dividers would have to work out an agreement.

It was noted at the beginning of the meeting that a copy has been sent to the Beardmore Co. of the letter of agreement for water rebate made by the commission on a previous year's consumption.

The secretary said that the billings had been notified of the leaking roof at the disposal plant.

Following a letter of resignation from K. McPhail, hydro employee, it was learned the commission has advertised for an experienced line man. Mr. McPhail, who recently was burned in a line mishap at the park, said he regretted severing connection with the commission and his fellow employees.

The commission accepted a job quotation of \$855 from J. H. Mackenzie and Sons Ltd. to build an extension to the hydro shed. This extension is to house the lift-ladder truck.

Hydro superintendent D. Mason was authorized to purchase a used post hole digger from the Bell Telephone Co. for \$250 in view of the

County Rescinds Motion to Set Up Fact-Finding Committee on North Halton High School Area

Acton and Twps. Lead Resolution To Crush Comm.

After a heated discussion, in which charges were hurled at various municipalities, Halton county council by a 12 to 4 vote rescinded an October resolution to set up a fact finding committee to review the North Halton High School Area.

The discussion was sparked when resolutions were tabled from Acton, Nassagaweya and Esquesing opposing the establishment of such a committee. Reeve A. R. Service and Deputy-Reeve Walter Lusham sponsored the motion to rescind the resolution.

Warden H. H. Shannon explained various parts of the school act, emphasizing the matter rested with county council and that whatever the findings of the committee would be, it was still up to the municipalities and county council to make the final decision.

Reeve Stanley Allen, Georgetown, pointed out that while his municipality had requested such a committee be established, it was not the intention to split the area "but we are interested to know the facts."

Georgetown Reeve For

"If these councils who are opposed have a wish to have a fact finding committee, it should not be held here at this council meeting," Reeve Allen explained. "We should be happy to know all the facts, but there seems to be some doubt as to how we can get the best way to learn of the facts. I don't want to see an area changed if it is going to create a hardship on any municipality, but I urge council to establish this board," he said.

Reeve A. R. Service said his all was started to establish three school areas in the northern part of the county. "I don't think any change should be made when the three opposing municipalities are paying well over 50 per cent of the present cost," he said.

"I don't think this request, coming from the northern part of the county, but the Urban Board arising out of the request of the Milton Public School Board, who were anxious to purchase the Milton High School for public school purposes," Reeve Service charged.

Reeve Walter Bird, Esquesing, read an invitation received from the Milton Public School Board to attend a meeting which Esquesing members declined to attend. It was called to discuss the sale of the school which Esquesing was opposed to.

"We had no idea something else was to be discussed. They wanted to sell the school for \$65,000 and it is insured for \$250,000 and that is not good business," the reeve said.

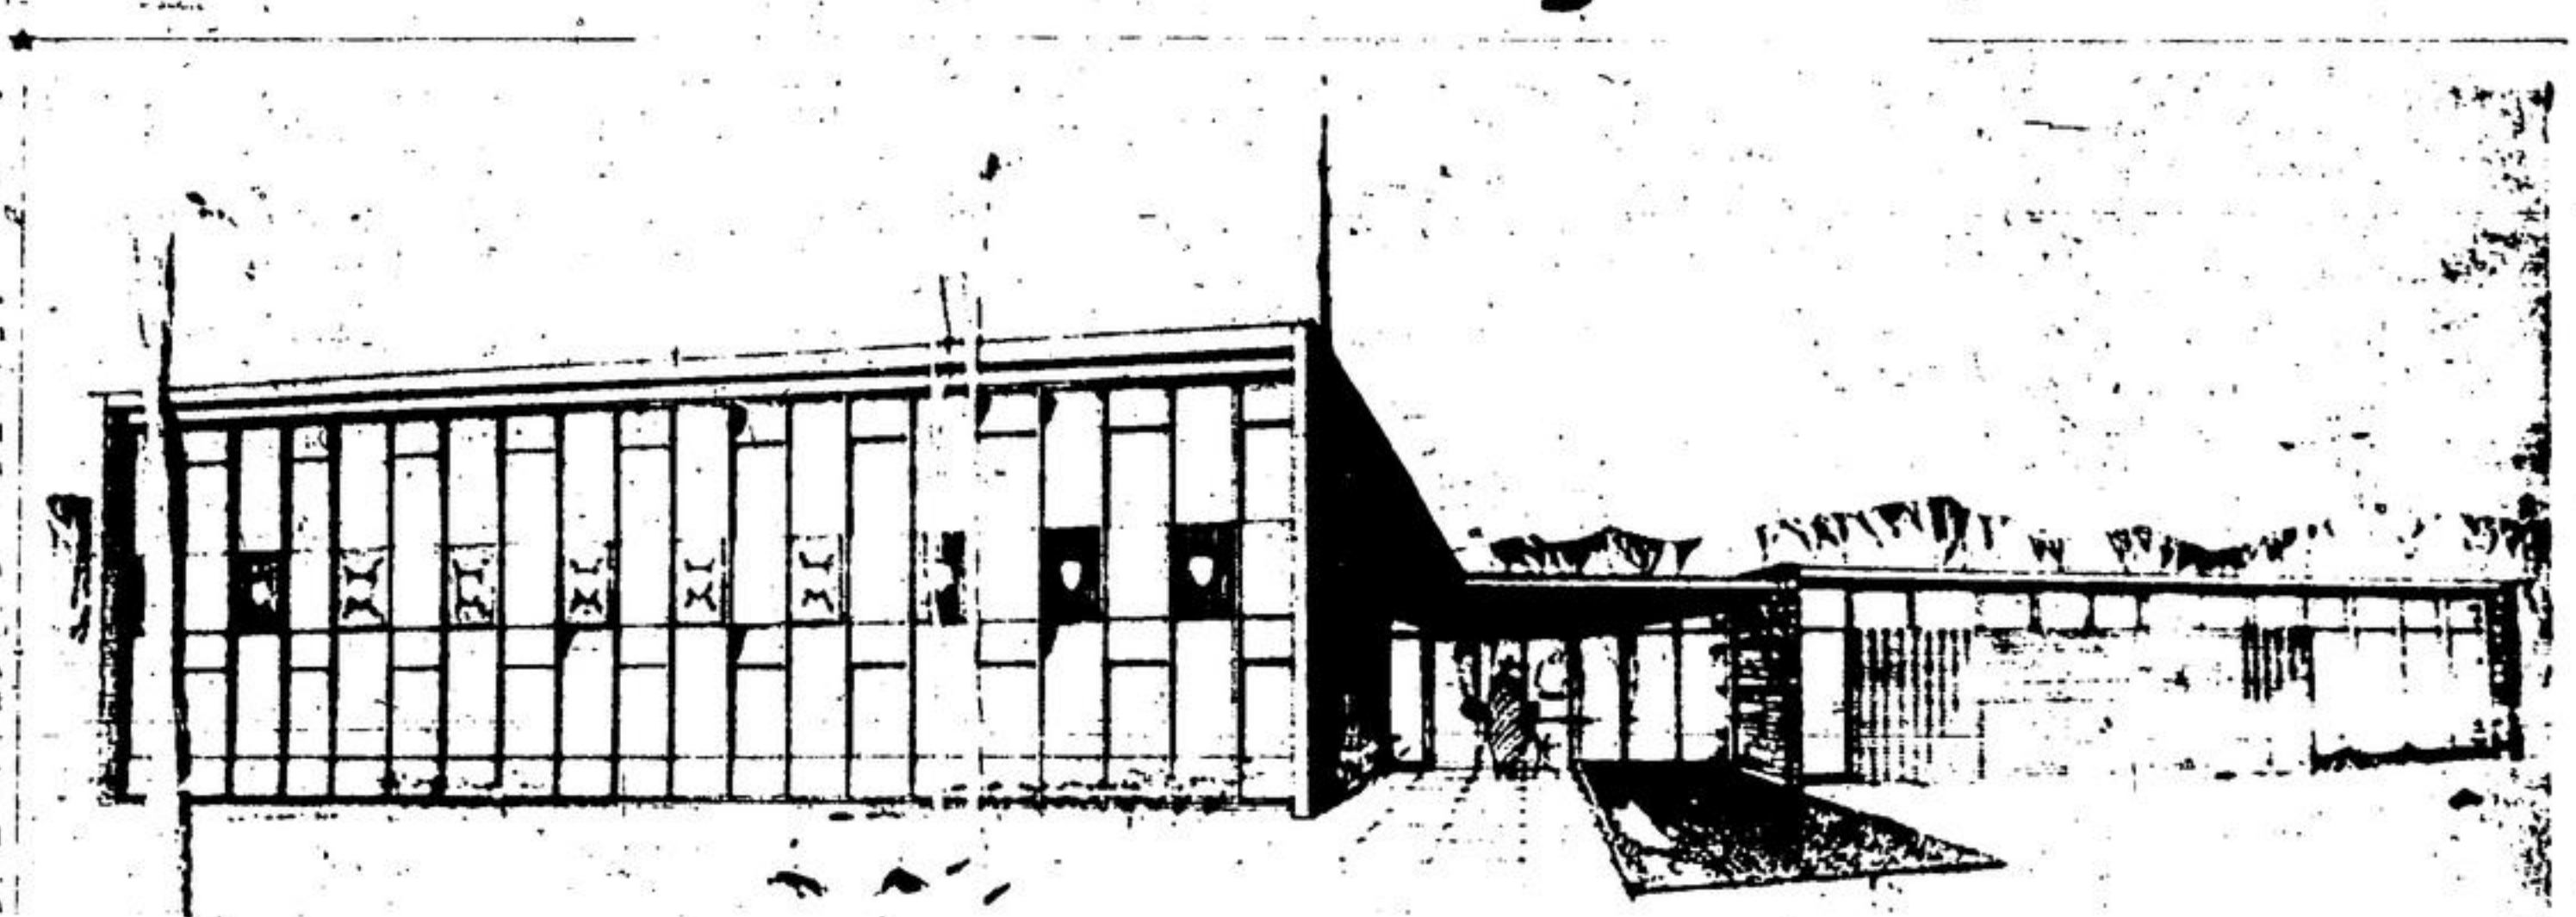

Milton Reeve Speaks For

Reeve C. A. Martin, Milton, inspected the committee's understanding how the opposing municipalities know all the facts, even if it is working satisfactorily. This area was set up 10 or 12 years ago and was an experiment, with the thought of building a school at Speyside. Now it would appear reasonable to review the situation to see if there was a better way to economically serve the educational need in the northern area. The only way we will find this out is to form this committee."

During discussion, members from the southern area felt the board's jurisdiction should include the whole of the county. Others felt it should be held over until another meeting until all school boards and councils were informed of council's deliberations on the high school question.

Reeve Martin further explained

PROPOSED CIVIC CENTRE, shown here in an architect's sketch, will be put to the ratepayers election day, December 5, for a yes or no ballot mark. Estimate on the building is \$130,000, but the question will be asked on basis of \$200,000 to allow for contingencies and purchase of new land. Fire hall is behind the administration building at left, while at right is the proposed library. Estimate and tentative plans were made by Deacon and Arnett of Toronto.

New Christian Education Room Dedicated at 99th Anniversary

Eden Mills United Church celebrated its 99th anniversary on Sunday, November 6, with services in the morning and evening. The new Christian Education Room was dedicated in the evening.

The speaker for the morning service was Mr. Bennett Roy Ernest E. Hasker of Dublin Street United Church, Guelph, and chairman of the Church Presbytery of the United Church of Canada, officiated at the dedication ceremony and delivered the sermon in the evening.

"It is a great tragedy," he said, "to lose your past." He brought with him greetings from the Guelph Presbytery to the congregation in Eden Mills. He drew attention to the excellent work of the pastor and his wife, Mr. and Mrs. William Stimm. "The Presbytery were aware of their sincere efforts in the community," he said.

The Hillsburgh Quartet sang at the morning service and in the evening. Ebenezer United Church choir supplied the music with a special song by Mrs. John McIntosh and Mrs. William Stimm. "How Lovely Are Thy Dwellings."

The neat stone building that will soon be 100 years old has been redecorated in the interior with pastel colors that are pleasing to the eye. The Christian Education Room is attractive and equipped with a kitchenette as well.

2000 Copies

This week the Free Press hit the largest circulation mark in history.

Free run for this issue is 2,000. This includes regular circulation and special mailing list copies.

Deer Runs Into Car, Is Killed

Robert Blake, Guelph, got a surprise while driving south on No. 25 highway near Speyside Saturday. A 300 pound buck ran into the side of his car, causing \$150 damage to the car and killing the deer.

A car driven by Earl McCoy, Milton, crashed into the guardrails on the 25 highway, one mile north of Milton Sunday morning, causing an estimated \$800 damage to his car. Mr. McCoy who works in Acton, tried to police that the right front tire on the car went flat as he headed toward Milton. When he applied the brakes he was drawn into the guardrails, he said. Eight guardrails were knocked out by the impact.

Falling asleep at the wheel resulted in a careless driving charge for Alexander Gray, Toronto, when he reportedly fell asleep and crashed into a hydro pole on No. 7 highway, two miles east of Acton, last Saturday.

Expect Natural Gas In South By End of Year

Natural gas will be available to domestic and industrial users in Oakville, Bronte and southern Trafalgar township by the end of December, T. P. Papekard, general manager of United Suburban Gas Co. Ltd. announced this week at a special meeting of industrialists, merchants and representatives of the three municipalities.

Mr. Papekard said over the past few months negotiations had been carried on between Niagara Gas Transmission Ltd. and his company in an effort to obtain a supply of natural gas for this area. The contract has now been completed and United Gas Co. is preparing to begin construction of an eight-inch pipeline from Hamilton to Oakville immediately. Other high pressure lines will be laid to give a direct service to the industrial area of the county and provide a complete loop around the extreme of the residential area, he said. Oakville has been serviced with manufactured gas from Hamilton since 1929.

Council, Townships Fear N.H.H.S.D. Bd. May Break Up If Committee Formed

Three of the five member municipalities of the North Halton High School District Board, Acton, Esquesing and Nassagaweya, united Monday evening in opposition to the proposed formation of a consultative committee which could, it was feared, be the forerunner of the District Board's breakup.

Meeting with Acton council which has previously stated its opposition to a consultative committee, representatives of the two northern townships joined their opposition to a county council formed committee.

At the last session of county council Georgetown endorsed by Milton sponsored a motion to have the committee formed to prepare facts and figures which would reflect on the desirability of retaining the board. The motion carried but not without vocal opposition from Acton, Esquesing and Nassagaweya representatives.

All Three Opposed

Presumably Milton and Georgetown would separate high school districts set up.

Monday night, prior to Tuesday's November county council session, the three northern municipalities agreed to present motions opposing the formation of the consultative committee. It was emphasized that only county council members, all of whom vote on the matter, should be invited to present their point of view. Mr. Bird insisted reading a letter to prove his point had been called to discuss sale of the Milton high school building to the Milton Public School.

UNICEF Total Rises Heavy With Coppers

The committee directing the project for the United Nations Children's Fund at Hallowe'en has announced a further increase in their total this week. With other donations coming in since Hallowe'en, the amount that will be forwarded to headquarters in Ottawa now stands at \$33.86. This includes 44 rolls of coppers heavily giving.

Church Canvass Aim \$75,000

Acton United church has embarked upon an extensive "every family canvass" for a building fund. Mansell Nellis as general chairman expressed confidence that the stated goal of \$75,000 would be exceeded early in the campaign.

H. R. Force, W. J. Beatty, G. W. McKenzie, W. Woodburn, and G. W. Beatty are the executive committee helping to plan the canvass.

One of the highlights of the intensive campaign will be a Loyalty Dinner to which every member family has been invited. Mrs. A. Long, Mrs. R. Bos, Mr. F. Cleave and Mrs. H. Burns are in charge of arrangements.

A canvass office has been opened on Mill St. and R. F. Bear, heading a committee responsible for distribution of information about the canvass plan.

Population, Building Soar As Subdivisions Open Up

Acton's population was announced this week as 3,337.

The increase, more than 300 over the figure at this time last year, is due mainly to residence in new homes at the Glenlea subdivision where about 55 houses are occupied.

Even as this population figure is published, it is likely out of date as new residents are moving in almost daily at Glenlea.

Building in town during October shot skyward again after a slide to \$16,000 in September. Last month 29 permits were issued to the Lakeview subdivision contractors for house building valued at \$290,000.

To October 31, 1955, business in Acton totals \$1,703,150. By the end of the year, construction may pass the two million mark to record the greatest building growth year in Acton's history.

St. Alban's Guild Names Committee

The November meeting of St. Alban's Guild was held in the Parish Hall with 33 members present and Mrs. Lil Cook presiding. The secretary and treasurer's reports were read and a short business meeting followed. Final arrangements for the bazaar were made.

It was decided to hold the election of officers at the December meeting and a nominating committee was chosen consisting of Millie Rowles, Alice Newton and Eileen Taylor.

The meeting closed with the Mizpah benediction and lunch was served by the committee in charge.

Henry Hosking Tells of Trip

Henry Hosking, Wellington member of parliament showed pictures of his trip to Europe at the regular meeting of the Lakeside chapter O.D.E. in the Legion Hall on Tuesday evening. His show included Scotland, Germany and France, included some of war damage. Mr. Hosking commented upon the pictures and on the people of different countries. He was introduced by Mrs. Wallace and thanked by Mrs. E. Smith. Mrs. Hosking was presented with a bouquet of flowers and Mr. Hosking with a notebook.

Charles Lindsborough, accompanied on the piano by his daughter, played cornet solos.

The presentation of a hostess table was made to Mrs. Pat Waidie on behalf of the chapter by Mrs. C. Lushman.

During the business session reports from bazaar convengers were given and final plans were made for the annual event to be held later this month. Refreshments concluded the meeting.

Two Land Development Problems

Before council dealt with the matter, two deputations appeared both regarding land development problems, but with two extremely different approaches.

Tom Brankiewicz questioned the town unloading pipe on the property held by him, that under court procedure for expropriation, and also objected to the path of the proposed road into the Lakeview subdivision.

Mayor Tyler charged that "you've just reneged when you agreed to that route once."

Mr. Brankiewicz explained the roadway should go in straight line by the present stakes.

The Mayor said the matter before the courts and that Tom should take his objections to his lawyer. Mr. Brankiewicz declared he wouldn't go to his lawyer and shouted that the town would have to shoot him before he'd allow that road to go through. He left without shouting.

The other deputation included E. Branda with solicitor C. F. Leath, and Mr. Couker of the Sun

Tell Responsibility Of Church Members

The Daughters of Knox held their regular monthly meeting in the Sunday school room on Monday with the president, Mrs. Cliff Ashley.

The worship period was taken by Mrs. Bern Van Fleet's group, the theme being to emphasize the responsibility of church membership.

The secretary's, treasurer's and group leaders' annual reports were given. Mrs. A. Robinson Jr. and Miss Inez McLellan sang a duet accompanied by Mrs. Fyfe-Somerville.

Nucleus of Town Group

The Acton Ratepayers' Association, its nucleus composed of Glenlea subdivision householders, was formed last week at a meeting of citizens in the town hall where over 40 men and women gathered to adopt guiding rules, outline purpose and hear Mayor E. Tyler clarify questions on municipal works and expenditure.

The Association, to be subtitled "Glenlea Division," has Walter Cook as its first president and A. Ives as vice-president. Ronald Hillier is secretary-treasurer. Street wardens are yet to be named.

Formed to primarily keep abreast of municipal affairs as they affect regional and community-wide interests, the chairman emphasized the importance of organization among ratepayers for representation and protection. He expressed surprise that Acton has not already had a ratepayers' association.

Mr. Cook stressed that although the Association was born in Glenlea, where most residents are new-

Glenlea Residents Form Ratepayers' Assoc.

The Mayor congratulated the citizens present and those responsible for the organization of the association which he termed would be an asset to the community and of real value to its members.

Turning to municipal matters, the Mayor touched on difficulties now being borne by Glenlea residents due to the unsettled state of the roads. Roadwork would be settled as soon as service installations are completed, he indicated. He also referred to the present council's policy of gradual permanent paving, "an expensive business" which has been undertaken and will take time.

Questioned regarding the method of assessment, the Mayor explained that the assessor here operates under manuals followed by the county Municipal Affairs. The town has no control over the assessor, he added, but noted that the ratepayer or the council has the right to appeal.

Rebates, Drainage and Planning

At the outset of Monday night's meeting, Clerk J. McGeachie told council of the P.U.C.'s letter to the Beardmore Co. Ltd. regarding rebate on the water bill for 1955. It was pointed out in the original letter that this agreement, held for 1955 only. However, council also learned that the Company would like the rebate reconsidered for this year. No action was taken.

A rebate of \$62 representing paid 1956 license fee, was sought by Kenny's Billiards, which is going out of business. The town directed that the \$52, instead of being retained, be credited to unpaid business tax for 1955.

W. Cook, president of the Acton Ratepayers' Association (Glenlea Division), introduced the officers of the Association. To a question he was told that new town by-laws

Rebates, Drainage and Planning

cover the Glenlea subdivision in its entirety.

Mrs. W. Roberts asked council if the town would clean the drainage tile under their house on Main St. N. when the basement floor is opened. Drainage trouble under this house, which borders the creek, was reviewed and it was pointed out the town would do everything possible to see the outlet of this tile is cleaned.

Council filed a letter from the Duke of Devonshire chapter of the I.O.D.E. here thinking for co-operation received in connection with the chapter's tag selling on Acton Fair day.

Clerk McGeachie reported to council on the proceedings of discovery, which he was a witness.
