

**ACTON CUBS** are pictured as they marched in the District Scout parade last Sunday afternoon in Georgetown. Attending the service were scouts and cubs from Erin, Milton, Georgetown, Glen Williams, Hillsburg and Acton. Rev. Morgan McFarlane, of Georgetown extended a welcome to the visitors and expressed pleasure at the large number present.

### Mullin - McLean Nuptials Solemnized at N.B. Church

A pretty wedding of wide interest took place in Brookville United church, Brookville, New Brunswick, on Saturday afternoon, when Miss Frances Barbara McLean, daughter of Mrs. William Leslie McLean and the late Mr. McLean, Brookville, became the bride of Ewart Rankine Mullin, son of Mrs. William Leonard Mullin of Toronto and the late Mr. Wm. Mullin, formerly of Acton, Ont. The Rev. George Ward of the Park Avenue United church, East Saint John, officiated.

Miss Ruth Clarke presided at the organ and the guest soloist was Miss Grace Logic. The church was effectively decorated with baskets of cream colored mums and shasta daisies. Lighted candles in candelabra and white mums adorned the communion table. The guest pews were marked with white satin bows.

Given in marriage by her uncle, Cecil Murray of Sackville, the bride was attended by her sister, Mrs. R. B. Pritchard, as matron of honor and Miss Barbara Clark, her niece, as flower girl.

William Scott Mullin, brother of the groom, and the ushers were Dr. R. B. Pritchard, Havelock, Ont., brother-in-law of the bride, and MacKinnley Rankine, Belleville, Ont., the groom's cousin.

The bride wore a ballerina length gown of beige lace over eggshell satin fashioned with a round lace applied neckline, short sleeves, fitted bodice coming to a V in the back, with a very full skirt. Her shoulder length veil of tulle illusion was held in place by a comb at the nape of her neck. Her only ornament was a strand of pearls. She wore matching gloves and carried a cascade of yellow sweetheart roses and stephanotis.

The matron of honor wore a ballerina length dress of ruby red velvet with short sleeves, fitted bodice with a Bertha neckline. Her headpiece was a band of matching velvet with a short face veil. She carried a cascade bouquet of Mexican mums and sweetheart roses.

The flower girl wore a dress of deep rose taffeta with sash of ruby red velvet to match that of the matron of honor. Her dress had short puffed sleeves, Peter Pan collar and a very full skirt. Her headpiece was a ruby red velvet band fastened with white feathered intims and she carried a miniature bouquet of roses, similar to that of the bride's.

Following the ceremony a reception was held at Shadow Lawn in Rothsay. The toast to the bride was proposed by Walter Russell-Wakefield, to which the bridegroom happily responded. The guest book was in charge of Miss Joan Stratton.

### Immigrant Miner Lived Through Modern Odyssey

MANITOWADGE, Ont. (CP) — The events in the life of miner Sam Andrews read like a modern Odyssey.

In his 38 years, he has fought for the Germans, hidden from the Russians, sweltered in mines in tropical Africa and crossed and re-crossed thousands of miles in the search for a home.

Born in Savu, Adra, Romania, just after the First World War, Sam was the son of a prosperous merchant and lived the first two decades of his life in comparative wealth.

Then in 1941, Germany invaded Russia, and he marched on Stalin's grad with the grey legions of the Nazis. Romanian Brigade At Stalingrad the guns were turned. He was captured and spent a year in a Russian prison camp.

He refused Russian requests to fight against the Germans and instead slipped out of the camp to join partisans in the hills. When the war ended in 1945, he still had to live as a fugitive until 1947, playing hide-and-seek with Soviet occupation troops in the hills of Romania and Yugoslavia.

He made his way to Hungary, then to Austria, where he was but one of thousands seeking a chance to escape the regimentation of the refugee camp.

He went to Italy, then to Belgium, where he got a ship for Africa in 1949. He worked in mines for a year in the tropical heat of the Belgian Congo. Sam got his permit to emigrate to Canada in Italy and came here in 1952.

### Set Election Date For Erin Township

Deputy-reeve George C. Wallace was appointed acting reeve during the illness of Reeve H. C. Griffin, at a special meeting of Erin township council on Tuesday, September 17.

It was resolved that no permits for the erection of summer cottages be issued by the building inspector until further notice. Council adjourned.

A by-law was introduced and approved setting the nominations for council and school area trustees for the township of Erin at their regular meeting in Hillsburg on September 30.

It was resolved to hold the nominations in the town hall at Hillsburg on Friday, November 29, from 1 until 2 o'clock in the afternoon.

Council further set the election date for Monday, December 9 at the following places with the following returning officers named:

No. 1, Ospringe, at Stewart's Garage, W. E. Robertson, D.R.O.; David Simpson, P.C.

No. 2, Ballinacra, at Community Hall, Robert Kerr, D.R.O.; Jesse McKenry, P.C.

No. 3, Hopyard, at Harry Turner's house, James Gillespie, D.R.O.; R. D. Graham, P.C.

No. 4, Coningsby, at Wilfred Chryne's house, Megan Graham, D.R.O.; Donald Matheson, P.C.

No. 5, Milton, Earl Jessop, D.R.O.; Hamer Root, P.C.

No. 6A, Hillsburg, at town hall, Archie McDougall, D.R.O.; Wilbert McFay, P.C.

No. 6B, Hillsburg police village, at town hall, Geo. Lacey, D.R.O.; J. Arthur Rodgers, P.C.

No. 7, Leslie's school, at school house, Chas. McKoson, D.R.O.; Thos. McCutcheon, P.C.

It was resolved by council that Erin township would revert to Standard Time on Sunday, October 27 at 12:01 a.m.

The following accounts were approved for payment: general, \$183.75; welfare, \$77.30; sheep, \$57.00; roads, \$1,497.32.

### "Most Ambitious Project" CBC Royal Visit Coverage

Coverage of the Queen's October 12 to 18 visit to Ottawa will be the most ambitious project CBC television has undertaken in its five years of operation.

In technical complexity it will outstrip all former achievements, including the documentary on the St. Lawrence Seaway in the series "Wide World" last year and the coverage of the 1955 British Empire Games in Vancouver.

The biggest problem from a programming standpoint, will occur on the first and last days of the visit—the drive to and from Uplands airport. The distance itself, 13 miles and the fact that the route turns and twists, make live television coverage extremely difficult.

It will take 25 cameras to cover the 13-mile route from the airport to Rideau Hall. These cameras are controlled by mobile TV units.

On the drive from the airport to Rideau Hall there will be seven such mobile units in operation. A great deal of the time spent planning the operation has gone into the grouping and positioning of these units to ensure maximum effectiveness.

The producer for each of the seven mobile units, sitting in his control truck, will monitor the pictures being fed back to him by the cameras under his control. He will select the one he feels is most suitable and feed it back, via microwave, to the master control room in the basement of the parliament buildings.

At the master control centre, the production co-ordinator will monitor the pictures being fed back by the units. It is he who will decide what picture the viewer will see.

The whole operation might be compared to a normal three-camera studio set-up with the producer switching between three cameras. The Ottawa coverage will be basically the same operation, enlarged seven times. With the production co-ordinator switching between units rather than cameras.

As well as the seven units there will be five cameras not connected by cable to a control truck. These will be known as satellite cameras. They will operate independently, their pictures being fed back to the most accessible control unit by microwave and again by microwave, to master control.

One such "satellite" camera, on the Wednesday drive to Uplands airport will be located at the new Carleton University site on Colonel By Drive. Its picture will be

fed lightly over a mile to the control unit at Hog's Back and beamed from there the four miles to master control at the parliament buildings.

Special telephones will be installed on trees approximately 1,000 yards from the first camera of F. Eichen found the family cat stretched on the floor as though dead. They sprayed it with water and put it outside. Twenty minutes later the cat was running around, very much alive.

What do Life Insurance Companies do with all the money?

Life insurance companies must report their financial operations to the Superintendent of Insurance. According to the latest official figures here are the facts about the Life Insurance Dollar:

Where each Dollar comes from:

- 74¢ comes from premiums paid by policyholders for insurance to protect their wives and families and for security in their own old age.
- 26¢ comes from earnings on policyholders' funds. These funds are invested under Government supervision and help to develop Canada.

What happens to each Dollar:

- 82¢ is for policyholders. 41¢ is paid out to living policyholders and to beneficiaries.
- 18¢ is used for normal operating expenses which include taxes, licenses and fees paid to Government.

\*The latest report from the Superintendent of Insurance, Ottawa, shows that in 1956 the life insurance companies in Canada paid out \$137 million in benefits to policyholders. By far the greater part of this money (\$126 million) went to living policyholders.

**THE LIFE INSURANCE COMPANIES IN CANADA** L.F.T.D.

**WHO SPENDS?**

WHEN new federal buildings, or new highways with elaborate cloverleaves, or new city halls are constructed, they must be built with the taxpayers' money.

Very often such expenditures are enthusiastically approved, because each of us seems to think it is some other person's tax money which is being spent so lavishly.

Canadians can help themselves, and the men and women they have elected to office, only if they remember that governments have no funds except the taxes they take from each of us.
