

### Local Rotary, Y's Men's Clubs Hold Joint Dinner Meeting

The usual gay and spirited atmosphere of the Y's Men's dinner meetings reached a new high, Thursday, March 28. The program was full of overflowing and each of the several events were, in themselves, worthy activities of that very active group.

The occasion was the annual get-together of Rotarians and Y's Men, with the Y's Men being the host for this year. Each club was represented by a large attendance of its members by means of which a fast moving fines period amassed a good fund in aid of the Crippled Children. For the Rotarians, President Jim Ledger responded to the Y's Men with some worthy observations.

The special feature of the evening was the presentation by the Bell Telephone Company of Canada Ltd. of its spectacular science film, "Our Mr. Sun," a presentation of the new knowledge gained of our sun and how it affects our lives, present and future. Lorne Doherty of the Hamilton division represented the Bell Telephone

Mr. C. W. Lutz, past president of the Rotary Club in Alton, Illinois, who has not missed a weekly meeting of his club in 25 years, is shown with president Harry Arbie, of the Acton Y's Men's Club, at the joint Rotary and Y's Men's dinner.

### Double Grass Fire Challenges Firemen

Acton Fire Department were called out Saturday to two grass fires. At approximately 11:30 a.m., they responded to a call at the farm of G. Lucas, R. R. 2, Acton, where a grass fire was extinguished.

The siren aroused the firemen from their domestic duties again at 3:15 p.m., to find another grass fire behind the home of Reg. Hoare, making great headway towards the cemetery. Chief Newton, with his well trained fire department, had things under control in a short time.

*Let's get to the bottom of this*

Tuberculosis last year took the lives of nearly 1500 persons in Canada.

Most of these people died unnecessarily. EARLY DIAGNOSIS WOULD HAVE SAVED THEM.

We Ontario people are fortunate in that x-ray facilities—the key to early diagnosis—are freely available.

We are getting to the bottom of this TB problem . . .
