WHY A BOARD OF PARKS MANAGEMENT???

For the past five years, Prospect Park has suffered from the effects of vandalism. You will readily agree that three councillors, putting forth their best efforts cannot hope to win the destruction. To our police are handicapped in that the type of thing does not happen when they are present.

Therefore at the request of some of the organizations in town, Council has given the second reading to a by-law to form a Board of Park Management.

The Board will function as an commission under an Act, have complete control over the Park and the interest of the general public will be the foremost in mind. The formation of the Board may be left to the discretion of Acton people.
