Group Hears Report
On General Assembly

(intended for last week)
Mrs. C. Evans was hostess to the Ladies Aid for the June meeting recently. Mrs. Crawford opened the meeting with an article written by Dr. Schweitzer. Mrs. J. R. McPhail read the scripture lesson found in the fourth chapter of John. Reports were received from the various secretaries. A committee was appointed to arrange for flowers for the month of July.

Several ladies offered to help with the lunch for the Daily Vacation Bible School which begins July 9 in the Sunday school room. Some other items of business were discussed, after which there was a short program.

Mrs. James Wallace gave a recitation, Christopher Robin Saying His Prayers. Mrs. Baulch gave a very fine address with notes taken from the 22nd General Assembly of the Presbyterian church, dwelling chiefly on devotions and the important place they play in our own life and the work of the church. It was stressed that prayers are so often lacking in fervor. It would mean so much if, when offering prayer, we could just speak from our hearts even in halting and humble language. There would then be real joy.

The offering was received and dedicated with the Doxology. The meeting was closed with prayer by Mrs. Easley. A social half hour was enjoyed.

Blair Auxiliary Meets
Mrs. Donald Martin was hostess to the Blair Evening Auxiliary on Thursday evening. Mrs. Hamblly opened the meeting with a short poem. The devotions were in charge of Mrs. W. Watson, who led in the reading of Matthew, 25th chapter, and prayer by Mrs. J. W. Robertson.

Mrs. Wm. Mahon had charge of the study period taken from the study book, They Reach for Life. The theme was Scenes Along the Jericho Road. Those assisting were Mrs. T. Watson, Mrs. J. Bayton, Mrs. Dewhurst, Mrs. Webb, Mrs. R. Mahon, Mrs. Ramshaw, and Mrs. Andrews. It was pointed out that many of these refugees, although they were suffering privations themselves, were able to help others who were worse off. The question was asked, Are we really good Samaritans on the Jericho Road or are we, as the churchmen of long ago, often passing by on the other side?

Mrs. Inglis gave the financial report. In the absence of the secretary, Mrs. Dewhurst, assistant secretary, gave the minutes of the previous meeting. Mrs. S. Cramp gave the cheer report. Mrs. Martin reported six boxes of cards sent to Formosa. 17 ladies answered the roll call using the word, Goodness. Mrs. Fanny Linn gave the good thought, Once Again I Pass This Way. This poem was truly a good thought on consecration.

The meeting was closed with prayer by Mrs. Webb. The birthday song was sung for five members. A pleasant half hour was enjoyed over a cup of tea.

Iodine stains can be removed by rubbing with kerosene and naphtha soap. Let stand for 20 minutes then wash with more naphtha soap. It is well to remember that the longer you leave a stain in, the harder it is to remove.

Industrial Health
Plan Instigated
By Dr. Duff Wilson

Kitchener health officials have been hailing as a success the industrial health services project designed to determine whether small manufacturing firms can maintain and benefit by setting up their own health centres for employees. The project has been carried on for over two years.

The plan originated as the result of a proposal of Dr. G. E. Duff Wilson, Medical Officer of Health for Kitchener, that a full-time nurse be hired to provide industrial nursing services to a group of small firms there.

Dr. Wilson was born in Acton, the son of the late Rev. J. C. Wilson and Mrs. Wilson. His father was the minister of Knox Presbyterian church 50 years ago.

His plan was discovered to have cut absenteeism and built morale as well as improved general health in the participating plants.

A cow's best friend
Any self-respecting cow likes to know that the precious food product she supplies is handled with greatest care so it will reach her customers fresh and pure.
From the dairy farm to your doorstep, aluminum is aiding the hygienic handling and processing of dairy products. Milk pails, cans and churns... tank hoods for milk bottles and foil for butter and cheese... all are of aluminum. This modern metal's smooth surface prevents contamination, is easily kept shiny-clean. And it does not "pick up" foreign flavors or odors. As one European authority has said, aluminum and milk are made for each other.
