OBITUARY

Legionnaires Parade To Andrews Funeral

Fellow employees from Malton and fellow members of Acton Legion attended, as well as many friends and relatives, the funeral last Thursday of the late Henry Gilmory Andrews. He died suddenly at work at the A. V. Roe plant, Malton, of a heart attack on Tuesday morning, July 10.

He leaves his wife, the former Gwen Hayward, three young sons, Bruce 15, Keith nine and Robert four, and three sisters, Miss Hazel Andrews, Milton; Mrs. H. L. Ritchie (Ethel), Acton and Mrs. Harry Marsh (Isabel), Milton.

Rev. Evan Jones officiated at the service held at the Rumley Funeral Home, Acton, Thursday afternoon, July 12. Many Legionnaires paraded to the service and later to Fairview cemetery where interment took place. Legion members also carried the many floral offerings.

Pallbearers were Jim Smith, Red Aikens, Coon Varney and Norm Morton of Acton, Fred Johnson, president of Milton Legion, and Len Newell of Milton.

Mr. Andrews was in his 39th year. Despite not feeling well, he had gone to work as usual and collapsed there. News of the sudden passing was a distinct shock to friends as well as members of his family.

He was married in Milton in 1933. His parents, Joseph William Andrews and Isabella Pollock, predeceased him.

The Vampire Jet airplane is constructed of a skin of birch plywood, with structural members of sitka spruce.

Journalism Course Scholarships Will Encourage Students

Four \$100 entrance scholarships for Practical Journalism and Printing Management courses at the Ryerson Institute of Technology, Toronto, were announced today. Edward U. Schrader, director of the two courses, said they were being offered to encourage high school graduates to consider these two professions as careers. There is a shortage of trained personnel in both spheres.

Many Ryerson Journalism and Printing graduates have gone into the weekly newspaper field. (There are three with Dills Printing and Publishing), Werden Leavens, secretary-manager of the Ontario Weekly Newspapers Association, lauded the close co-operation between the school and weekly editors. Last March, Ryerson Journalism students conducted a door-to-door survey of a weekly paper, as part of their training, to determine how thoroughly weeklies are read. The students discovered almost cover-to-cover readerships.

Mr. Schrader said there were four excellent job opportunities, with excellent salaries, for each student who graduated from these two courses last May. The only method for solving the shortage, he pointed out, is to attract more students into these careers.

Practical Journalism students study techniques used in writing and editing for daily and weekly newspapers, publicity offices, and radio and TV news. The Printing Management graduates get into such positions as estimators, assistants to superintendents, production controllers and purchasing agents.

Entrance requirement for Journalism is five Grade 12 papers and Printing Management students require their Grade 12. Competition for the entrance scholarships will be held after Ryerson resumes September 17. Examinations will be based on high school work.

OBITUARY

Native of Rockwood Interred in Oregon

Funeral services were held Tuesday, July 10, in Medford, Oregon, for Miss Jean Pasmore of Medford, a native of Rockwood.

Miss Pasmore, the daughter of the late Robert and Euphemia Torrance Pasmore, was born in Rockwood on January 14, 1878. She went to the United States, where she became a naturalized citizen when working for the customs office in Seattle as a stenographer. She was also employed at the Multnomah Hotel in Portland. She went to Medford 12 years ago where she was a member of the First Presbyterian church.

Survivors include three brothers, Frank Pasmore, Medford and William Pasmore and Fred Pasmore, both of Rockwood, and two sisters, Mrs. Angus Carter of Guelph and Mrs. R. W. Clancy of Medford.

Service Station Guttled by Fire

Fire gutted the White Rose service station in Norval last week.

The fire began in the garage at about 9:45 a.m. and raged for two hours before it was brought under control.

A snack bar which adjoins the garage was damaged to a lesser extent when fire destroyed a pinball machine and part of the counter. Flames razed most of the second storey apartment, destroying the living room and two bedrooms in a matter of minutes.

The fire travelled through the building so rapidly that Mr. J. M. McCallum, owner of the garage and resident of the apartment, had no chance to remove any furniture.

When it became obvious that the garage would not be saved, the firemen concentrated their efforts on the apartment and snack bar.

Mr. McCallum has owned the garage for only a year. The building was formerly owned by Lloyd Sedore.

The cause of the blaze has still not been determined.

HORACE TOMLINSON, Surge dealer for the counties of Peel and Halton won the monthly contest for Surge Milker dealers in Ontario for May. This challenge trophy, in the form of a silver plated cannon, was presented by Babson Bros. Co. at a dinner given at the Queen Elizabeth Lodge recently. The cannon is a genuine 10 gauge Winchester firing piece, and is one of six being competed for throughout Canada.

Spraying Vetoed By Erin Council

After considerable discussion and after hearing the report of the road superintendent on the condition of roads due to washouts, Erin township council decided not to have the roads sprayed this year. The amount that will be required to make necessary repairs to roads was reviewed by the men who met on June 26. The bush will be sprayed when absolutely necessary.

The building inspector is to be paid \$1 per hour and 10 cents per mile travelling expenses for his services when inspecting. Reeve Harold Griffin presided at the special meeting.

Grant Permission For Water System

Permission was granted to Lloyd Deeth to install a water system in the Mountain View subdivision when Erin township council met on July 6. The installations made are to conform to the plans and specifications of the engineer and are subject to the approval of the Board of Health.

Harold Griffin, the reeve, presided at the meeting. A proclamation declaring Monday, August 6, Civic Holiday, to be a public holiday in the township, was authorized.

Erin district high school board was to be paid the balance of the 1935 high school levy. The treasurer was also authorized to pay \$5,000 on the county tax levy for 1936.

A grant of \$10 was given to Hillsburgh Horticultural Society. Accounts passed included general \$375.94, relief \$135.20 and roads \$4,281.76.

ALBERT SCHWEITZER: AN INTIMATE PORTRAIT

Again this week we notice another account of a woman's meeting, when Dr. Albert Schweitzer was the topic of an article read. Certainly he is one of the most popular figures in the field of religion today. His extraordinary aptitude for music also adds charm to the wonderful story of his life.

Acton library has a most pleasant study of the great doctor, written, fortunately, by one of his intimate friends, Jacques Feschotte. This is not a story but really a study of the man known in every corner of the Christian world.

There is little use repeating his credo of "respect for life" and telling of his life-saving work in Lambarene in Africa. Most of us already know about it and still will find much profit in reading more. Surely his life is a shining example of practising Christianity.

New Hospital Wing Still Not Operating

The new \$1,767,000 wing of the Oakville-Trafalgar Memorial hospital, opened one month ago, has not yet been put into operation.

A spokesman for the hospital said another week would elapse before the "services" were all started and that patients could not be moved until the services were ready.

The only two departments open in the new wing are the kitchen and switchboard, opened on June 28.

It was also learned that the old 53-bed portion of the hospital was not overcrowded at present. Hospital authorities do expect, however, to use some of the new space shortly.

Services referred to previously include the central sterile supply depot, laboratory and operating facilities.

Estimates are now being received for rebuilding and remodeling the original part of the hospital, the cost of which is not yet known. This portion of the hospital will consist, mainly, of maternity ward, nursery and out-patient department.

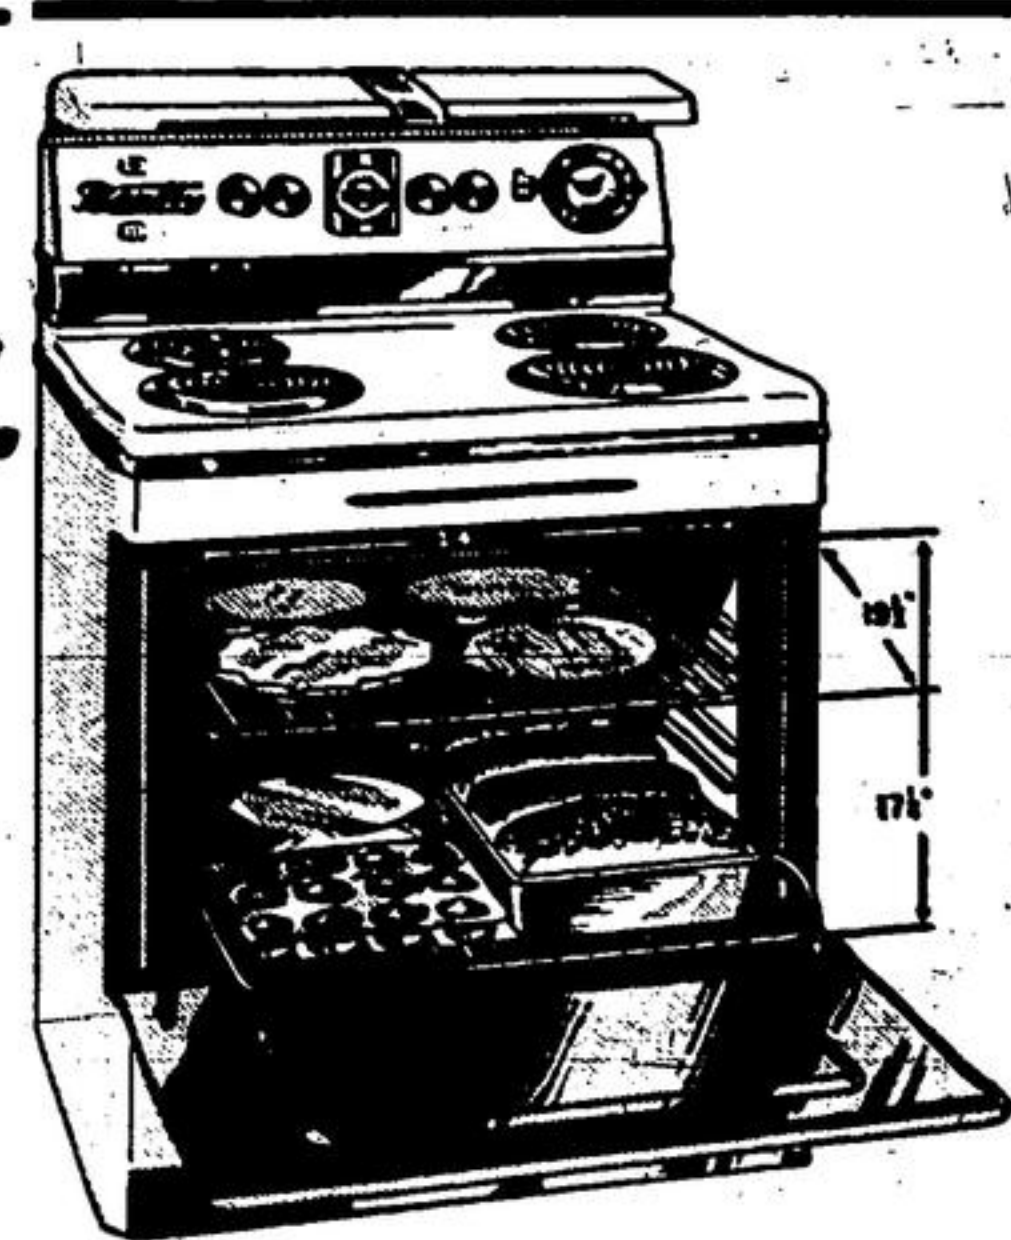

Bicycles, Sand Arouse Council

Riding of bicycles on the sidewalks of downtown Brampton streets is constituting a hazard both to baby carriages and pedestrians. Councillor Walter Misener drew the problem to council attention when he asked that the police committee consider the matter. While this dangerous practice was occurring on all streets, he felt it could be particularly harmful in the business section. At the same meeting, Councillor John Pawley again drew attention to sand remaining on some of the sidewalks. Mayor Nance Horwood noted that removal was "up to the ratepayers." Council members could not understand why citizens would want this nuisance in front of their properties.

Review Rates

A large delegation of residents appeared before Streetsville Public Utilities Commission last week to complain about revisions in water rates under the meter system. The Commission will use July as a trial month, after which the rate structure will be reviewed and adjustments made. The water meters were just last month installed in the village.

Beatty TRAIN-LOAD SALE

NEW 1936 ALL-AUTOMATIC '30'

Has automatic clock control with built-in electric minute minder. Automatic OVEN heat control is most accurate - the heat you set is the heat you get. Automatic oven light. Has storage drawer.
