“My Life Insurance man did a grand job for me, Ed” All talk over the back fence isn't about sport, or politics, or television programs. Very often it's about such vital things as looking after the family and having enough money to retire on. Your life insurance man is well equipped to solve these problems. He is trained to analyze all the facts about a family's future requirements. He saves Canadians' families by offering practical plans to meet individual needs. Life Insurance representatives have exceptional training opportunities today. Their own companies provide them with basic courses covering a wide variety of subjects. Through the Life Underwriters Association of Canada they have access to the experience of many able men who have helped to make Canada the world's best-insured people. This Association has a 2-year training program for its members. And, in addition, for those who desire to pursue more advanced studies, there is a 3-year university extension course leading to the Association's designation of Chartered Life Underwriter (C.L.U.). This thorough training plus practical experience in helping people explains why millions of Canadians have welcomed the services of the modern Life Underwriters.
