

WOMEN'S INSTITUTE TOURS again take members to Southern Ontario points of interest from here. Last week, two groups, Acton W.I. and Dublin W.I. left from the post office corner in two buses for their annual spring jaunt. The Acton group visited the Ford

plant at Oakville, a canning factory and the Hamilton Botanical Gardens. The Dublin group visited Welland and St. Catharines, touching several points of interest in this area. Thirty-six members were in the Acton group, lower photo, 38 in the Dublin group, top.

History to Shopping Highlight Dublin W.I. Annual Bus Tour

Tuesday morning, June 12, Dublin Women's Institute ladies and a few friends, numbering in all 37, left on their annual day's outing by bus from the Acton post office. Travelling down provincial highway No. 25, along the Queen Elizabeth highway by way of Burlington Beach, the bus went along No. 8 highway to the village of Jordan. Here is located the Jordan Historical Museum which was established by the people of the community and Jordan Wines Ltd., and was officially opened for visitors in the year 1953. A tour of this building was of great interest to the ladies, where all kinds of legal documents, kitchen utensils, furniture, guns, bayonets, tools, books, clothing, spinning wheels, looms and a great many other articles used by the pioneers, were on display. The building is a two-story brick and is kept in a very orderly and immaculate condition and upon checking over the register, the names of visitors from many different points were noted. The custodian in charge very graciously accompanied the visitors and explained the history of the various articles.

—then if ever come perfect days. Ross Moyer, the bus driver, again accompanied the ladies, as he has on previous outings and his careful driving was appreciated by everyone.

Supper, Ceremony End I.O.D.E. Season

A delicious "pot luck" supper was served when the Lakeside chapter I.O.D.E. held its last meeting of the season last week. Although the evening was hot, the air conditioning in the Legion made the setting for the meal and meeting most comfortable. During the evening, three new members joined the chapter in a brief but impressive ceremony.

Y Outdoor Program Registration Good

Five teams of 12 boys each are allowed a schedule of games in the Y.M.C.A. outdoor program this month. Registration is also good in the other classes, with 28 learning archery and 25 playing volleyball and deck tennis. Badminton has not begun yet.

Following the lunch, the bus wended its way through St. Catharines and on to Welland. There the ladies toured the factory of Dominion Fabrics, which was most interesting. About two hours was allowed for the ladies to shop in the stores in Welland, after which the bus went on its way to Chippewa park, a beautiful well-kept park and a bounteous supper was prepared at the picnic tables. On the return trip, a stop was made at a point nine miles west of Welland where a bronze plaque was placed on the foundation of an old house marking the spot where Laura Secord brought the news to Colonel Fitzgibbon that the American rebels were coming. A short distance further on the beautiful DeCeu Falls were visited. A short distance from St. Catharines the ladies were shown the docks, which were very interesting as four boats passed through the canal during the stay of an hour or so. Homeward bound, the bus arrived back in Acton about 10:30 p.m. with a tired but happy load. The day had been a warm sunny day, the scenery unexcelled, and one recalled the poet's rousing "What is so rare as a day in June"

Clothing, Dry Milk To be Sent to Korea

The Women's Missionary Society of the United Church met at the home of Mrs. Gordon Johnson, R.R. 4, Acton, with the president, Miss M. Z. Bennett, presiding. The meeting opened with prayer. The worship service was taken by Mrs. R. R. Arnold and her group. The theme was Life is a trust that tests us. Scripture reading was given by Miss Fern Brown, Mrs. L. Agar and Mrs. Hannah. Literature secretary, Miss Mainprize, baby band, Miss Henderson and Christian stewardship Mrs. A. Orr and Mrs. Shoemaker, reported. Community friendship, Mrs. F. Cleave, had made several calls on sick and shut-ins.

Lunch was planned for the Mission Band picnic to be held at the home of Mrs. Ironside.

Sympathy was extended to Mrs. Morrow and Sylvia. The W.M.S. was sorry to say goodbye to Mrs. Bean, who is leaving for her new home in Toronto. Mrs. Perchon was welcomed.

Persons having articles of clothing for Korea were asked to have them in church by Sunday as transportation has been arranged to Toronto, where the articles will be repacked for shipment to their destination. A very generous offering was taken for purchase of dry milk for Korea.

Refreshments were served by Mrs. Arnold and her group. A vote of thanks was given to Mrs. Johnson for her home and the look at her lovely paintings, and to all her helpers.

Of all Canadians with jobs, one out of five are trades union members.

More Coffee?

Brazil has been testing portable aluminum irrigation systems to increase the coffee crop. Results are startling: yield per tree is more than doubled. Even if applied only to half of Brazil's coffee crop, production would be increased by 3,700,000 bags!

Our own Canadian farmers have found endless ways to use Canadian aluminum: Piping for orchards, field crops and stock... foil for mulching... roofing and siding for barns, brooders and silos... cans and pails for dairy farms.

Canadian output of primary aluminum is being further increased to supply the makers of these and a thousand other products useful in agriculture, industry, defence and the home. ALUMINUM COMPANY OF CANADA, LTD. (ALCAN)

ULTRASONIC DRILL

The ultrasonic drill disproves the old belief that cutting tools must be harder than the material being cut. This drill pierces the hardest substance by vibrating back and forth 20,000 times a second. An ordinary kitchen knife, mounted on an ultrasonic drill, will go through a steel bar, and a corkscrew used as a vibrating tip will bore a twisting tunnel through a block of glass.

For all your banking...

Did you ever stop to consider all the things a chartered bank can do for you?

It is more than a convenient place to make a deposit, cash a cheque or see about a loan. You can also buy travellers' cheques and money orders; rent a safety deposit box; purchase foreign currency; talk over your financial plans or problems. The list goes on and on... and all these services are available at the branch where you do your banking.

A branch bank is, in effect, a service centre and everyone on the staff is there to help you, to look after all your banking courteously, confidentially and well.
