Treasure In Home, Library Are Topics

Bannockburn Women's Institute November meeting was held in Bannockburn school with 13 members and three guests present. Roll call was answered by giving a current event.

It was decided to have the annual Christmas party. Instead of a penny sale, it was decided to buy a turkey and sell tickets on it. Mrs. Ballentine gave a very entertaining reading on historical events.

Miss Esther Taylor gave an interesting talk on pressure in your home and town and some information on the local library.

Mrs. Dick and Mrs. Hopkins are to be in charge of the November euchre. The meeting adjourned with the Queen.

Lunch was served by Mrs. Matthews Mrs. J. Fox and Mrs. C. Storey.

Feel Farm Fires Too Prevalent

Fires on Ontario farms are all too prevalent and there is much that can be done to both prevent fires and control them after they start. This seemed to be the feeling of most of the 372 Ontario farmers who reported on the November 7 topic of Fire on the Farm.

For their first question, the forums were asked how many farm fires had occurred within a 10 mile radius in the past year. Over three-quarters of the groups reported three or more fires—a rather striking figure.

Then they took a look at things they could do to prevent fires. Again three-quarters of them felt that the use of electric wiring equipment was a must. Next on the list was regular care and cleaning of chimneys and heating equipment, along with care in smoking and handling of matches. Installation and care of lightning rods, care in handling of kerosene, and general good house-keeping were all mentioned by over 40 per cent of the forums.

On the farm, they agreed there were things they could do to control fire if it did start. Right at the top of the list was to have proper fire extinguishers available in convenient places. Then about 60 per cent emphasized the need for a good, handy supply of water. A quarter of the forums felt keeping ladders in a handy place was a must. Larston in Gray, just all these and add "Have a telephone in good working order." When it came to a question of what a neighborhood could do to organize for fire fighting, it was interesting to find that one-quarter of the forums lived in communities which already had arrangements for a fire truck from the neighboring town. These were usually quite satisfied with the arrangement.

Dinner In Honor Of Tom Hayes At Winter Fair

Recognition of Tom Hayes, Oakville, as the spark plug who made possible exhibits of Holstein cattle at the International Dairy Show over the past four years was made at a dinner held in his honor during the Royal Winter Fair in Toronto. Tom was presented with a TV set by the exhibitors of Holsteins at the International Dairy Shows at Chicago and Indianapolis.

W. P. Watson, Ontario Livestock Commissioner, said, "If we are to have the world recognize the fine quality of our cattle, we must make their excellence known. Winning at such shows as the International is one of the surest methods of doing this. Credit for the highly successful Canadian exhibit goes to Tom Hayes, for without his enthusiasm and leadership, it is very doubtful if there would have been an exhibit."

"The Holstein breed as a whole has benefited greatly from the efforts of Tom Hayes, not only in his sponsorship of the International exhibit, but through his seeking out of new markets for our cattle," said Fred M. Snyder, Waterloo, president of the Holstein-Friesian Association of Canada.

Guillermo Bullrich, Buenos Aires, praised Tom Hayes for the quality of the Holsteins that he has sent in the past ten years to Argentina. Said he, "These cattle have been the best ambassadors that any country could have."

Tom Hayes, in accepting the gift, paid tribute to the co-operation of the Canadian breeders which had made the exhibits possible. In particular, he mentioned Dr. Hector I. Astonga, whose Roscoe Farm herd from Brampton has provided the nucleus around which the exhibits have been built.

J. D. Innes, Woodstock, Ont., past president of the Holstein-Friesian Association of Canada, was chairman.

Five times as many Canadians live in towns and cities as live on the farms.

Charlotte Whitton's Talk Read At W.I.

Greenock Women's Institute met at the home of Mrs. Angus Thompson on Wednesday evening, November 9, with 21 in attendance. The president, Mrs. E. Patterson, opened the meeting with the Institute Ode and Mary Stewart Collected Scripture was read by Mrs. C. Allan, a poem, Remembrance, was read by Mrs. Patterson and the Lord's Prayer was repeated in unison.

Roll call was answered by a temperance verse from the Bible. The minutes and treasurer's report were read by Mrs. E. Johnston and business was discussed. Mrs. C.
