LETTER TO THE EDITOR

Lack of Leaders  
A Serious Matter

196 Churchill Road, Acton.  
Editor,  
The Acton Free Press  
Dear Sir,

During the few months that I have been a resident of Acton, I have been much impressed by the interest shown by the people at large in community activities. The Band Tattoo, the parade to commemorate the fallen of two World Wars, the improvements to the park, the magnificent response to the recent Blood Donor Appeal and the coming Acton Fall Fair are the direct result of voluntary effort and much credit is due to those who have participated and foregone some of their leisure to benefit others.

In sharp contrast is the apathy shown by the adult population towards the youth organizations of the town, with which I have been associated. I refer specifically to the Scout and Cub groups and to the Junior sections of the Y.M.C.A. In both instances, the shortage of leaders is so acute that the activities of these two splendid organizations may have to be drastically curtailed. This is serious indeed, particularly as it comes at a time when demand for membership is increasing and widespread concern is felt among responsible persons at the growth of juvenile delinquency throughout the North American continent. Furthermore, the young people are the leaders and administrators of tomorrow and

Tender Two Minutes Late Was Accepted

It was two minutes past 12 noon, the deadline for Bronte's sewer tenders, when the tender of one firm, G. M. Geet Ltd., of Toronto was received in the office of the village clerk. Ordinarily this two minute delay would have disqualified a tender for consideration by council.

But Reeve Thomas Millwood explained to council that the watch of the man who brought in the tender indicated exactly 12 when he reached the office and furthermore, that he had been delayed by an accident.

"I feel the tender should be accepted for consideration," said the Reeve Council agreed. First of the seven tenders was received at 11 a.m., just an hour before the deadline.

Quebec, Ontario, British Columbia, Alberta and Saskatchewan, in that order, are Canada's largest provinces according to total area.

without proper support and guidance, they cannot be expected adequately to fulfill their obligations in later life.

This letter is written to draw attention to the critical position which is developing, in the hope that the few volunteers that are required will be forthcoming to assist the present over-worked leaders.

Acton hasn't failed yet. Here is a challenge.

Yours truly,  
D. I. Tarrant

CANADA'S WEEKLY NEWSPAPER editors, more than 60 of them, sailed on the Empress of Britain from Montreal recently for a tour of the United Kingdom. They found that, even at sea, they were not far from a printing shop. Some of the editors are shown above examining the ship's press, which prints a daily newspaper, the Empress of News, and turns out the many other printing jobs, such as menus, required by a ship at sea. Left to right above are: H. McCormick, N.D.G. Monitor, Montreal, F. W. Beattie, Spectator, Annapolis Royal, N.S., F. P. Galbraith, Advocate, Red Deer, Alta., R. G. Shearer, News Tribune, Blenheim, Ont., and C. H. Nolan, Tribune, Stouffville, Ont.

# Natural Gas

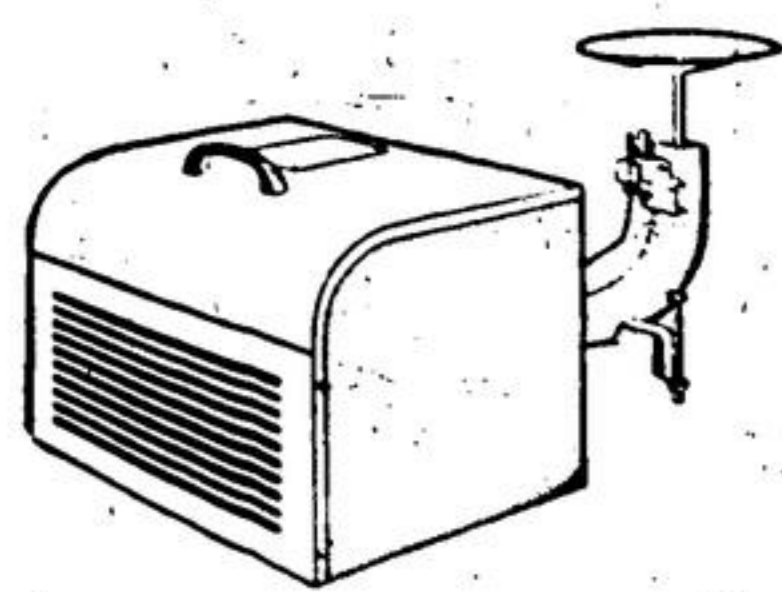

## HEAT with GAS

install a **GAS** Conversion unit in your present furnace for as little as

**\$ 250<sup>00</sup>**

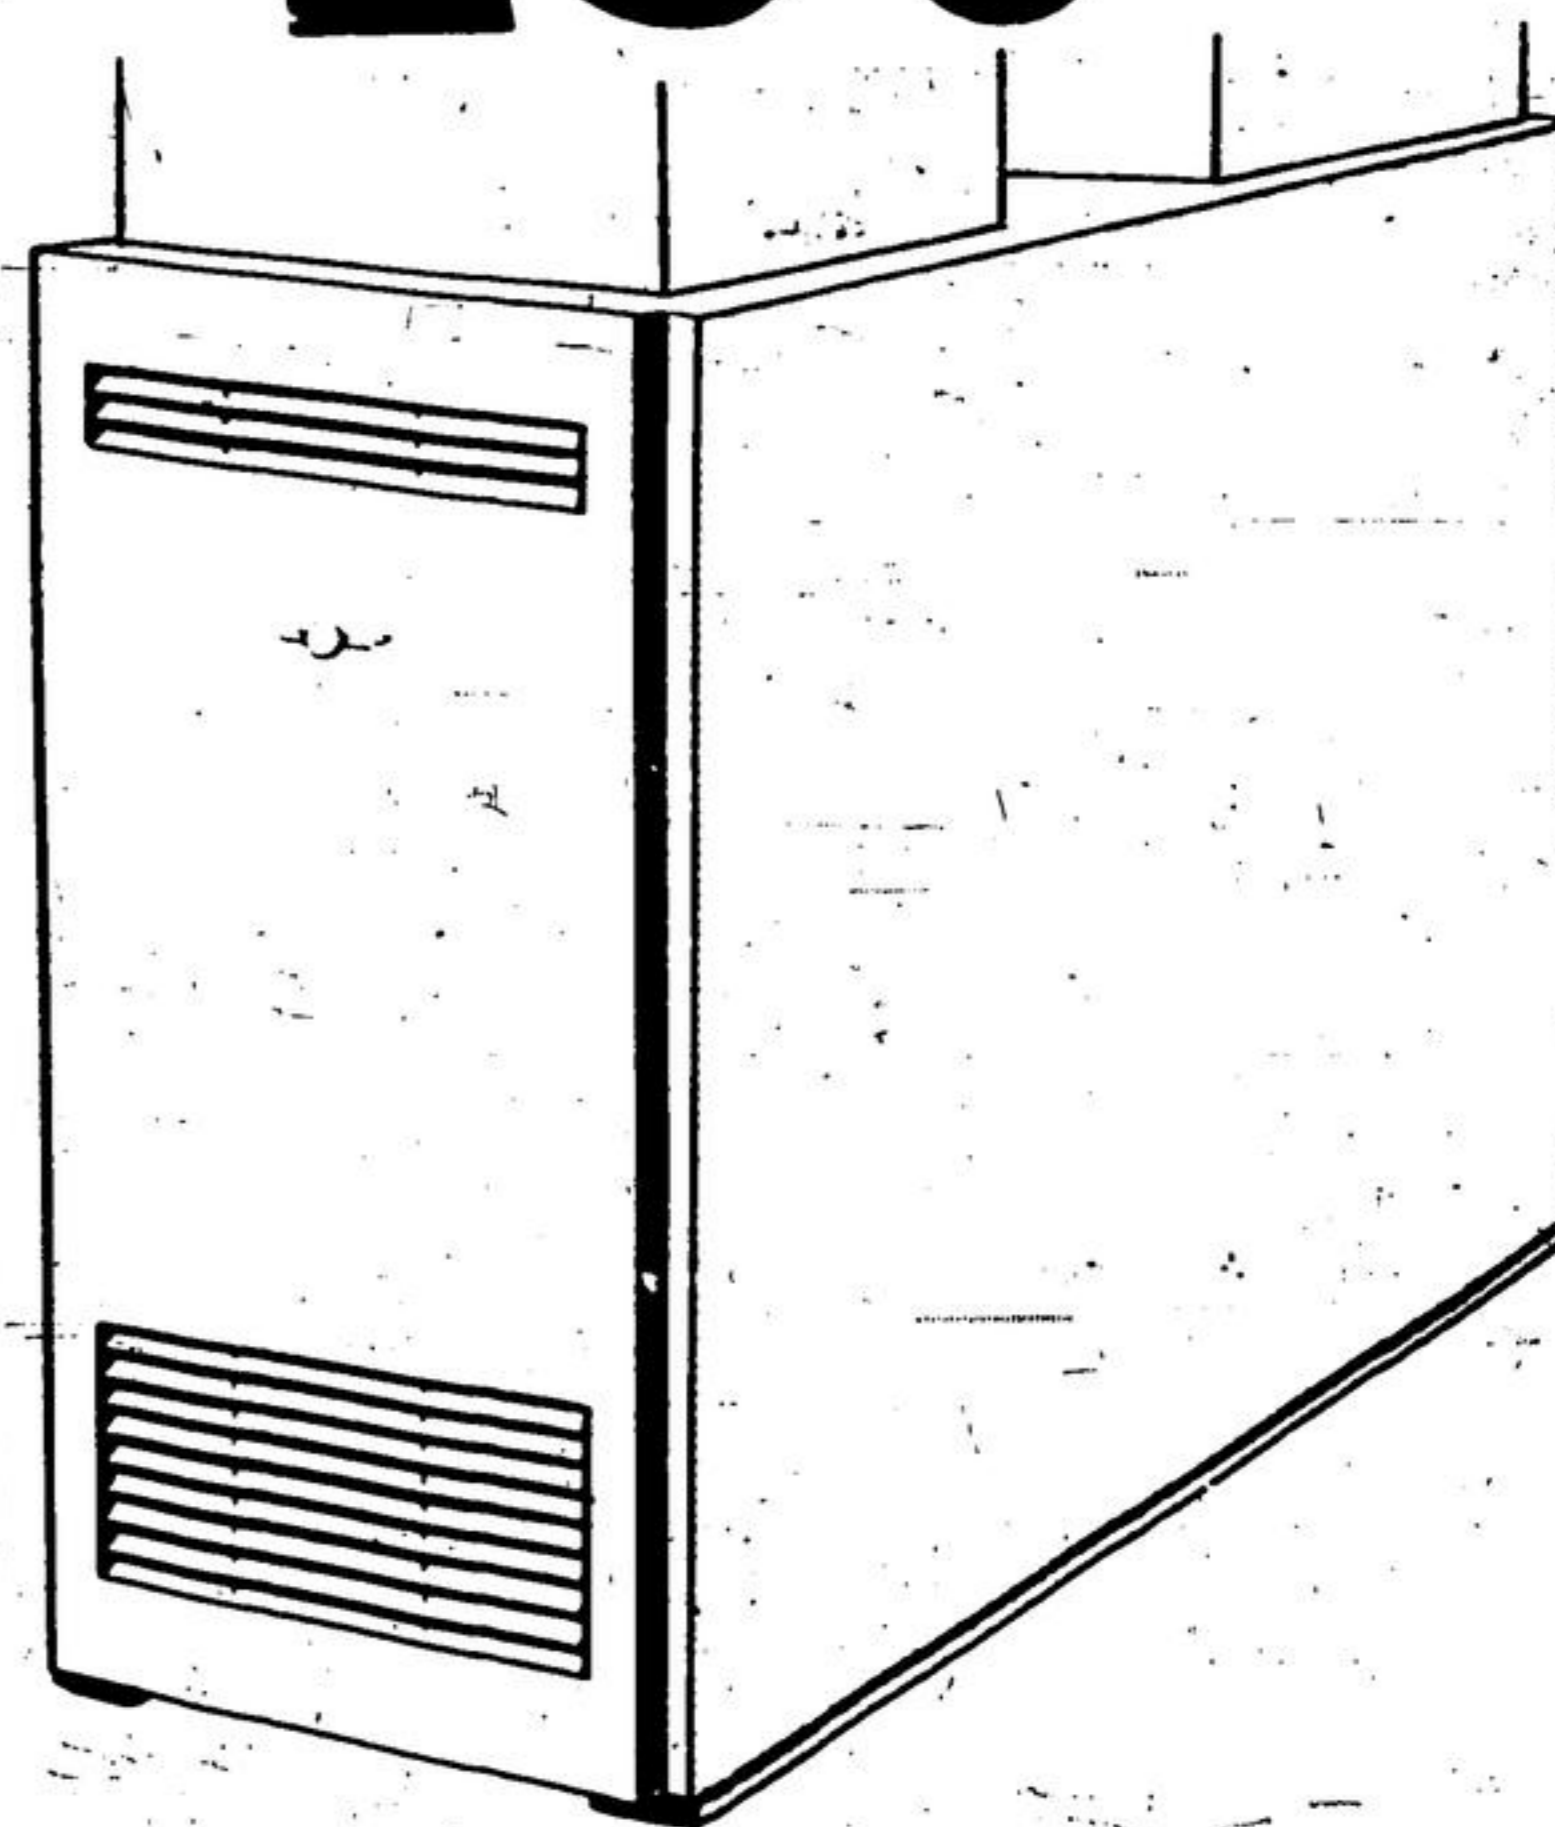

### Conversion Burners

Tired of Bothersome Furnace Chores? Enjoy automatic gas heating with your present furnace. Install a convenient, economical gas conversion burner. Designed for your home, it's adjustable to fit all furnaces... takes only a few inches of floor space... requires no unsightly fuel storage area. Your furnace can be changed over now! And remember—if you need service, it's FREE!

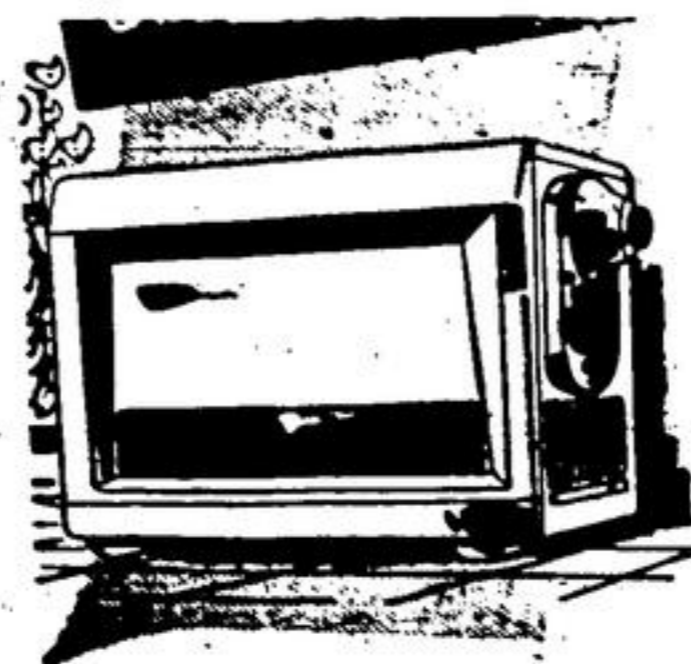

### Winter Air Conditioning Furnaces

Why are more and more homes, now heated with natural gas, and thousands more being added each year? It's the clean, healthful, even heat gas provides. It's also the economy and comfort of automatic heating at its best. The simplicity and low cost of the installation. The elimination of delivery and storage problems. The assurance of unfailing supply... because gas travelling underground is never stopped by weather or traffic. Before you invest in outdated heating equipment, enquire at our office or consult your local heating representatives for complete information about safe, silent, dependable gas heating. And remember, if you need service, it's free!

### Space Heaters

If you want clean thrifty gas heat for hard to heat places, then an automatic gas space heater is the solution to your problem. These heaters are available in many sizes and styles. With natural gas heating, cleaning bills are kept to a minimum, there are no dirty streaks on walls, furniture or drapes; natural gas is clean and dependable. Easy payments can be arranged on your monthly gas bill. And remember—if you need service, it's free!
