Bait fishermen and fly casters alike revel in the good trout fishing to be had in Prince Edward Island's ponds, brooks and streams.

Visitors will find that the entire coastline of the National Park in Prince Edward Island is a solid unbroken 25 miles of beach equal to the best in other well-known vacationlands.

**Township Teacher Tries  
New School Paper Edition**

Marilyn Leslie, teacher at School Section No. 5, Nassagaweya Township, tried out something new this year for pupils in the way of a "School Paper". Titled "Edgewood Echoes", it is about 14 by 9 inches and has seven pages of school activities, written by the pupils themselves that cover events through the whole year.

John Ramsay is first in the "news" with an item about their Halloween party. David Hobson tells of a public speaking contest. Susan Tomlinson's subject was Canadian Junior Red Cross work. "Every Tuesday and Thursday after lunch, the class listened to a poem by one of the students," wrote Janet Lawe. "We all look forward to poetry time," says Janet, when lovely and funny poems are heard.

Brenda Smith, Jackie Abram and Eunice Norrish told of the Halton County Music Festival when Victor Funk won a bronze medal. Roger MacDougal was to receive the H. McIntosh trophy. Eunice Norrish tells of the Christmas concert. Jimmie Turner of Hobby Day. Skating parties were covered by Murray MacPherson, Douglas MacPherson and David Hobson.

"Each work on Friday" comments Larry. Culling. "We have Current Events which teaches us more about our country, inspires us to read newspapers and helps us a great deal with our school work."

Bob Culling took the Valentine as his item. "Some valentines were unsigned," he says, "and it was fun guessing who sent them."

The King and Queen of Posture

were chosen frequently. Earl Heywood won a prize given by Miss Leslie for being "King" of posture for three weeks in a row. A boy and girl team, Bonnie MacDougal and lively Terry Hamilton did "personality" sketches of the class. These are fascinating to read and pretty fair gauging of characters.

David Woodhouse commented on Oral Science Compositions. As would be expected, Bonnie MacDougal's subject was ball games. To Terry Hamilton went the pleasant job of writing about their Toronto trip. Obviously he personally had a "super" time himself.

At the end of this documentary paper, teacher Marilyn Leslie wrote a few lines mentioning how much she had enjoyed working with the children the past two years. "We hope," she says, "you, our parents and friends, will appreciate our efforts and will enjoy reading our school paper."

To those lucky enough to have received a copy of this unique endeavor for a grade, rural school, it can only be hoped that they'll treasure it in the years to come for time passes swiftly and such a supreme effort by these industrious children deserves this care.
