**PROGRESSIVE CONSERVATIVES HAVE A GOOD PROGRAM**

**Sandy Best**

THE Progressive Conservatives base their platform on the welfare of the people. They firmly believe that a Government's FIRST consideration should be the well-being of all Canadians.

To achieve this they propose to lower taxation to the point where it pays for government business without piling up multi-million-dollar surpluses in Ottawa.

The Progressive Conservatives also contend that tax relief of industry is essential to assure business expansion and increased employment; that tariff protection for Canadian farmers would prevent dumping of U.S. products in this country; that municipalities should be given Federal aid to help underwrite the cost of unusually rapid growth and that Canada's senior citizens should receive Old Age Pensions large enough to guarantee a comfortable living.

Those who say the Progressive Conservatives have no platform are talking through their hats. The Progressive Conservatives have a very good program, some points of which are mentioned above. When you vote Progressive Conservative on June 10th you can be sure of a well-planned program that will be beneficial to ALL Canadians.

Yours Sincerely,

*Sandy Best*

Halton Progressive Conservative Candidate
